TECHNICAL SPECIFICATION · REVERSE-ENGINEERING REPORT

# Mandatory Training Compliance Datastore Update

Excel “training matrix” workflow that tracks every staff member’s mandatory courses and replaces the training rows in the compliance data store each month, reverse-engineered from an operator screen recording, with a target-state architecture

| | |
|---|---|
| **Document** | Technical Specification — reverse-engineered legacy workflow (as-is) and target architecture (to-be) |
| **Subject workflow** | Mandatory training compliance (People › Training): staff register → completed-training history → role rules → Overview → *Compliance Transfer* rows that replace all training rows in *Compliance Data.xlsm* |
| **Primary evidence** | Meeting with Andrew R. Biggins-20260814_113314-Meeting Recording.mp4 — 1920×1080, 16 fps, 14:33 (873 s); camera off; audience: Dheeraj. Recorded about 30 minutes before the Complications video (“only two to go now”) |
| **Secondary evidence** | ...113314....srt (timed subtitles, matches this video), ...113314....txt (TurboScribe transcript), offline Whisper re-transcription |
| **Timestamps** | Video positions. Several formula-bar figures are taken at fractional seconds (shown rounded down) because the operator clicked through cells less than a second apart; each was matched to a verified frame |
| **Companion documents** | Training_PreBuild_Client_Requirements.pdf (same folder); specs 01–03 |
| **Report date** | 16 October 2026 |
| **Status** | Draft for business-owner review. Staff names and training status are shown as recorded (they are the subject of the workflow, as in spec 01); personal email addresses are blurred |

**What the recording shows.** The operator walks through the *Training Matrix* workbook: orange “operational” tabs used day to day and purple “compliance dashboard” tabs that feed the data store. A new contractor, Dr Georgios Mousailidis, is set up live: staff list, training records, Requirements rows and Compliance Transfer rows. The operator says the logic was rebuilt from scratch because Matt “couldn’t actually remember” how it worked.

- **The richest model of the four tools.** Training validity is computed per record: expiry vs TODAY(), a 45-day “Expiring” window, role-based requirements (Roles_Training12) and course supersession (e.g. Safeguarding Adults Level 3 supersedes lower levels).
- **The data store cannot hold training history.** The data store’s “Most Recent” MAXIFS formula “doesn’t seem to work for mandatory training”, so each month the operator **deletes every existing training row** in Compliance Data and pastes the full current set. History survives only inside the matrix.
- **Likely root cause [Inferred]:** the transfer’s Completion Date column mixes real dates with the text “Invalid - No Record” and “N/A”, and MAXIFS ignores text; together with one row per person per course every month, the most-recent test cannot work as intended.
- **Requirements are hand-copied.** For a new starter, 13 rows are pasted and Required TRUE/FALSE typed per course, although the Roles tab already defines what each role needs, so the two can disagree.
- **Thresholds disagree:** Overview targets are 90%/95% per course, while Compliance Timeframes thresholds are 1/0.99/0.95/0.9/0.8 and the operator says Information Governance “should really be 0.95”. Every x months is again 0.5 (“Only Matt knows”).
- **Leftovers:** Course Detail and Staff Filter tabs show #REF!; a Training Intervals table still has Medical Devices headers (“Equipment Type”, “Max permitted days between services”); several tabs are “never been used”.

# 0. Evidence Base, Method & Reading Guide

## 0.1 Source artefacts

| Artefact | What it is | Used for |
|---|---|---|
| …20260814_113314-Meeting Recording.mp4 | Teams recording, 1920×1080, 16 fps, 14:33. Git-LFS object, 96 MB | Screenshots, step timings |
| …20260814 113314-Meeting Recording.srt | Timed subtitles of the same meeting | Timestamp anchors |
| …20260814 113314-Meeting Recording.txt | TurboScribe transcript | Wording |
| Author ASR (Whisper small.en) | Independent re-transcription | Cross-check |

## 0.2 Method and redaction

- Frames extracted with ffmpeg; the 1 fps grid ran about 1 s ahead and was corrected. Formula-bar figures were matched to verified frames at 0.25 s steps.
- Redaction: the Email Address column of the staff list is blurred. Staff names, roles and training status are left, as in spec 01, because they are the subject of the workflow; free-text HR comments appear in a few figures and should be treated as confidential when sharing.
- Confidence tags: **[Seen]**, **[Said]**, **[Inferred]**, **[Unknown]**.

# 1. Complete File, Workbook & Sheet Inventory

## 1.1 Files and external systems

| # | File / system | Role | Evidence |
|---|---|---|---|
| F1 | **Training Matrix v3** (Excel; extension not shown, AutoSave off) | Training register, history, rules, overview and transfer table | Figure 2 [00:01:00] |
| F2 | **Compliance Data.xlsm** | Data store: training rows replaced monthly; Last Updated | Figure 29 [00:13:06], Figure 31 [00:14:16] |
| S1 | ESR (Wellbeing staff) | Monthly compliance report for substantive staff [Said] | 00:04:26 |
| S2 | Workforce Solutions (WFS) | Monthly report for workers engaged through WFS [Said] | 00:04:26 |
| S3 | Provide CIC L&D | Monthly report for staff with a substantive Provide CIC post [Said] | 00:04:26 |
| S4 | Direct contractors | No report: the team emails each contractor for certificates [Said] | 00:04:25 |

## 1.2 Worksheet tabs in Training Matrix v3

| Tab | Colour / role | Opened |
|---|---|---|
| **All Staff List_Comments** (Table1) | Orange, operational: staff register | 00:00:32–00:02:52 |
| **Completed Training** (Training_History4) | Orange: every training record ever (about 4,229) | 00:02:07–00:02:40, 00:13:21 |
| **Overview** | Orange: current-staff compliance grid | 00:03:13–00:05:05 |
| **Overview (Onboarding)** | Orange: onboarding staff grid (not sent to the data store) | 00:02:55–00:03:12 |
| OMcGOW | Orange: Oliver McGowan training tracker [Inferred] | Tab only |
| **Requirements** | Purple, dashboard: person × course requirements | 00:05:16–00:08:58 |
| **Compliance Timeframes** | Purple: catalogue and thresholds | 00:10:29–00:11:20 |
| **Compliance Transfer** | Purple: rows to paste into the data store | 00:00:40, 00:08:58–00:10:29, 00:12:35 |
| **Roles** (Roles_Training12) | Reference: role × training × required | 00:11:24 |
| **Training Details** | Reference: course intervals and supersession | 00:11:36 |
| Training Intervals | Reference with Medical Devices headers (cloned) | 00:11:43 |
| Dropdowns | Lists for the Overview pickers | 00:11:44 |
| Course Detail · Nurses · Staff Filter | “Never been used”; #REF! errors seen | 00:11:50–00:11:56 |
| Transfer from v… · Role Rules | Partly visible names; Role / Training / Required / Role Lookup table | 00:12:00 |

## 1.3 Overview screenshots

**Figure 3 [00:00:46] — Training Matrix v3.xlsm › Compliance Transfer:** Compliance Transfer table: one row per staff member × training (14,046 cells selected), Completion Date, Completion Status, Issue 10, Compliance Notes

# 2. Exhaustive Column-Level Schema & Data Lineage Catalogue

Origin: **MAN** = typed by the operator (often from an ESR / WFS / L&D report or a contractor's certificate); **CALC** = formula.

## 2.1 All Staff List_Comments (Table1)

| Col | Header | Type | Origin | Lineage, rule and evidence |
|---|---|---|---|---|
| A | Staff Name | Text · key | MAN | Natural key for every lookup (e.g. "Dr Georgios Mousailidis", with or without "Dr") |
| B | Email Address | Text | MAN | Free text, sometimes several addresses (blurred) |
| C | Employer | List | MAN | Wellbeing · Contractor (Direct) · Workforce Solutions · Provide CIC: decides how training evidence is obtained |
| D | Service | Text | MAN | SURGICAL, ND, CORPORATE SERVICES … |
| E | Training System | Text | MAN | ESR, Direct, WFS, Provide L&D |
| F | Works With | Text | MAN | Adult / Children / Both |
| G | Role | Text | MAN | e.g. Registered Practitioner, Neurodevelopmental, Business Admin (Virtual) |
| H | Role Lookup | Text | CALC | `=CONCAT([@Role]," - ",[@[Works With]])` → key into Roles. Figure 4 [00:01:15] |
| I–J | Start Date, End Date | Date / text | MAN | Mixed formats: "22-Oct", "01-Dec", "20-Jan" stored as text |
| K | Current Staff | Y/N | CALC | `=IF([@[Staff Name]]<>"",IF([@Status]<>"Onboarding",IF(AND([@[Start Date]]<=TODAY(),OR([@[End Date]]>TODAY(),[@[End Date]]="")),"Y","N"),"N")`. Figure 5 [00:01:22] |
| L | Role2 | Text | MAN | Short role (GPwSI, Nurse, OSALT …) |
| M | Status | List | MAN | Live / Inactive / Onboarding / blank |
| N | Last Review | Date | MAN | Date of last check |
| O | Notes | Text | MAN | Running commentary ("SG Children L3 booked 1/2 Sept 26 …"), pulled into Requirements and the data store |

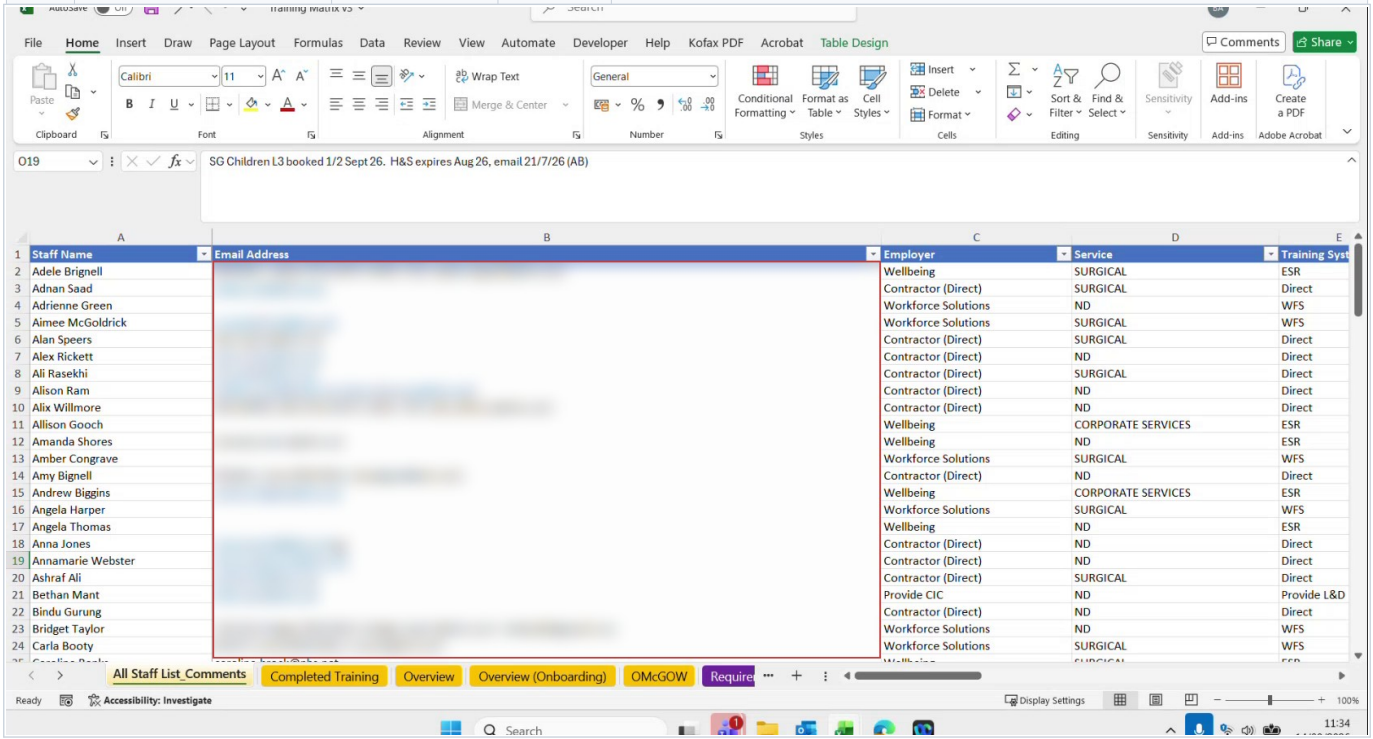

**Figure 2 [00:01:00] — Training Matrix v3.xlsm › All Staff List_Comments:** Staff list (Table1) A:E: Staff Name, Email Address (blurred), Employer (Wellbeing, Contractor (Direct), Workforce Solutions, Provide CIC), Service, Training System (ESR, Direct, WFS, Provide L&D). Tab bar: orange operational tabs, purple compliance-dashboard tabs

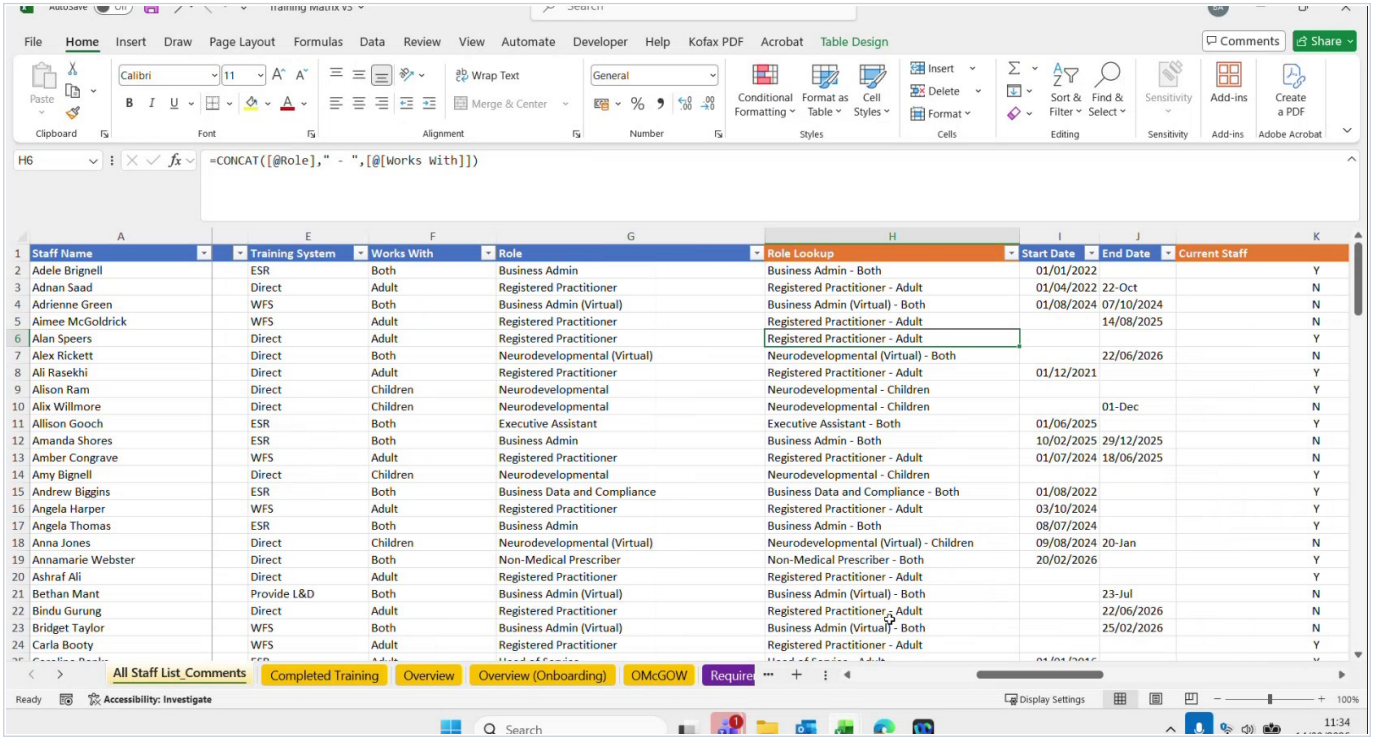

**Figure 4 [00:01:15] — Training Matrix v3.xlsm › All Staff List_Comments:** Formula bar, H6 Role Lookup: =CONCAT([@Role]," - ",[@[Works With]]); Training System, Works With, Role, Start/End Date, Current Staff

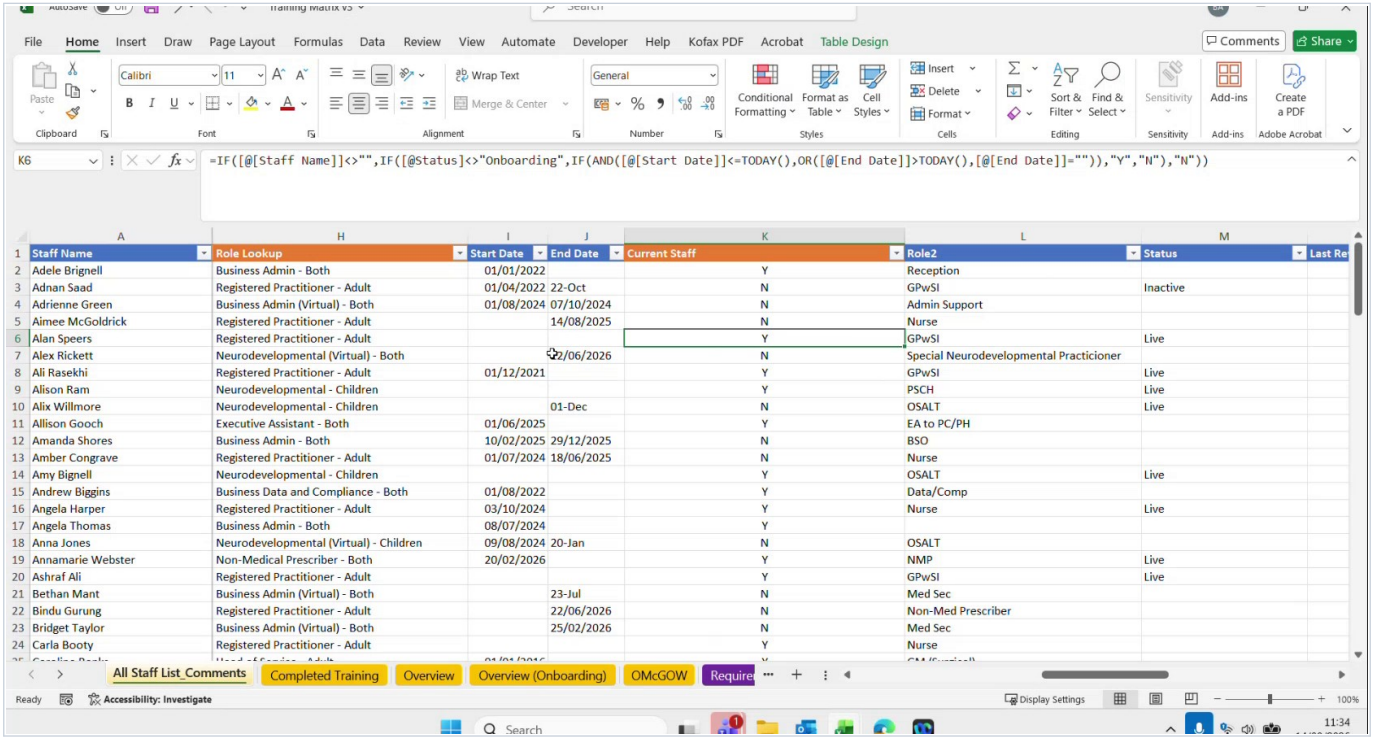

**Figure 5 [00:01:22] — Training Matrix v3.xlsm › All Staff List_Comments:** Formula bar, K6 Current Staff: =IF([@[Staff Name]]<>"",IF([@Status]<>"Onboarding",IF(AND([@[Start Date]]<=TODAY(),OR([@[End Date]]>TODAY(),[@[End Date]]="")),"Y","N"),"N")); Role2 and Status (Live/Inactive)

## 2.2 Completed Training (Training_History4)

| Col | Header | Type | Origin | Lineage, rule and evidence |
|---|---|---|---|---|
| A | Name | Text | MAN | Staff name |
| B | Training | Text | MAN | Course name as recorded |
| C | Completed Date | Date | MAN | From the report or certificate |
| D | Expiry Date | Date | MAN/CALC | Completion + interval [Inferred] |

| Col | Header | Type | Origin | Lineage, rule and evidence |
|---|---|---|---|---|
| E | Valid/Expired | Text | CALC | “One Off” → Valid; expiry > TODAY()+45 → Valid; within 45 days → “Expiring - date”; blank → “Invalid - No Record”; Not Required → “Valid - Not Required - Expiry Date …”; else “Invalid - date”. Figure 7 [00:02:21] |
| F | Is Superseded | Boolean | CALC | TRUE when a higher course (Superseded By 1/2) exists for the person. Figure 11 [00:02:32] |
| G | Supersedes | Boolean | CALC | TRUE when this course replaces a lower one |
| H–K | Superseded By 1/2, Supersedes 1/2 | Text | CALC | From Training Details |
| L | Valid For (Days) | Integer | CALC | `=XLOOKUP([@Training],Training_Details[Training],Training_Details[Interval],"")` (365, 730, 1095) |
| M | Lookup 1 | Text | CALC | `=CONCAT([@Training],"-",[@Name])` |
| N | Most Recent Training Session Lookup | Text | CALC | Most recent record per course and person [Inferred] |
| O | Course Name | Text | CALC | Course group when the record counts. Figure 10 [00:02:30] |
| P | Final Lookup | Text | CALC | `=IF([@[Course Name]]<>"",CONCAT([@[Course Name]],"-",[@Name]),"")` |
| Q | Final Lookup 2 | Text | CALC | `=IF([@[Final Lookup]]<>"",IF(MAXIFS([Completed Date],[Final Lookup],[@[Final Lookup]])=[@[Completed Date]],[@[Final Lookup]],""),"")`: only the newest completion keeps a key. Figure 9 [00:02:28] |
| R | Requirement | Text | CALC | Required if the role needs this course or the course it supersedes. Figure 8 [00:02:26] |
| S | Role | Text | CALC | `=XLOOKUP([@Name],Table1[Staff Name],Table1[Role Lookup],"")` |

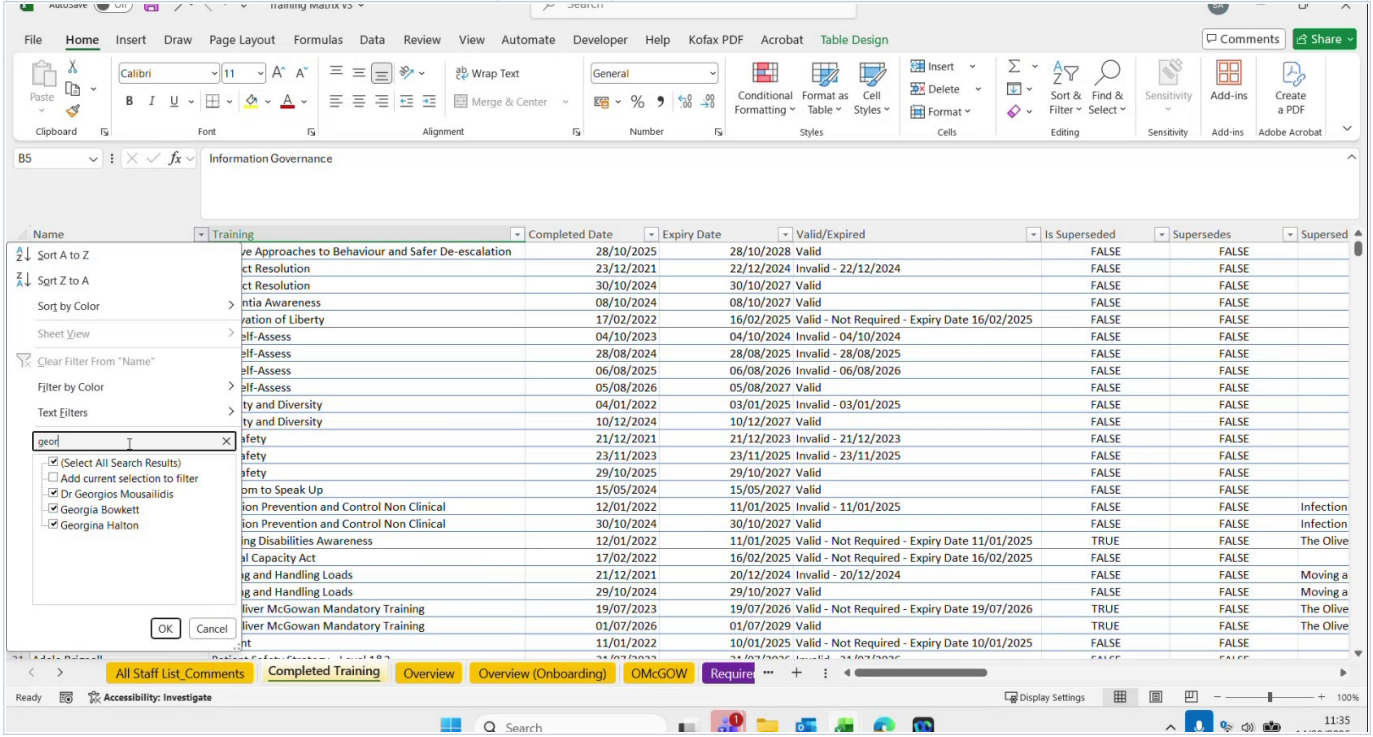

**Figure 12 [00:02:16] — Training Matrix v3.xlsm › Completed Training:** Completed Training (Training_History4) filtered to the new starter: 13 courses with Completed Date, Expiry Date, Valid/Expired, Is Superseded, Supersedes... and a colour key (red = not compliant, yellow = expiring, bold = mandatory for contracts)

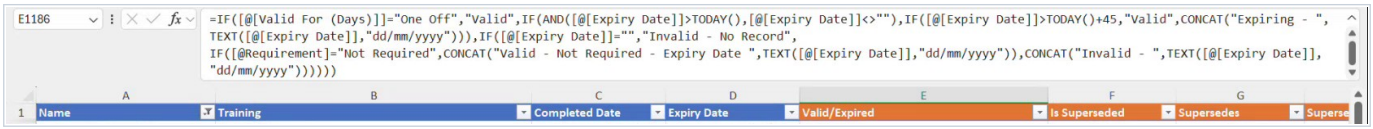

**Figure 7 [00:02:21] — Training Matrix v3.xlsm › Completed Training:** Formula bar, E1186 Valid/Expired: =IF([@[Valid For (Days)]]="One Off","Valid",IF(AND([@[Expiry Date]]>TODAY(),...),IF([@[Expiry Date]]>TODAY()+45,"Valid",CONCAT("Expiring - ",...)),IF([@[Expiry Date]]="","Invalid - No Record",IF([@Requirement]="Not Required",CONCAT("Valid - Not Required - Expiry Date ",...),CONCAT("Invalid - ",...)))))

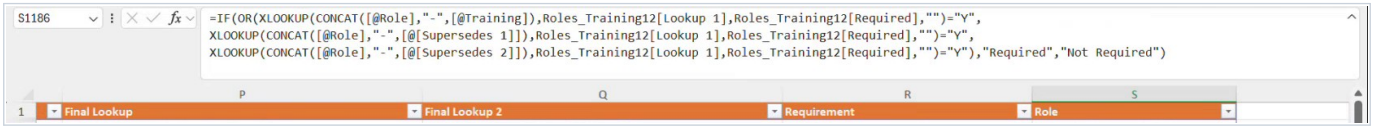

**Figure 8 [00:02:26] — Training Matrix v3.xlsm › Completed Training:** Formula bar, Requirement column: =IF(OR(XLOOKUP(CONCAT([@Role],"-",[@Training]),Roles_Training12[Lookup 1],Roles_Training12[Required],"")="Y", ...[Supersedes 1]..., ...[Supersedes 2]...),"Required","Not Required")

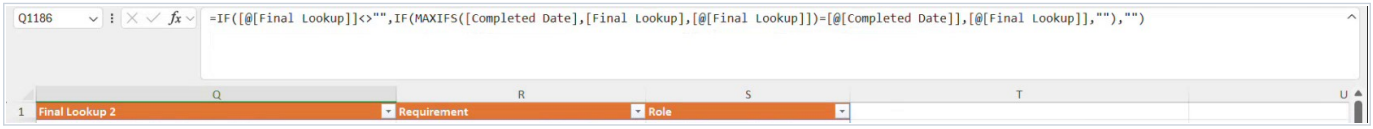

**Figure 9 [00:02:28] — Training Matrix v3.xlsm › Completed Training:** Formula bar, Q1186 Final Lookup 2: =IF([@[Final Lookup]]<>"",IF(MAXIFS([Completed Date],[Final Lookup],[@[Final Lookup]])=[@[Completed Date]],[@[Final Lookup]],""),"") — keeps only the most recent completion

**Figure 10 [00:02:30] — Training Matrix v3.xlsm › Completed Training:** Formula bar, O1186 Course Name: =IF(OR(AND([@[Most Recent Training Session Lookup]]<>"",[@Requirement]<>"Not required",[@[Is Superseded]]=FALSE),AND(...,[@Supersedes]=TRUE)),XLOOKUP([@Training],Training_Details[Training],Training_Details[Course Group],""),"")

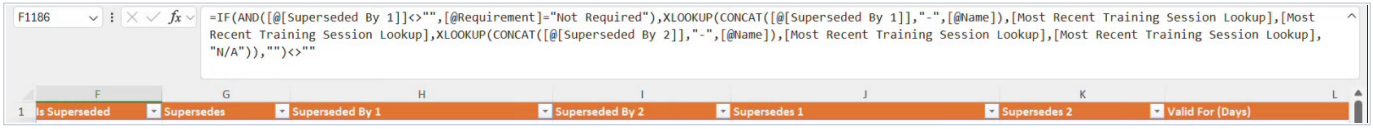

**Figure 11 [00:02:32] — Training Matrix v3.xlsm › Completed Training:** Formula bar, F1186 Is Superseded: =IF(AND([@[Superseded By 1]]<>"",[@Requirement]="Not Required"),XLOOKUP(CONCAT([@[Superseded By 1]],"-",[@Name]),[Most Recent Training Session Lookup],...,"N/A")),"")<>""

## 2.3 Overview and Overview (Onboarding)

Both use `=FILTER(Table1[Staff Name],(Table1[Current Staff]="Y")*IF(A3="All",…,(Table1[Role]=A3))*IF(B3="All",…,(Table1[Employer]=B3))*IF(C3="All",…,(Table1[Service]=C3)))` (Onboarding: Status = "Onboarding"). Each course cell looks up the person’s Final Lookup 2 record and shows its Valid/Expired text; row 4 holds per-course targets (90% or 95%); row 6 “Overall” is the share of Valid cells. Figure 14 [00:03:19]

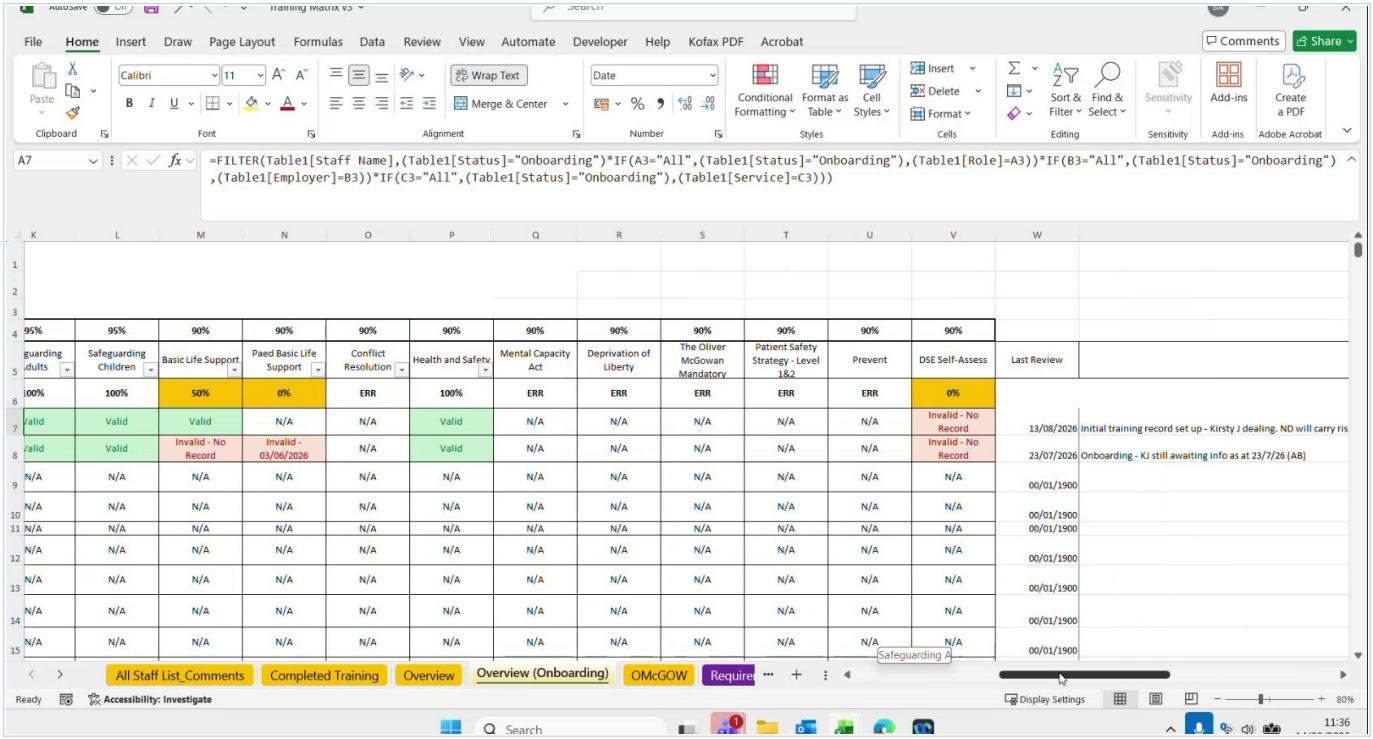

**Figure 13 [00:03:05] — Training Matrix v3.xlsm › Overview (Onboarding):** Overview (Onboarding): =FILTER(Table1[Staff Name],(Table1[Status]="Onboarding")*...) lists onboarding staff with % compliance and Valid / Invalid status per course; not sent to the data store

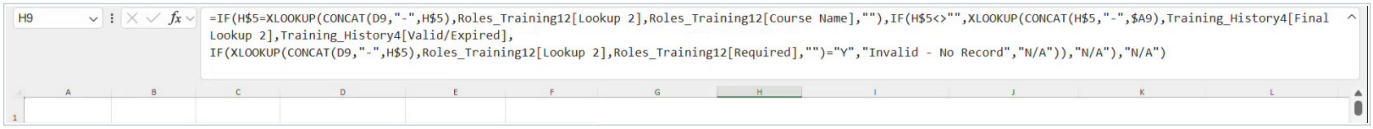

**Figure 14 [00:03:19] — Training Matrix v3.xlsm › Overview:** Formula bar, F8: =IF(F$5=XLOOKUP(CONCAT(D8,"-",F$5),Roles_Training12[Lookup 2],Roles_Training12[Course Name],""),IF(F$5<>"",XLOOKUP(CONCAT(F$5,"-",$A8),Training_History4[Final Lookup 2],Training_History4[Valid/Expired],IF(...[Required]...="Y","Invalid - No Record","N/A")),"N/A"),"N/A")

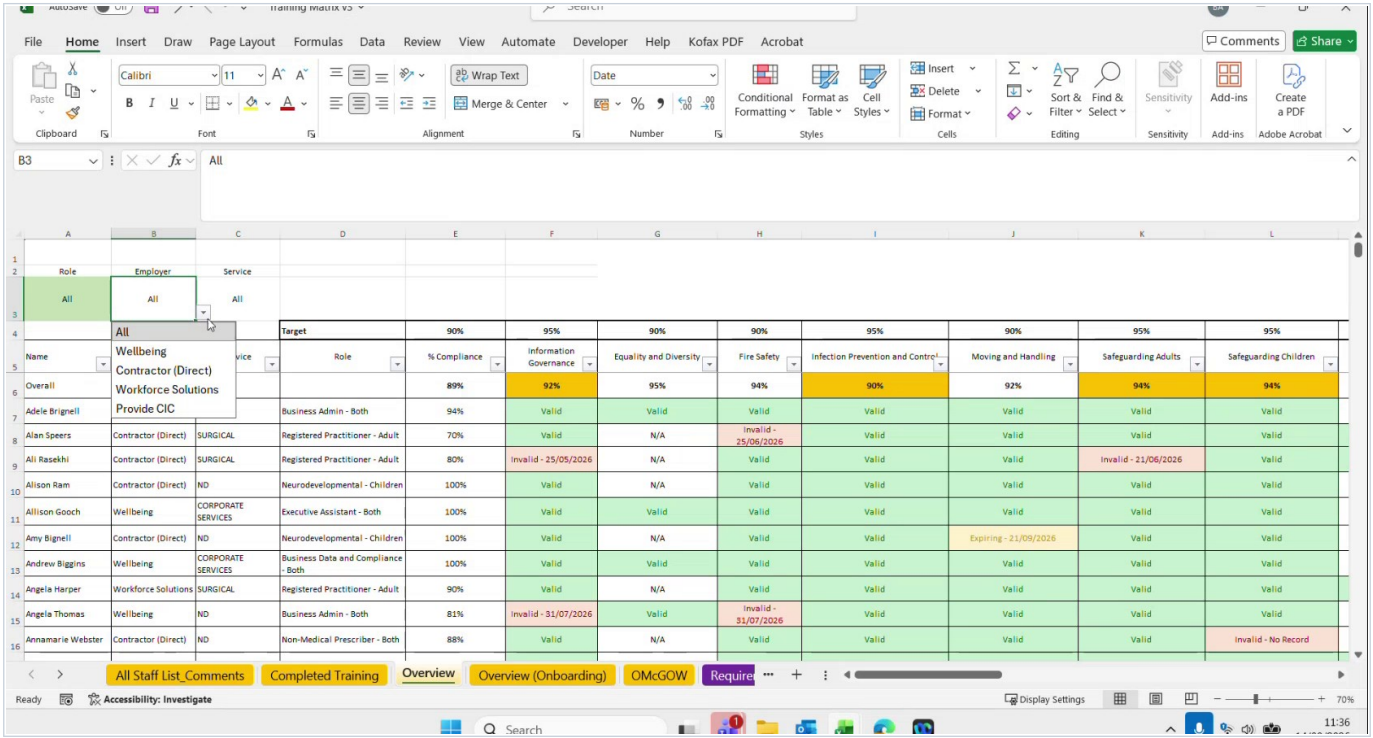

**Figure 15 [00:03:25] — Training Matrix v3.xlsm › Overview:** Overview (current staff): Role / Employer / Service filters (All), targets per course (90%/95%), Overall row (89% compliance), one row per live staff member with Valid / Invalid - date / Expiring - date

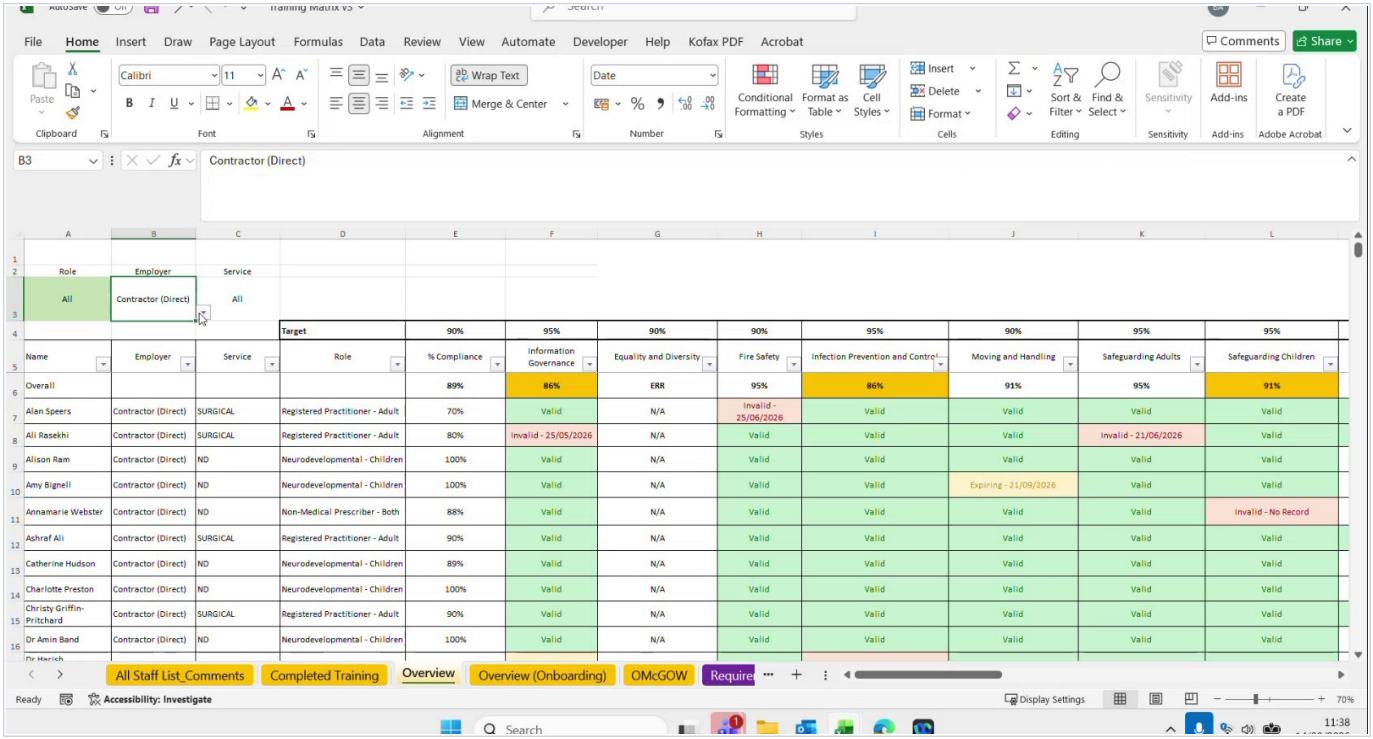

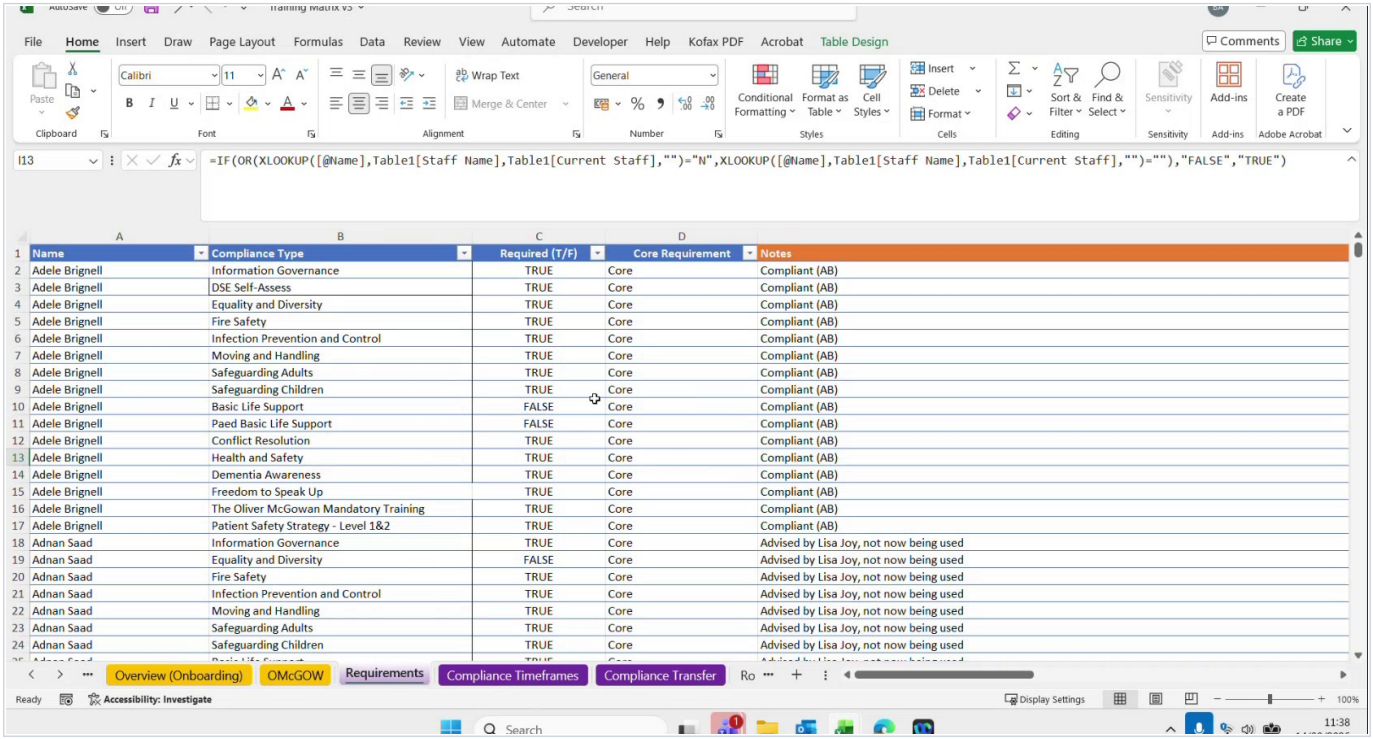

**Figure 16 [00:05:01] — Training Matrix v3.xlsm › Overview:** Overview filtered on Employer = Contractor (Direct): the group the team must chase directly (no monthly report)

## 2.4 Requirements

| Col | Header | Type | Origin | Lineage, rule and evidence |
|---|---|---|---|---|
| A | Name | Text | MAN | Pasted |
| B | Compliance Type | Text | MAN | Course (13 per person for the new starter) |
| C | Required (T/F) | Boolean | MAN | Typed per course, e.g. Equality and Diversity FALSE for a contractor |
| D | Core Requirement | Text | MAN | Core (“anything required is core”) |
| E | Notes | Text | CALC | `=XLOOKUP([@Name],Table1[Staff Name],Table1[Notes],"")`. Figure 18 [00:06:23] |
| F | Managed By | Text | MAN | Provide Wellbeing |
| G | Unique Lookup | Text | CALC | `=CONCAT([@Name],"-",[@[Compliance Type]])` |
| H | Compliance Timeframe | Number | MAN | 0.5 (constant) |
| I | Active | Text TRUE/FALSE | CALC | `=IF(OR(XLOOKUP([@Name],Table1[Staff Name],Table1[Current Staff],"")="N",XLOOKUP(…)=""),"FALSE","TRUE")` — returns **text** “TRUE”/“FALSE”, not booleans. Figure 17 [00:05:17] |

| Name | Compliance Type | Required (T/F) | Core Requirement | Notes |
|---|---|---|---|---|
| Adele Brignell | Information Governance | TRUE | Core | Compliant (AB) |
| Adele Brignell | DSE Self-Assess | TRUE | Core | Compliant (AB) |

## 2.6 Reference tabs

| Tab | Content | Notes |
|---|---|---|
| Compliance Timeframes | Course, Every x months 0.5, Core, People › Training, Groups 3/4 (Safeguarding, Clinical), Unique Lookup, Missing TRUE, Threshold 1–5 = 1/0.99/0.95/0.9/0.8 | Thresholds differ from Overview targets |
| Roles (Roles_Training12) | Role (e.g. Head of Service - Adult), Training, Required Y/N, Superseded By 1/2, Course Name, Lookup 1/2 | Defines what each role needs |
| Training Details | Training, Superseded By 1/2, Supersedes 1/2, Interval (days), Course Group | Interval drives expiry |
| Training Intervals | Headers “Equipment Type”, “Max permitted days between services”, Required | Copied from the Medical Devices tool |
| Role Rules / Course Detail / Staff Filter / Nurses | Role × Training × Required; per-group grids | #REF! errors; “never been used” |

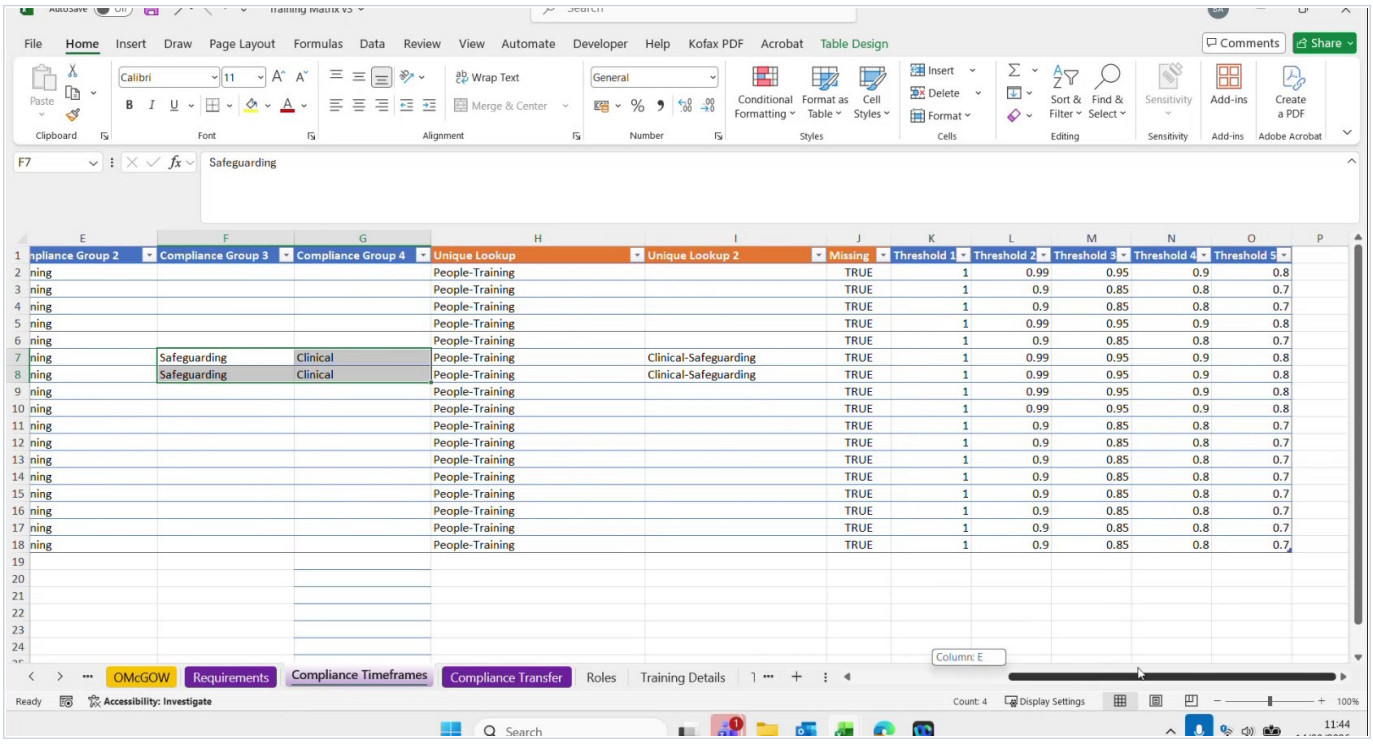

**Figure 24 [00:10:50] — Training Matrix v3.xlsm › Compliance Timeframes:** Compliance Timeframes: Every x months = 0.5 for every course, Core, People › Training; Missing TRUE; thresholds 1 / 0.99 / 0.95 / 0.9 / 0.8 (“Information Governance should really be 0.95”)

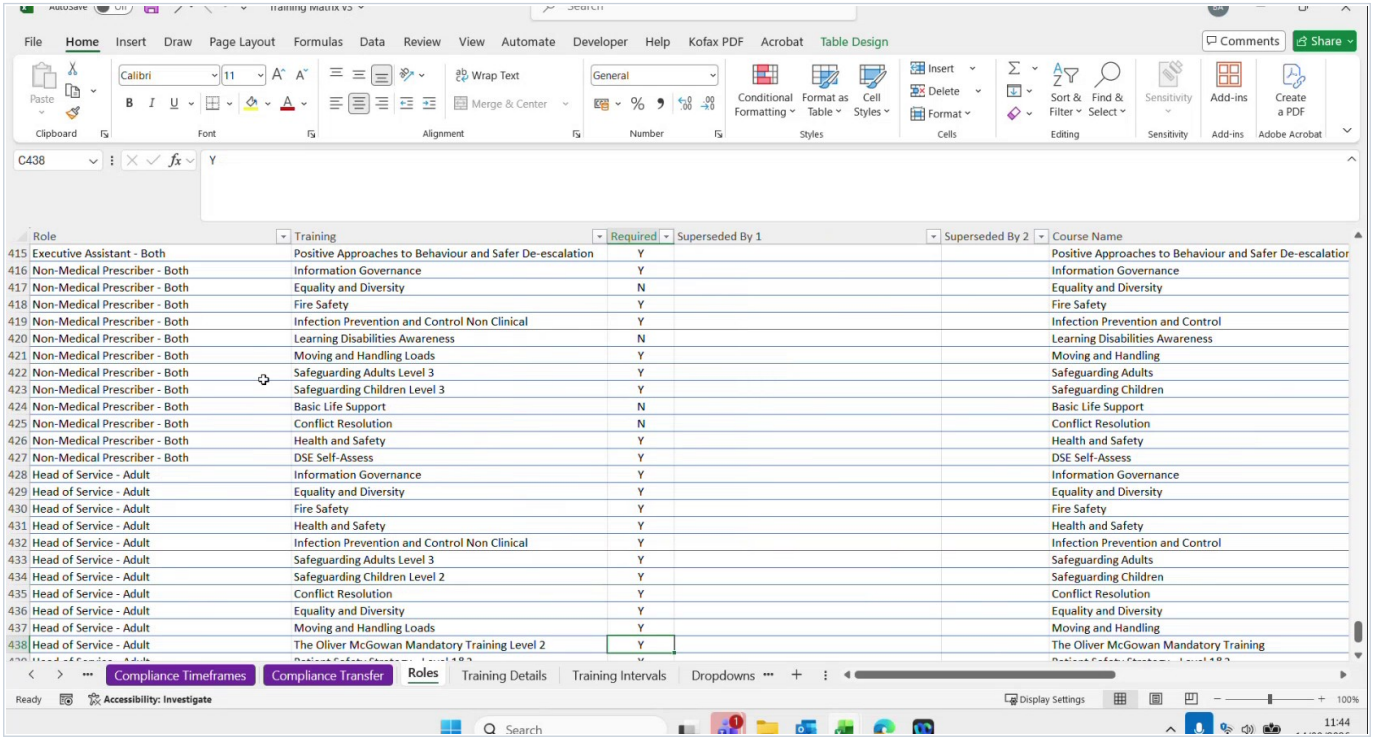

**Figure 25 [00:11:25] — Training Matrix v3.xlsm › Roles:** Roles table (Roles_Training12): Role × Training × Required (Y/N), Superseded By 1/2, Course Name — which courses each role needs

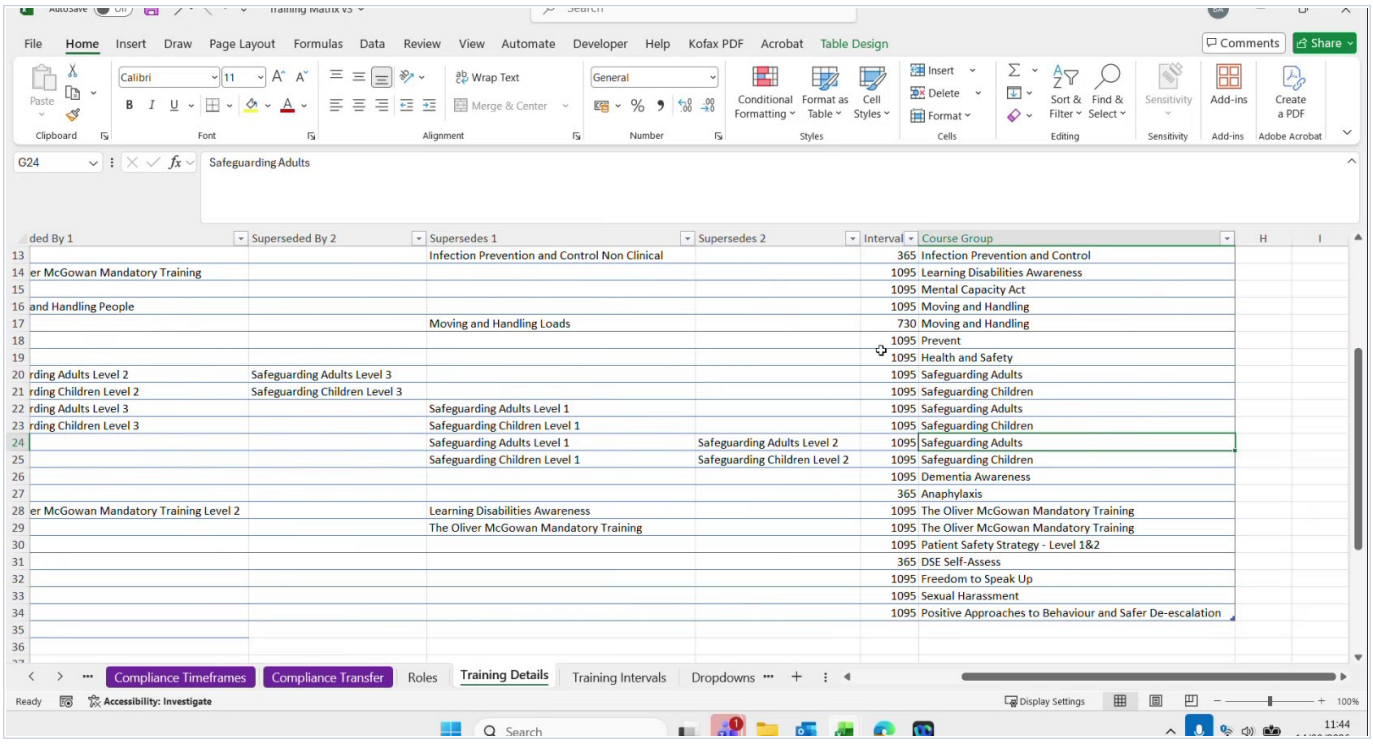

**Figure 26 [00:11:38] — Training Matrix v3.xlsm › Training Details:** Training Details: Training, Superseded By, Supersedes, Interval (days: 365, 1095 …), Course Group

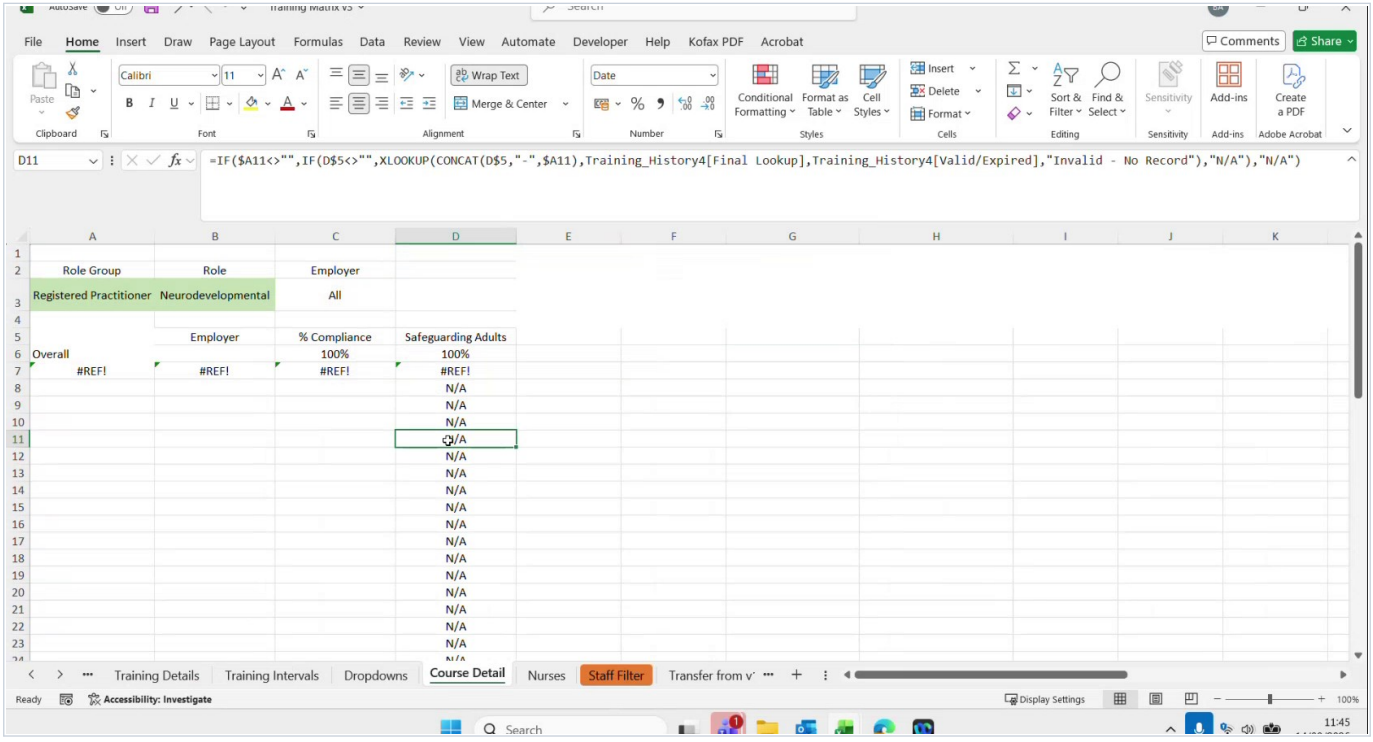

**Figure 27 [00:11:51] — Training Matrix v3.xlsm › Course Detail:** Course Detail tab (“never been used”): Role Group / Role / Employer pickers, D11 =IF($A11<>"",IF(D$5<>"",XLOOKUP(CONCAT(D$5,"-",$A11),Training_History4[Final Lookup],Training_History4[Valid/Expired],"Invalid - No Record"),"N/A"),"N/A"); row 7 shows #REF! errors. Further tabs: Nurses, Staff Filter, Transfer from v…

## 2.7 Compliance Data.xlsm

The data store’s Compliance Data table adds calculated columns: `Most Recent =IF(MAXIFS([Completion Date],[Unique Lookup],[@[Unique Lookup]],[Compliance Type],[@[Compliance Type]])=0,TRUE,MAXIFS(…)=[@[Completion Date]])`, Compliant, Expires within 3 months, Weeks Non Compliant, Core Requirement, Unique Lookup. Training rows break this test (see §4.3).

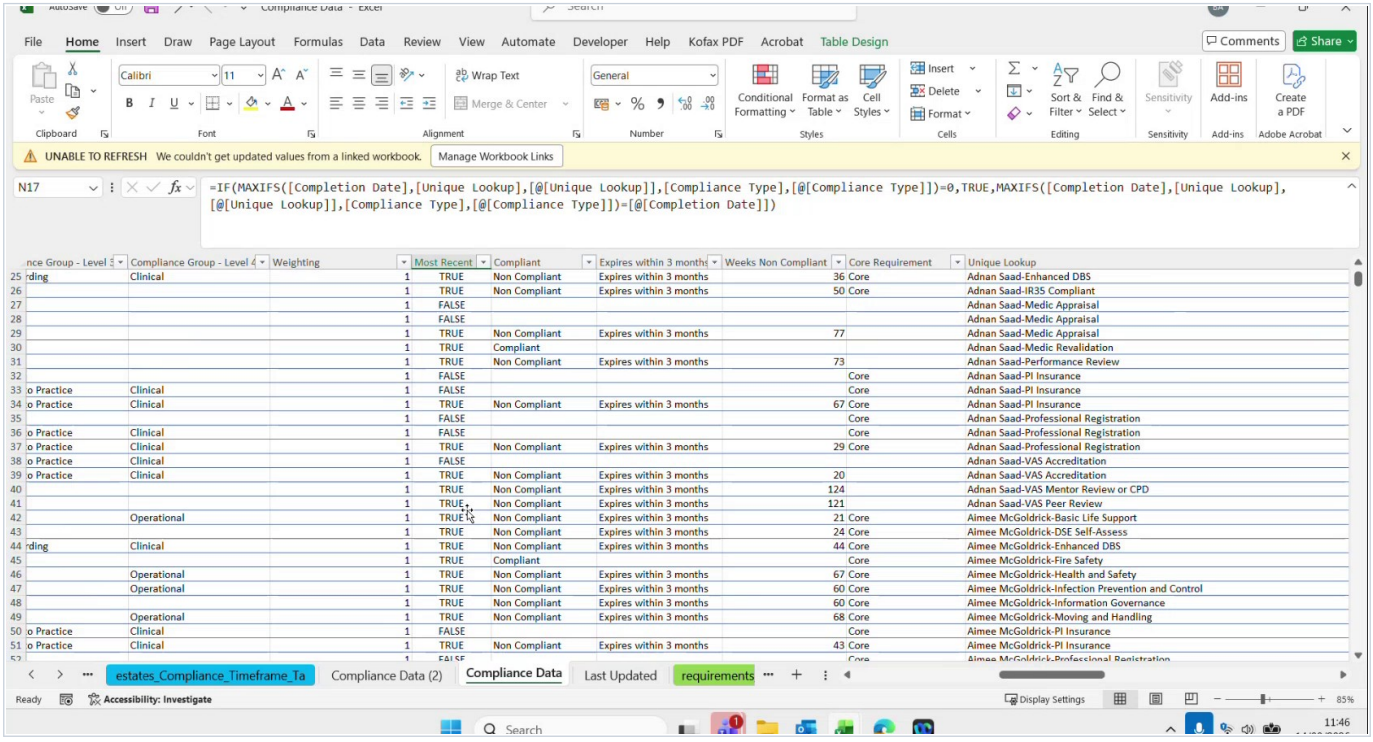

**Figure 29 [00:13:06] — Compliance Data.xlsm › Compliance Data:** Compliance Data (data store): Most Recent = IF(MAXIFS([Completion Date],[Unique Lookup],[@[Unique Lookup]],[Compliance Type],[@[Compliance Type]])=0,TRUE,...=[@[Completion Date]]), Compliant, Expires within 3 months, Weeks Non Compliant; “UNABLE TO REFRESH – linked workbook”

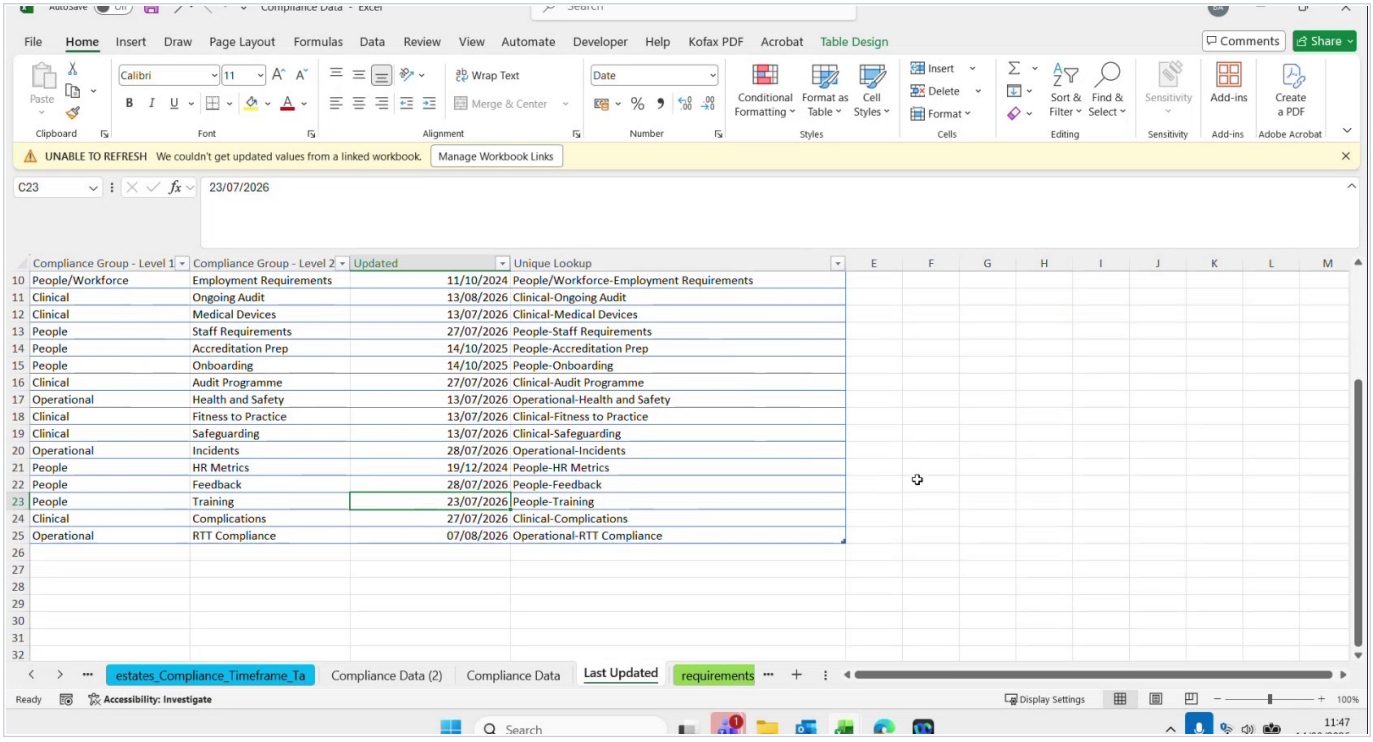

**Figure 31 [00:14:16] — Compliance Data.xlsm › Last Updated:** Last Updated table: People-Training updated 23/07/2026 (to be edited by hand after the paste)

# 3. Chronological Step-by-Step Operator Workflow

Fifteen steps cover the 14:33 recording. Steps 4–10 are performed live for the new starter; the monthly publish (steps 13 and 15) is described only.

| Step | Window | Action |
|---|---|---|
| 1 | 00:00:00–00:00:30 | Introduce mandatory training compliance |
| 2 | 00:00:30–00:01:19 | Tour the tabs |
| 3 | 00:01:19–00:01:44 | Current staff, last review and notes |
| 4 | 00:01:44–00:02:07 | Add the new starter to the staff list |
| 5 | 00:02:07–00:02:45 | Record his training in Completed Training |
| 6 | 00:02:45–00:03:13 | Mark as Onboarding |
| 7 | 00:03:13–00:05:16 | Use the Overview and the four employer groups |
| 8 | 00:05:16–00:06:58 | Explain the Requirements table |
| 9 | 00:06:58–00:08:58 | Add Requirements rows for the new starter |
| 10 | 00:08:58–00:10:29 | Add Compliance Transfer rows |
| 11 | 00:10:29–00:11:24 | Compliance Timeframes and thresholds |
| 12 | 00:11:24–00:12:35 | Reference and unused tabs |
| 13 | 00:12:35–00:13:21 | Monthly publish: replace training rows in the data store (described) |
| 14 | 00:13:21–00:14:10 | History lives in the matrix |
| 15 | 00:14:10–00:14:33 | Last updated, save, refresh twice |

## Step 1 [00:00:00 – 00:00:30]: Introduce mandatory training compliance

| | |
|---|---|
| **Action performed** | Camera off; screen share starts via the Teams share picker. |
| **Source → target** | — |
| **State mutation** | — |

*Shown above: Figure 1 [00:00:05] — Recording starts: “only two to go now. This one is mandatory training compliance”*

## Step 2 [00:00:30 – 00:01:19]: Tour the tabs

| | |
|---|---|
| **Action performed** | “These orange tabs are operational… these ones are compliance dashboard tabs.” Shows Compliance Transfer and the staff list. |
| **Source → target** | — |
| **State mutation** | — |

*Shown above: Figure 3 [00:00:46] — Compliance Transfer table: one row per staff member × training (14,046 cells selected), Completion Date, Compl…*

*Shown above: Figure 2 [00:01:00] — Staff list (Table1) A:E: Staff Name, Email Address (blurred), Employer (Wellbeing, Contractor (Direct), Workfo…*

## Step 3 [00:01:19 – 00:01:44]: Current staff, last review and notes

| | |
|---|---|
| **Action performed** | Explains Current Staff (people on hold or leaving), Last Review and Notes. |
| **Source → target** | — |
| **State mutation** | — |

*Shown above: Figure 4 [00:01:15] — Formula bar, H6 Role Lookup: =CONCAT([@Role]," - ",[@[Works With]]); Training System, Works With, Role, Start/…*

*Shown above: Figure 5 [00:01:22] — Formula bar, K6 Current Staff: =IF([@[Staff Name]]<>"",IF([@Status]<>"Onboarding",IF(AND([@[Start Date]]<=TODA…*

## Step 4 [00:01:44 – 00:02:07]: Add the new starter to the staff list

| | |
|---|---|
| **Action performed** | Dr Georgios Mousailidis typed into row 42 with employer Contractor (Direct), service ND, role. |
| **Source → target** | Manual → Table1 row 42 |
| **State mutation** | Row 42 added |

## Step 5 [00:02:07 – 00:02:45]: Record his training in Completed Training

| | |
|---|---|
| **Action performed** | 13 course rows with completed dates; operator clicks through the calculated columns. |
| **Source → target** | Certificates → Training_History4 |
| **State mutation** | 13 rows; Valid/Expired computed |

*Shown above: Figure 12 [00:02:16] — Completed Training (Training_History4) filtered to the new starter: 13 courses with Completed Date, Expiry Dat…*

*Shown above: Figure 7 [00:02:21] — Formula bar, E1186 Valid/Expired: =IF([@[Valid For (Days)]]="One Off","Valid",IF(AND([@[Expiry Date]]>TODAY(),…*

*Shown above: Figure 8 [00:02:26] — Formula bar, Requirement column: =IF(OR(XLOOKUP(CONCAT([@Role],"-",[@Training]),Roles_Training12[Lookup 1],Rol…*

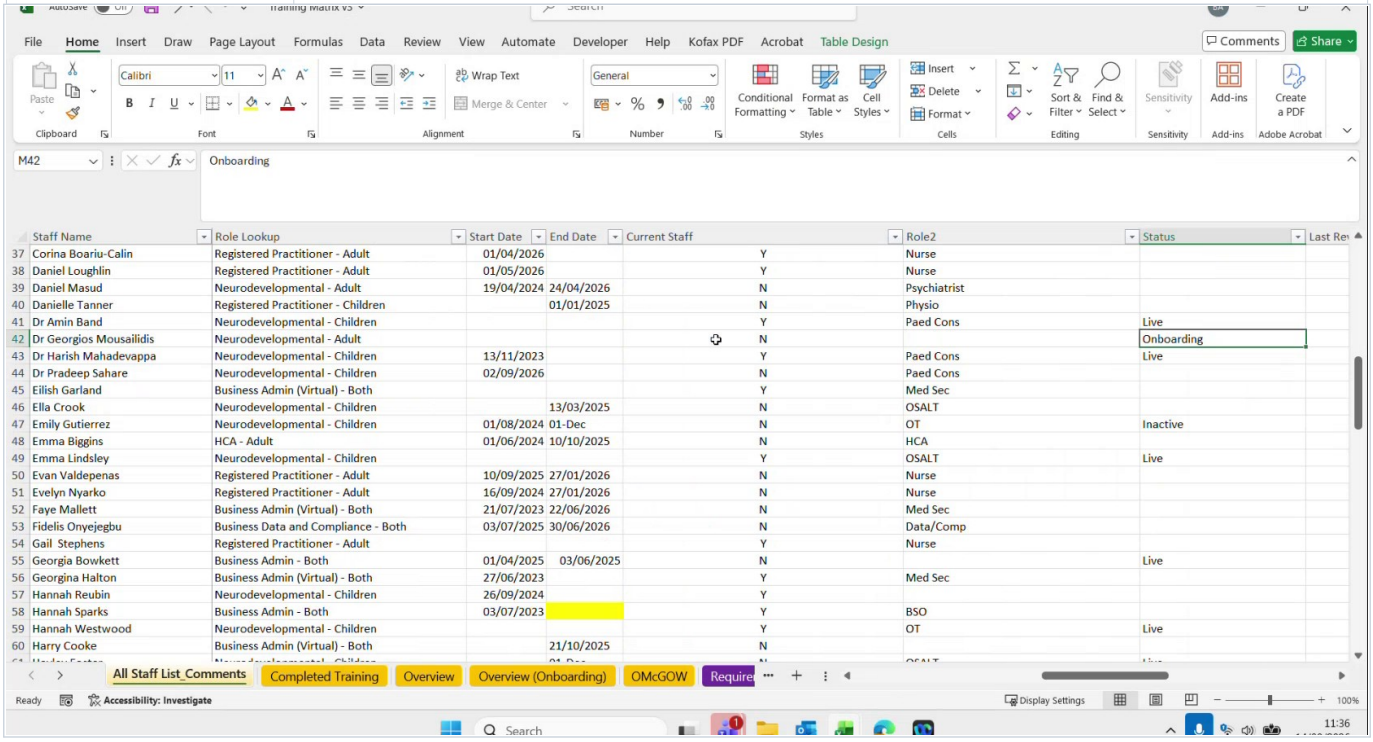

*Shown above: Figure 9 [00:02:28] — Formula bar, Q1186 Final Lookup 2: =IF([@[Final Lookup]]<>"",IF(MAXIFS([Completed Date],[Final Lookup],[@[Fina…*

*Shown above: Figure 10 [00:02:30] — Formula bar, O1186 Course Name: =IF(OR(AND([@[Most Recent Training Session Lookup]]<>"",[@Requirement]<>"Not r…*

*Shown above: Figure 11 [00:02:32] — Formula bar, F1186 Is Superseded: =IF(AND([@[Superseded By 1]]<>"",[@Requirement]="Not Required"),XLOOKUP(CONC…*

## Step 6 [00:02:45 – 00:03:13]: Mark as Onboarding

| | |
|---|---|
| **Action performed** | Status M42 = Onboarding, so he appears only in Overview (Onboarding), “not included in the compliance data”. |
| **Source → target** | Status → Current Staff N |
| **State mutation** | Current Staff = N |

| | Staff Name | Role Lookup | Start Date | End Date | Current Staff | Role2 | Status |
|---|---|---|---|---|---|---|---|
| 37 | Corina Boariu-Calin | Registered Practitioner - Adult | 01/04/2026 | | Y | Nurse | |
| 38 | Daniel Loughlin | Registered Practitioner - Adult | 01/05/2026 | | Y | Nurse | |
| 39 | Daniel Masud | Neurodevelopmental - Adult | 19/04/2024 | 24/04/2026 | N | Psychiatrist | |
| 40 | Danielle Tanner | Registered Practitioner - Children | | 01/01/2025 | N | Physio | |
| 41 | Dr Amin Band | Neurodevelopmental - Children | | | Y | Paed Cons | Live |
| 42 | Dr Georgios Mousailidis | Neurodevelopmental - Adult | | | N | | Onboarding |
| 43 | Dr Harish Mahadevappa | Neurodevelopmental - Children | 13/11/2023 | | Y | Paed Cons | Live |
| 44 | Dr Pradeep Sahare | Neurodevelopmental - Children | 02/09/2026 | | N | Paed Cons | |
| 45 | Eilish Garland | Business Admin (Virtual) - Both | | | Y | Med Sec | |
| 46 | Ella Crook | Neurodevelopmental - Children | | 13/03/2025 | N | OSALT | |
| 47 | Emily Gutierrez | Neurodevelopmental - Children | 01/08/2024 | 01-Dec | N | OT | Inactive |
| 48 | Emma Biggins | HCA - Adult | 01/06/2024 | 10/10/2025 | N | HCA | |
| 49 | Emma Lindsley | Neurodevelopmental - Children | | | Y | OSALT | Live |
| 50 | Evan Valdepenas | Registered Practitioner - Adult | 10/09/2025 | 27/01/2026 | N | Nurse | |
| 51 | Evelyn Nyarko | Registered Practitioner - Adult | 16/09/2024 | 27/01/2026 | N | Nurse | |
| 52 | Faye Mallett | Business Admin (Virtual) - Both | 21/07/2023 | 22/06/2026 | N | Med Sec | |
| 53 | Fidelis Onyejegbu | Business Data and Compliance - Both | 03/07/2025 | 30/06/2026 | N | Data/Comp | |
| 54 | Gail Stephens | Registered Practitioner - Adult | | | Y | Nurse | |
| 55 | Georgia Bowkett | Business Admin - Both | 01/04/2025 | 03/06/2025 | N | | Live |
| 56 | Georgina Halton | Business Admin (Virtual) - Both | 27/06/2023 | | Y | Med Sec | |
| 57 | Hannah Reubin | Neurodevelopmental - Children | 26/09/2024 | | Y | | |
| 58 | Hannah Sparks | Business Admin - Both | 03/07/2023 | | Y | BSO | |
| 59 | Hannah Westwood | Neurodevelopmental - Children | | | Y | OT | Live |
| 60 | Harry Cooke | Business Admin (Virtual) - Both | | 21/10/2025 | N | | |

**Figure 6 [00:02:51] — Training Matrix v3.xlsm › All Staff List_Comments:** New starter Dr Georgios Mousailidis added at row 42 with Status = Onboarding (M42), so Current Staff = N

*Shown above: Figure 13 [00:03:05] — Overview (Onboarding): =FILTER(Table1[Staff Name],(Table1[Status]="Onboarding")*…) lists onboarding staff with…*

## Step 7 [00:03:13 – 00:05:16]: Use the Overview and the four employer groups

| | |
|---|---|
| **Action performed** | Filters by Employer. Wellbeing (ESR), Workforce Solutions and Provide CIC staff come with monthly reports; Contractor (Direct) staff are chased directly. “Over the month we build up our table.” |
| **Source → target** | Reports / emails → Completed Training |
| **State mutation** | Updated during the month |

*Shown above: Figure 14 [00:03:19] — Formula bar, F8: =IF(F$5=XLOOKUP(CONCAT(D8,"-",F$5),Roles_Training12[Lookup 2],Roles_Training12[Course Name],"…*

*Shown above: Figure 15 [00:03:25] — Overview (current staff): Role / Employer / Service filters (All), targets per course (90%/95%), Overall row (…*

*Shown above: Figure 16 [00:05:01] — Overview filtered on Employer = Contractor (Direct): the group the team must chase directly (no monthly report…*

## Step 8 [00:05:16 – 00:06:58]: Explain the Requirements table

| | |
|---|---|
| **Action performed** | Name, course, required, core, notes (“from Table1”), managed by, timeframe 0.5 (“does it mean twice a month? Only Matt knows”), Active (“if I can see the person on this list, that person’s active”). |
| **Source → target** | — |
| **State mutation** | — |

*Shown above: Figure 17 [00:05:17] — Requirements table: Name, Compliance Type, Required (T/F), Core Requirement, Notes; formula bar I13 Active: =I…*

*Shown above: Figure 18 [00:06:23] — Formula bar, E1506 Notes: =XLOOKUP([@Name],Table1[Staff Name],Table1[Notes],"") — staff comments copied onto e…*

## Step 9 [00:06:58 – 00:08:58]: Add Requirements rows for the new starter

| | |
|---|---|
| **Action performed** | Copies a block of course rows, pastes the name, types Required per course (E&D no, Fire Safety yes, Learning Disabilities no, Moving and Handling yes, SG Adults/Children yes, BLS yes, Conflict Resolution no, H&S yes, Oliver McGowan no, DSE yes), Core, managed by. Active shows FALSE (onboarding). |
| **Source → target** | Manual copy-paste → Requirements |
| **State mutation** | 13 rows added |

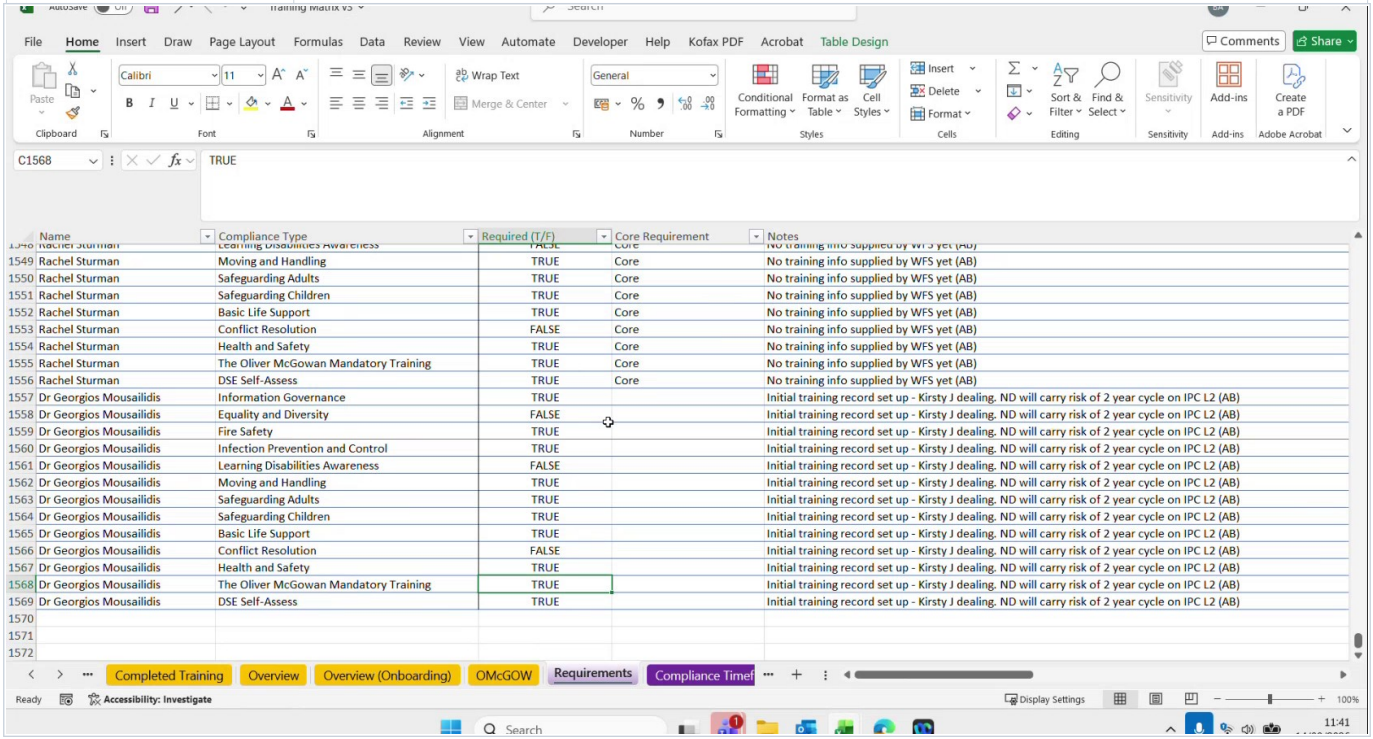

**Figure 19 [00:08:20] — Training Matrix v3.xlsm › Requirements:** AFTER: 13 Requirements rows added for Dr Georgios Mousailidis by copy-paste; Required TRUE/FALSE typed per course (e.g. Equality and Diversity FALSE for a contractor)

## Step 10 [00:08:58 – 00:10:29]: Add Compliance Transfer rows

| | |
|---|---|
| **Action performed** | Copies rows, pastes the name; formulas fill. Moving and Handling shows Not Required (“he hasn’t got the correct moving and handling as yet”). Issue filled down. |
| **Source → target** | Manual copy-paste → Compliance Transfer |
| **State mutation** | Rows added |

*Shown above: Figure 22 [00:09:44] — AFTER: transfer rows added for the new starter; Completion Date shows Invalid - No Record or N/A where no trai…*

*Shown above: Figure 20 [00:09:34] — Formula bar, E1090 Completion Date: =XLOOKUP(CONCAT(D1090,"-",C1090),Training_History4[Final Lookup 2],Trainin…*

*Shown above: Figure 21 [00:09:38] — Formula bar, F1093 Completion Status: =IF(OR(A1093="Valid",LEFT(A1093,3)="Exp"),"Completed",IF(A1093="N/A","No…*

*Shown above: Figure 23 [00:10:12] — Formula bar, J1092 Due Date: =XLOOKUP(CONCAT(D1092,"-",C1092),Training_History4[Final Lookup 2],Training_Histo…*

## Step 11 [00:10:29 – 00:11:24]: Compliance Timeframes and thresholds

| | |
|---|---|
| **Action performed** | 0.5 months, core, People › Training; Missing TRUE (“I don’t know what that means”); thresholds (“IG should really be 0.95”). |
| **Source → target** | — |
| **State mutation** | — |

*Shown above: Figure 24 [00:10:50] — Compliance Timeframes: Every x months = 0.5 for every course, Core, People › Training; Missing TRUE; threshold…*

## Step 12 [00:11:24 – 00:12:35]: Reference and unused tabs

| | |
|---|---|
| **Action performed** | Roles, Training Details, Training Intervals, Dropdowns; Course Detail, Nurses, Staff Filter “never been used”. Matt “couldn’t remember… so I basically figured it out from scratch”. |
| **Source → target** | — |
| **State mutation** | — |

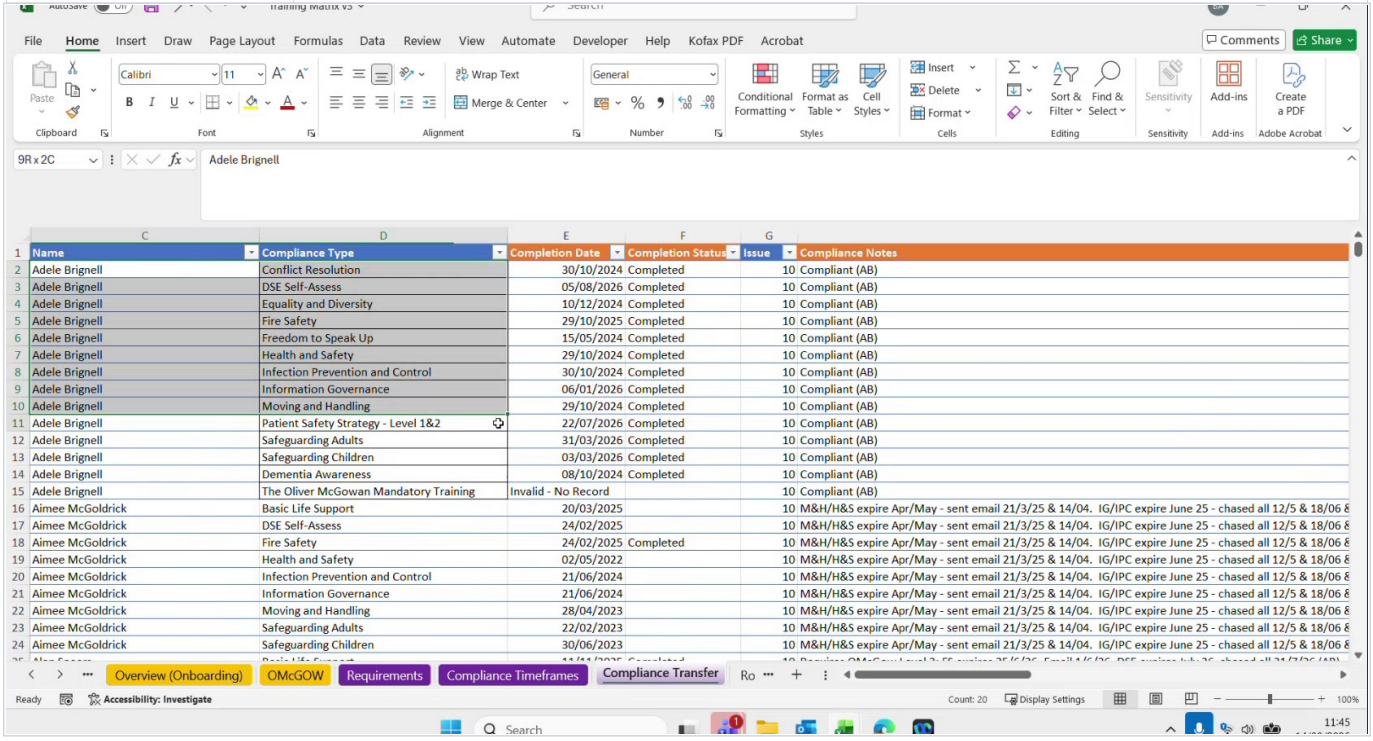

*Shown above: Figure 25 [00:11:25] — Roles table (Roles_Training12): Role × Training × Required (Y/N), Superseded By 1/2, Course Name — which cours…*

*Shown above: Figure 26 [00:11:38] — Training Details: Training, Superseded By, Supersedes, Interval (days: 365, 1095 …), Course Group*

*Shown above: Figure 27 [00:11:51] — Course Detail tab (“never been used”): Role Group / Role / Employer pickers, D11 =IF($A11<>"",IF(D$5<>"",XLOOK…*

## Step 13 [00:12:35 – 00:13:21]: Monthly publish: replace training rows in the data store (described)

| | |
|---|---|
| **Action performed** | “We go to compliance transfer, we copy this in… the most recent formula doesn’t seem to work for mandatory training, so I delete the existing training data in this table and copy in the latest one.” Rows are selected; the delete and paste are not performed on screen. |
| **Source → target** | Compliance Transfer → Compliance Data (delete + paste) |
| **State mutation** | Not performed |

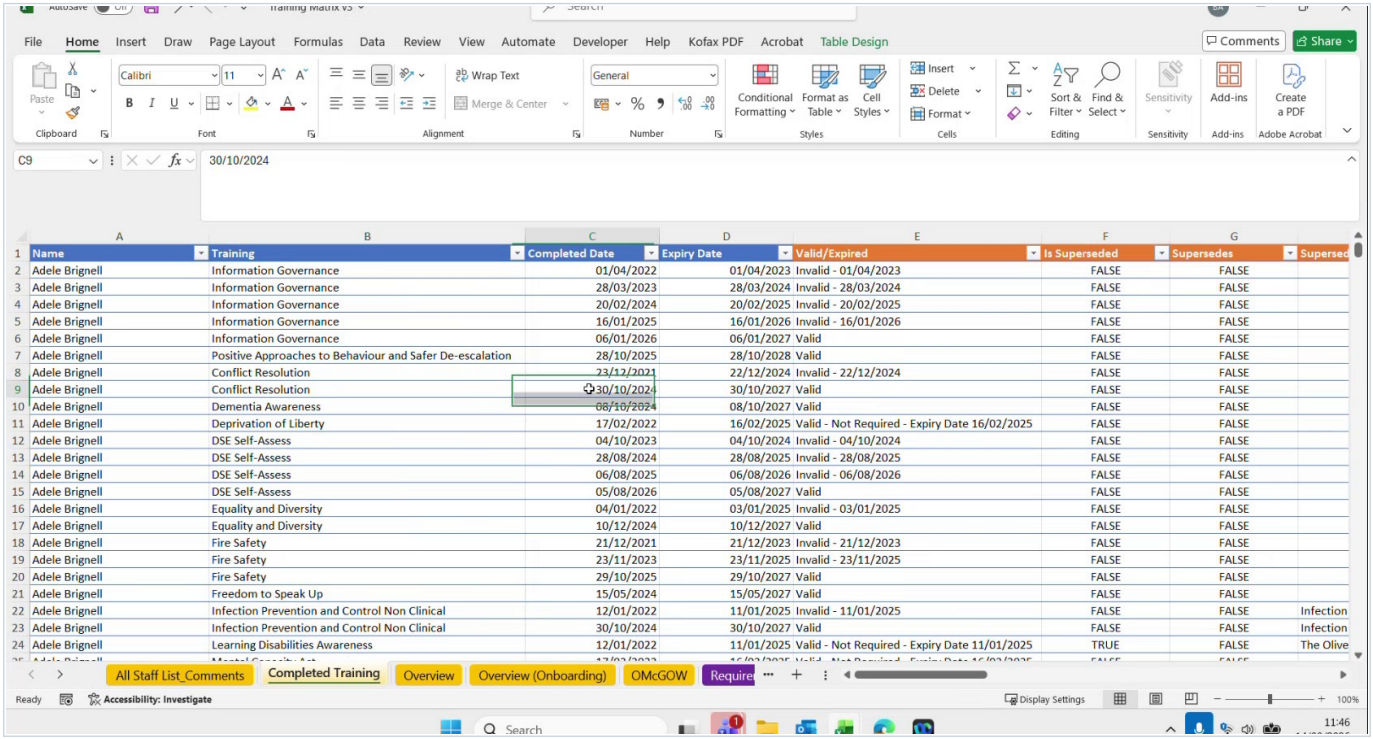

| Name | Compliance Type | Completion Date | Completion Status | Issue | Compliance Notes |
|---|---|---|---|---|---|
| Adele Brignell | Conflict Resolution | 30/10/2024 | Completed | 10 | Compliant (AB) |
| Adele Brignell | DSE Self-Assess | 05/08/2026 | Completed | 10 | Compliant (AB) |

| Adele Brignell | Freedom to Speak Up | 15/05/2024 | 15/05/2027 | Valid | FALSE | FALSE | |
| Adele Brignell | Infection Prevention and Control Non Clinical | 12/01/2022 | 11/01/2025 | Invalid - 11/01/2025 | FALSE | FALSE | Infection |
| Adele Brignell | Infection Prevention and Control Non Clinical | 30/10/2024 | 30/10/2027 | Valid | FALSE | FALSE | Infection |
| Adele Brignell | Learning Disabilities Awareness | 12/01/2022 | 11/01/2025 | Valid - Not Required - Expiry Date 11/01/2025 | TRUE | FALSE | The Olive |

**Figure 30 [00:13:39] — Training Matrix v3.xlsm › Completed Training:** Training history kept in the matrix: Adele Brignell, Information Governance completed 01/04/2022, 28/03/2023, 20/02/2024, 16/01/2025, 06/01/2026 (each later one supersedes the earlier)

## Step 15 [00:14:10 – 00:14:33]: Last updated, save, refresh twice

| | |
|---|---|
| **Action performed** | “We update our last updated date. We save, refresh twice.” Last Updated shown (People-Training 23/07/2026). End. |
| **Source → target** | Manual → Last Updated |
| **State mutation** | Not performed |

*Shown above: Figure 31 [00:14:16] — Last Updated table: People-Training updated 23/07/2026 (to be edited by hand after the paste)*

# 4. Data Quality Checks, Manual Exceptions & Edge Cases

## 4.1 Business rules

| ID | Rule | Evidence |
|---|---|---|
| BR-01 | A training record is valid until Completed Date + course interval; “Expiring” in the last 45 days; “One Off” courses never expire | Figure 7 [00:02:21] |
| BR-02 | Which courses a person needs depends on Role + Works With (Roles table) | Figure 25 [00:11:25] |
| BR-03 | A higher course supersedes lower ones (Superseded By / Supersedes) | Figure 11 [00:02:32] |
| BR-04 | Only the most recent completion of a course counts (MAXIFS) | Figure 9 [00:02:28] |
| BR-05 | Current staff = started, not ended, not onboarding; onboarding staff are excluded from compliance data | Figure 5 [00:01:22] |
| BR-06 | Anything required is core | Said 00:08:32 |
| BR-07 | Evidence route depends on employer: ESR / WFS / Provide CIC monthly reports; direct contractors chased by email | Said 00:03:28–00:04:35 |
| BR-08 | Per-course targets 90%/95% on the Overview | Figure 15 [00:03:25] |

## 4.2 Manual steps

| ID | Manual step | Risk |
|---|---|---|
| EX-01 | Training dates typed from monthly reports and certificates | Typing errors; no link to the source report |
| EX-02 | New starter set up in three places by copy-paste (Completed Training, Requirements, Compliance Transfer) | Rows missing or inconsistent between tabs |
| EX-03 | Required TRUE/FALSE typed per course on Requirements | Can disagree with the Roles table |
| EX-04 | Monthly: delete all training rows in Compliance Data, paste the full transfer set | Deleting the wrong rows; partial paste; history lost in the store |
| EX-05 | Last Updated edited by hand; save; refresh twice | Forgotten step |

## 4.3 Spoken vs visual discrepancies and defects

| ID | Said / intended | Seen | Impact |
|---|---|---|---|
| SV-01 | Store keeps the most recent record (“with everything else you can just put it on the bottom”) | Most Recent MAXIFS fails for training; rows deleted and replaced | No training history in the data store; dashboard can’t show trends |
| SV-02 | Completion Date is a date | Transfer column E mixes dates with “Invalid - No Record” and “N/A” text; Due Date shows 00/01/1900 | MAXIFS ignores text → probable cause of SV-01 [Inferred] |
| SV-03 | Required = what the role needs | Typed by hand per person while Roles_Training12 already holds it | Requirements and Overview can disagree |
| SV-04 | “IG should really be 0.95” (00:11:09) | Threshold 2 = 0.99; Overview target IG = 95% | Two thresholds for the same course |
| SV-05 | Timeframe 0.5 (“Only Matt knows”, 00:06:34) | 0.5 in Requirements and Timeframes | Meaning unknown |
| SV-06 | Issue = “our RAG rating… makes no difference” | Constant 10 | Field without meaning in the store |
| SV-07 | Active flag | Requirements!I returns text “TRUE”/“FALSE” | Type mismatch with other tools’ boolean Active |
| SV-08 | Moving and Handling required for the new starter | Transfer shows Not Required until the correct course is recorded (00:09:20) | Requirement depends on what was completed, not only on role |
| FD-01 | Unused tabs | Course Detail and Staff Filter show #REF!; Training Intervals has Medical Devices headers | Dead logic in the workbook |
| FD-02 | Dates | End Date values such as “22-Oct”, “01-Dec” stored as text | Current Staff can be wrong for those people |
| FD-03 | Data store refresh | “UNABLE TO REFRESH – linked workbook” | Stale lookups |

## 4.4 Hidden failure modes

| ID | Failure mode | Severity |
|---|---|---|
| FM-01 | **Destructive monthly replace** of all training rows in the data store | High |
| FM-02 | **Mixed-type date columns** passed into the store | High |
| FM-03 | **Name as key** across four tables (“Dr” prefix variations) | High |

| ID | Failure mode | Severity |
|---|---|---|
| FM-04 | **Triple manual set-up** per new starter | Medium |
| FM-05 | **Requirements not derived from role rules** | Medium |
| FM-06 | **TODAY()-based validity**: results change daily and past months cannot be reproduced | Medium |
| FM-07 | **Text dates** in staff list | Medium |
| FM-08 | **Knowledge loss**: logic reconstructed after the author left | Medium |
| FM-09 | **Personal data spread**: emails and HR notes copied into requirements and the data store | Medium (IG) |

# 5. Target Modern System Architecture Blueprint

Training runs on the shared platform (spec 01 §5). It needs the most domain logic of the four areas: course catalogue with intervals and supersession, role rules, and per-person training events from several sources.

## 5.1 Ingestion

- **ESR, WFS and Provide CIC L&D reports:** monthly files uploaded (or fetched) with a header contract per source; rows matched to staff by employee number / alias, not by name.
- **Direct contractors:** certificate upload in the web form (or a contractor self-service link) with the completion date checked by a reviewer.
- **Validation:** known course (or mapped alias), completion date not in the future, staff exists.

## 5.2 Data model additions

| Table | Key columns | Replaces |
|---|---|---|
| **ref.course** (versioned) | course_id, name, interval_days (NULL = one-off), course_group, valid_from/to | Training Details |
| **ref.course_supersession** | course_id, supersedes_course_id | Superseded By / Supersedes columns |
| **ref.role_course_rule** (versioned) | role_id, works_with, course_id, required, valid_from/to, approved_by | Roles_Training12 |
| **core.staff** (shared subject) | staff_id, employer_id, service_id, role_id, works_with, start_date, end_date, status | All Staff List |
| **core.training_event** (append-only) | event_id, staff_id, course_id, completed_on, source (ESR/WFS/L&D/certificate), evidence_file_id, batch_id | Completed Training |
| **mart.training_status** (view) | staff_id, course_id, required, latest_completed_on, expires_on, status (Valid/Expiring/Expired/Missing/Not required), as_of_date | Overview, Compliance Transfer |

## 5.3 Rules as SQL

```
-- Requirement is derived from role rules, never typed per person
CREATE VIEW mart.v_training_requirement AS
SELECT s.staff_id, r.course_id, r.required
FROM core.staff s JOIN ref.role_course_rule r
  ON r.role_id = s.role_id AND r.works_with IN (s.works_with, 'Both');

-- Latest event per course, counting superseding courses (BR-03, BR-04)
SELECT q.staff_id, q.course_id, max(e.completed_on) AS latest_completed_on
FROM mart.v_training_requirement q
JOIN core.training_event e ON e.staff_id = q.staff_id
 AND (e.course_id = q.course_id OR e.course_id IN
      (SELECT course_id FROM ref.course_supersession WHERE supersedes_course_id = q.course_id))
GROUP BY q.staff_id, q.course_id;

-- Status at the publication's as-of date (BR-01): Expiring within 45 days
CASE WHEN c.interval_days IS NULL THEN 'Valid'
     WHEN latest + c.interval_days > as_of + 45 THEN 'Valid'
     WHEN latest + c.interval_days > as_of THEN 'Expiring'
     WHEN latest IS NULL THEN 'Missing' ELSE 'Expired' END
```

- Completion and expiry dates stay typed dates; “missing” and “not required” are statuses, not text in a date column (fixes FM-02).
- History is kept as events, so the store never needs a delete-and-replace (fixes FM-01) and “were they compliant in August 23?” is a query.
- Onboarding staff are a status; the onboarding view is the same query filtered on status.

## 5.4 Review and publication

- New-starter wizard creates the staff record once; requirements follow from the role (fixes FM-04, FM-05).
- Monthly report import shows a diff (new completions, newly expiring, still missing) for review before publishing.
- Publication writes one status row per staff × required course for the as-of month inside the shared atomic publish; Last Updated is automatic.

# 6. Gap & Ambiguity Register

| ID | Timestamp | Gap / ambiguity | Ask |
|---|---|---|---|
| G-01 | 00:12:51 | Exactly why Most Recent fails for training (text dates assumed) | Confirm with a copy of Compliance Data |
| G-02 | 00:06:34 | Meaning of Compliance Timeframe 0.5 | Define cadence |
| G-03 | 00:09:55 | Meaning of Issue = 10 | Define or drop |
| G-04 | 00:11:09 | Authoritative targets/thresholds per course | Business owner to decide |
| G-05 | 00:04:26 | Format and frequency of ESR, WFS and Provide CIC reports | Share samples |
| G-06 | 00:02:07 | How Expiry Date is filled (typed or calculated) | Confirm |
| G-07 | 00:11:50 | Whether Course Detail, Nurses, Staff Filter, Transfer from v…, Role Rules, OMcGOW are needed | Walk through or retire |
| G-08 | 00:12:13 | Whether the dashboard uses the transfer rows as-is (“not sure if these are used in the dashboard”) | Share dashboard measures |
| G-09 | 00:09:20 | Why Moving and Handling becomes Not Required before the correct course is recorded | Confirm role rule |
| G-10 | 00:01:00 | Whether Contract/Status/Last Review values follow a defined list | Share lists |
| G-11 | whole video | File name and extension of the matrix (.xlsx or .xlsm) and any VBA | Share the workbook |

# 7. What Is Required to Build the Modern System

Training-specific requirements with reasons. Shared platform requirements are in spec 01 §7. The client checklist is **Training_PreBuild_Client_Requirements.pdf**.

## 7.1 Functional requirements

| ID | Requirement (priority) | Why it is required |
|---|---|---|
| FR-T01 | Course catalogue with intervals, groups and supersession (M) | Validity and supersession are the core rules (Figure 7 [00:02:21], Figure 11 [00:02:32]). |
| FR-T02 | Role rules that generate requirements (M) | Requirements are typed by hand today (SV-03, Figure 19 [00:08:20]). |
| FR-T03 | Append-only training events with source and evidence (M) | History only exists in the matrix; the store is wiped monthly (FM-01). |
| FR-T04 | Report import for ESR, WFS and Provide CIC with staff matching by ID (M) | Dates are typed from reports (EX-01). |
| FR-T05 | Contractor certificate upload and reviewer check (S) | Direct contractors are chased by email (BR-07). |
| FR-T06 | Status view (Valid / Expiring / Expired / Missing / Not required) at an as-of date (M) | Replaces TODAY()-based text (FM-06). |
| FR-T07 | New-starter wizard and onboarding status (M) | Three manual copy-pastes per starter (FM-04). |
| FR-T08 | One target table per course for overview and dashboard (S) | Targets and thresholds disagree (SV-04). |
| FR-T09 | Expiry reminders to staff and managers (S) | The team chases expiries by hand. |

## 7.2 Non-functional requirements

| ID | Requirement | Why it is required |
|---|---|---|
| NFR-T01 | Contact details and HR notes restricted; dashboard shows status only | Emails and comments are copied into several tables (FM-09). |
| NFR-T02 | Typed date columns end to end | Mixed date/text columns break the store (FM-02). |
| NFR-T03 | Reproducible monthly snapshots | Past compliance must be answerable (“were they compliant in August 23?”). |

## 7.3 Testing

| ID | Test | Why it is required |
|---|---|---|
| T-T01 | Golden case: Dr Georgios Mousailidis (13 courses, onboarding) and Adele Brignell’s Information Governance history 2022–2027 | Two fully visible cases. |
| T-T02 | Supersession: Safeguarding Adults Level 3 satisfies lower levels | BR-03. |
| T-T03 | Boundary: 45-day expiring window, one-off courses, missing record, not required | BR-01. |
| T-T04 | Parity: one month’s Overview percentages vs the new view | Proves the logic matches. |

## 7.4 Traceability

| Observed problem | Evidence | Removed by |
|---|---|---|
| FM-01 Delete-and-replace in the store | Figure 29 [00:13:06] | FR-T03 |
| FM-02 Mixed date/text | Figure 20 [00:09:34] | NFR-T02, FR-T06 |
| FM-03 Name as key | Figure 2 [00:01:00] | FR-T04 (staff IDs) |
| FM-04 Triple set-up | Figure 19 [00:08:20] | FR-T07 |
| FM-05 Requirements typed | Figure 19 [00:08:20] | FR-T02 |
| FM-06 TODAY() | Figure 7 [00:02:21] | FR-T06, NFR-T03 |
| SV-04 Conflicting thresholds | Figure 24 [00:10:50] | FR-T08 |

| Observed problem | Evidence | Removed by |
|---|---|---|
| FD-01 Dead tabs with #REF! | Figure 27 [00:11:51] | Not migrated |

# Appendix A. Figure Index

| Fig | Time | File › Tab | Shows |

# Appendix B. Key timestamped utterances

| Time | Utterance (lightly cleaned) |
|---|---|
| 00:00:05 | Only two to go now. This one is mandatory training compliance. |
| 00:00:33 | These orange tabs here are operational tabs. These ones are compliance dashboard tabs. |
| 00:01:19 | There’s a formula there to say whether the staff is current or not. |
| 00:01:44 | We’re just engaging Dr Georgios Mousailidis. |
| 00:02:45 | We would then usually stipulate him to be onboarding… which is obviously not included in the compliance data. |
| 00:03:28 | Our workers and contractors fall into four categories. |
| 00:05:24 | We will add that member of staff to the requirements table. |
| 00:06:34 | Does it mean it should be done twice a month? Only Matt knows. |
| 00:08:58 | We also need to set him up on our compliance transfer. |
| 00:11:09 | That should really be 0.95. |
| 00:11:50 | Course detail, never been used. Nurses, never been used. Staff filter, never been used. |
| 00:12:22 | So I basically figured it out from scratch. |
| 00:12:51 | The most recent record formula… doesn’t seem to work for mandatory training. |
| 00:13:09 | I delete the existing training data in this table and then copy in the latest one. |
| 00:13:58 | If someone says, were they compliant in August 23? We can say yes. |
| 00:14:16 | We save, refresh twice. It builds the table, which then informs the dashboard. |
