COMPANION TO THE TECHNICAL SPECIFICATION

Pre-Build Client Requirements

Files, sheets, VBA, business rules and client decisions that must be supplied or confirmed before the modern Survey Feedback compliance system can be built, each with the reason it is required

Applies to	Survey feedback workflow (Survicate → 24 hr All Surveys / Survey Management → Compliance Data.xlsm → dashboard)
Companion of	Feedback_Compliance_Workflow_Specification.pdf (same folder). “Spec Figure N” and IDs such as P-xx, G-xx, FM-xx, FR-xx refer to that document
Evidence	Teams recording 20260814_111322 (7:07); timestamps are video positions
Data store items	IDs ending in -DS come from the client’s source template (sources/Wellbeing Dashboard current data template.xlsx); “DSL §n” and DS-xx refer to 00_Overview/Compliance_Data_Store_Logic.pdf
Report date	16 October 2026
Status	Open: awaiting client inputs. Build Phase 1 cannot start until every **Blocker** item in §6 is ticked

Why this document exists. The operator follows a design they did not build (“designed by Matt, so we just follow his process”), runs two overlapping workbooks, cleans exports by hand and could not explain the SPC parameters. The acceptance rule spoken aloud also differs from the SPC logic in the sheets. This list turns them into **21 concrete asks**, each with a reason, the evidence, who should answer it and what it blocks.

How to use it: work through §1–§5, attach files or answers against each ID, then sign the checklist in §6. Anything marked *Blocker* stops the build; the rest can be answered during Phase 1.

Summary

Category	Items	Blockers	Main owner
1. Files to supply	4	F-01, F-02	Tool owner / IT
2. Sheets, tabs and columns to explain	4	S-01	Operator
3. VBA macros to explain	2	—	IT
4. Business rules to confirm	7	R-01, R-02, R-03	Patient experience lead
5. Client decisions	4	D-01, D-02	Business owner / IG

1. Files to Supply

Read-only copies are enough. Without these files the main logic and the target data shapes stay unknown.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
F-01	**Survey Management.xlsm and 24 hr All Surveys** (full copies) with Power Query (M) code	Needed to read the SPC formulas and the failing queries (Spec Figure 10 [00:03:22]).	Tool owner	Discovery	G-06
F-02	**Survicate API access** (or scheduled export) and the list of surveys in scope	Replaces the manual download (Spec Figure 2 [00:00:48]).	Patient experience lead / IT	FR-F01	G-07
F-03	**One month of raw exports** (anonymised) with the cleaned versions	Shows exactly what the manual cleaning removes.	Operator	FR-F02	G-02
F-04	**Dashboard measures** for People › Feedback	Parity test.	BI owner	T-F01	G-08

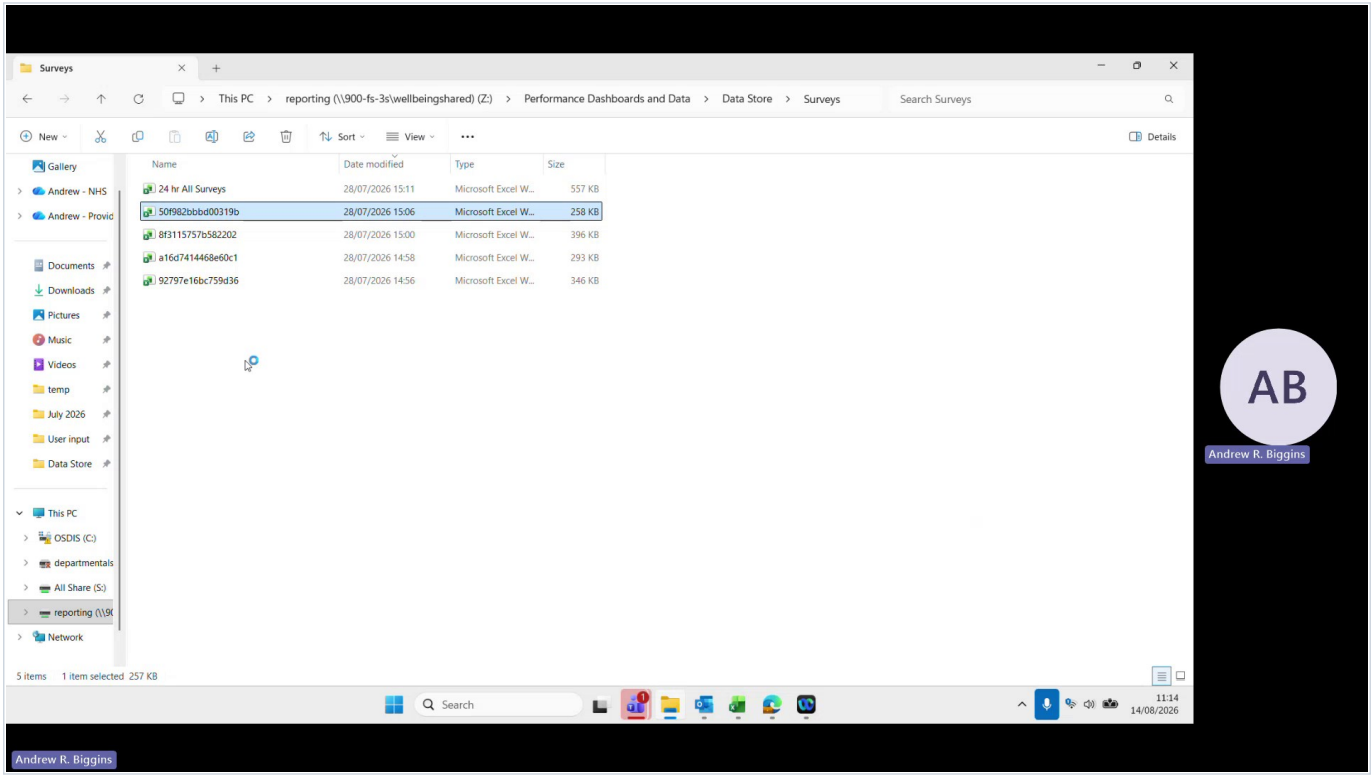

Figure 4 [00:01:24] — File Explorer › Z:\Performance Dashboards and Data\Data Store\Surveys: The Surveys folder: 24 hr All Surveys plus four exports with hash-like names (50f982bbbd00319b, 8f3115757b582202, a16d7414468e60c1, 92797e16bc759d36), all saved 28/07/2026

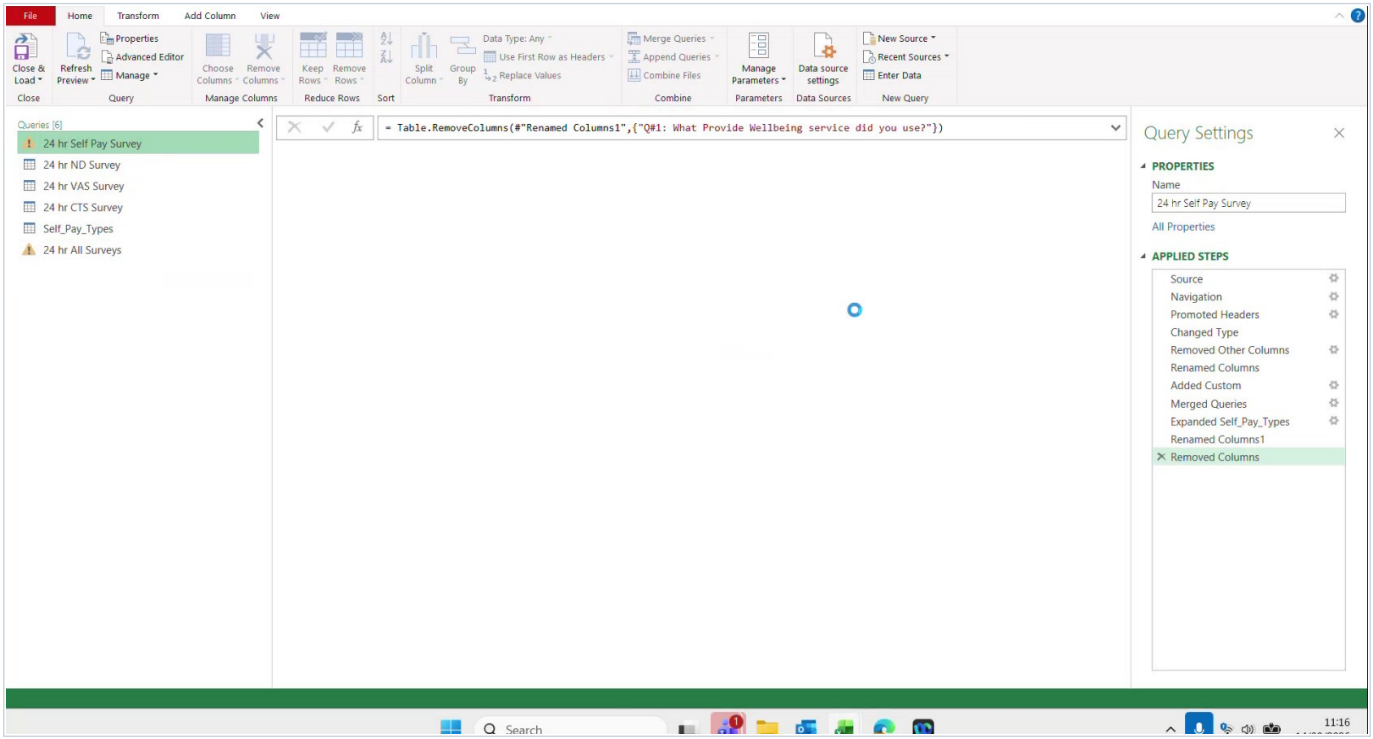

Figure 10 [00:03:22] — 24 hr All Surveys.xlsx › Power Query editor: 24 hr Self Pay Survey query (warning icon) with 11 applied steps (Source → Navigation → Promoted Headers → Changed Type → Removed Other Columns → Renamed Columns → Added Custom → Merged Queries → Expanded Self_Pay_Types → Renamed Columns1 → Removed Columns); last step =Table.RemoveColumns(#"Renamed Columns1",{"Q#1: What Provide Wellbeing service did you use?"})

2. Sheets, Tabs and Columns to Explain

These are parts of the workbook that were hidden, never opened, or behaved unexpectedly in the recording.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
S-01	**Which tool is authoritative**: 24 hr All Surveys or Survey Management	Both build the same table and both write requirements (Spec Figure 14 [00:04:40]).	Operator / business owner	Scope	G-01
S-02	**SPC sheet design**: baseline period, σ method, rule list	Read from the sheets but not explained (Spec Figure 16 [00:05:25]).	Operator	FR-F04	G-04
S-03	**Compliance tab cross-link** to Incident Management Estates	Purpose unknown (Spec Figure 21 [00:06:17]).	Operator	FR-F05	G-05
S-04	**Self Pay Types** list complete and current	Maps self-pay responses to services (Spec Figure 18 [00:06:01]).	Operator	FR-F03	BR-05

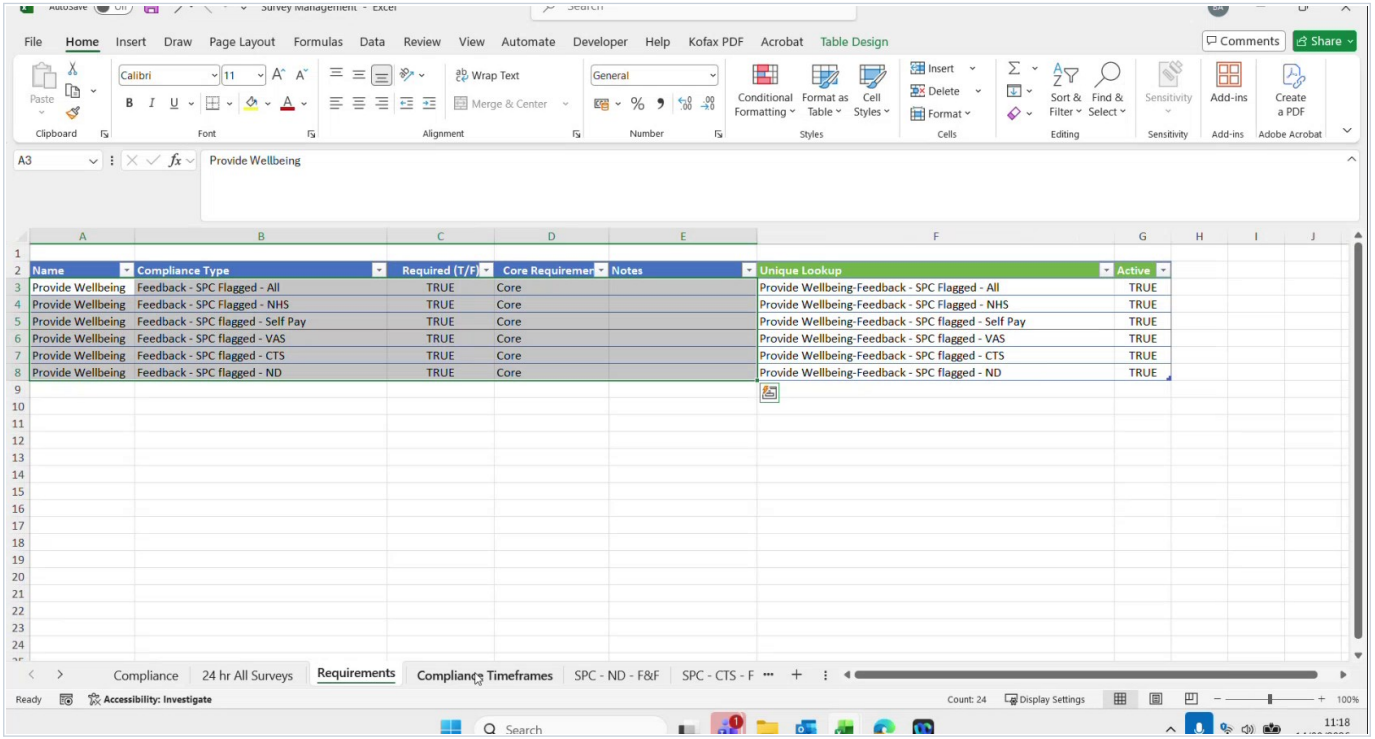

Figure 14 [00:04:40] — Survey Management.xlsm › Requirements: Survey Management has its own Requirements (and Compliance Timeframes): Compliance Type “Feedback - SPC Flagged - All” etc., prefixed “Feedback -” unlike the first tool’s “SPC Flagged - All”; Required TRUE, Core, Active TRUE

3. VBA Macros to Explain

For each macro we need either the source code (F-01) or a short written description from someone who knows it. The questions below are the minimum answers needed.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
V-01	**Confirm whether Survey Management.xlsm has VBA**	Macro-enabled file; no macro used on screen.	IT	Discovery	—
V-DS1	**Copy-to-store and Last Updated macros** of the survey tools (.bas export), or a statement that the tool has none	The template says each tool copies into Compliance Data “via VBA” and that Last Updated is written “semi-automatically by each user input tool”, but the only macro supplied is the Self-Pay one (tab 04 row 49), and the recording shows manual work. The write rule decides how duplicates are prevented.	IT / tool owner	Loader design	DSL §7, DS-12

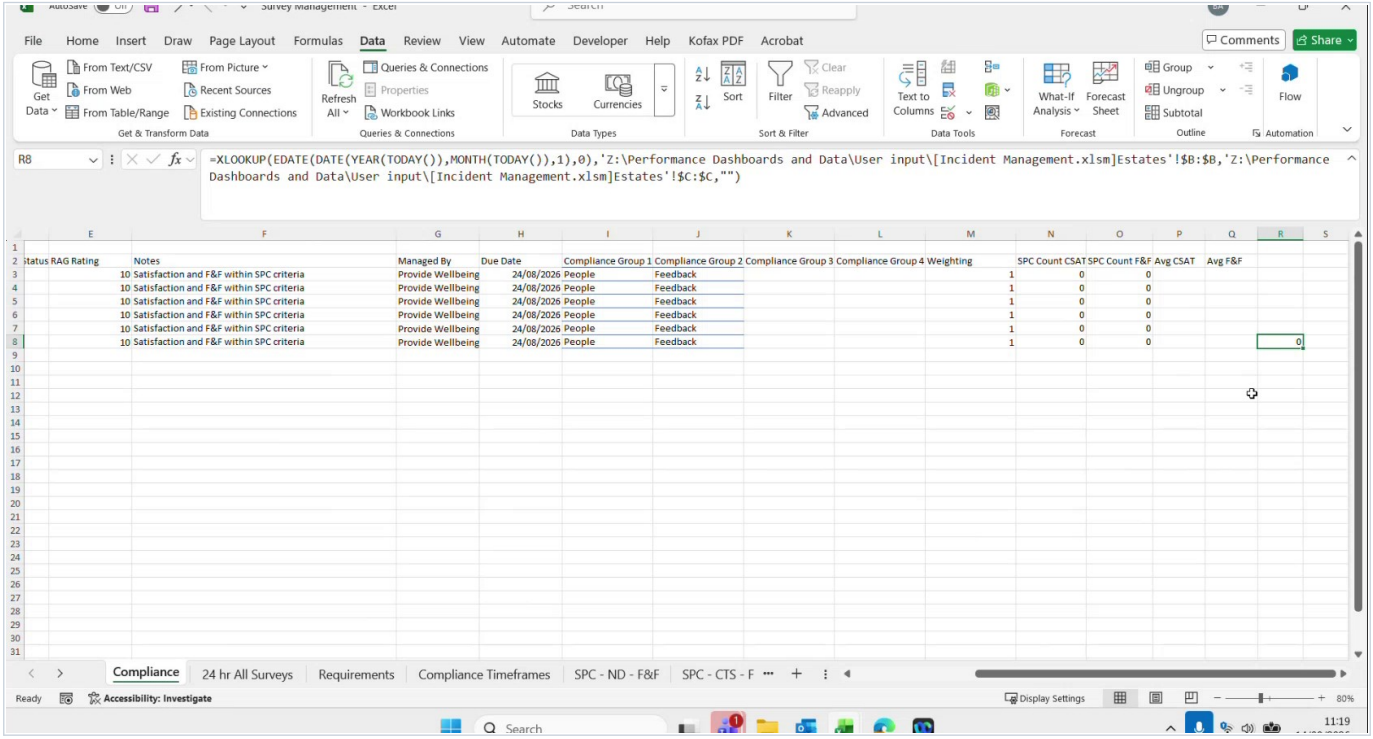

Figure 21 [00:06:17] — Survey Management.xlsm › Compliance: Formula bar, R8: =XLOOKUP(EDATE(DATE(YEAR(TODAY()),MONTH(TODAY()),1),0),'Z:\Performance Dashboards and Data\User input\[Incident Management.xlsm]Estates'!$B:$B, …) — a link into the Incident Management workbook’s Estates tab

4. Business Rules to Confirm

The new system calculates these instead of relying on people. The rule must be written down and agreed, because once automated it applies to every record.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
R-01	**Acceptance rule**: per-response “4 or 5 acceptable” or SPC on monthly averages?	Spoken rule differs from the sheets (SV-01, SV-02).	Patient experience lead	FR-F04	G-03
R-02	**Spoilt-response definition**	Manual deletion today (00:01:46).	Patient experience lead	FR-F02	G-02
R-03	**SPC parameters**: baseline, 3σ limits, run length 7, trend length, 2-of-3 rule	Must be fixed and versioned before automation.	Patient experience lead	FR-F04	G-04
R-04	**Service groups**: All, NHS, Self Pay, VAS, CTS, ND (is POD included?)	Defines the six compliance types.	Business owner	Data model	G-07
R-05	**Minimum responses per month** before SPC is applied	Small months make averages unstable.	Patient experience lead	FR-F04	—
R-DS1	**Missing record and Active rules**: a requirement with no record counts as Non Compliant, and only Required + Active rows count toward %	Written in the data store’s Requirements formulas (tab 04 rows 212–217). The new scoring must keep them or change them on purpose.	Business owner	Scoring parity	DSL §4.3, DS-06
R-DS2	**Issue = 10 means compliant** for Feedback: confirm how the SPC result sets Issue	The data store judges Feedback only by Issue = 10 (tab 04 row 192), so the mapping from the survey SPC result to Issue is the whole rule.	Business owner	Scoring	DSL §3

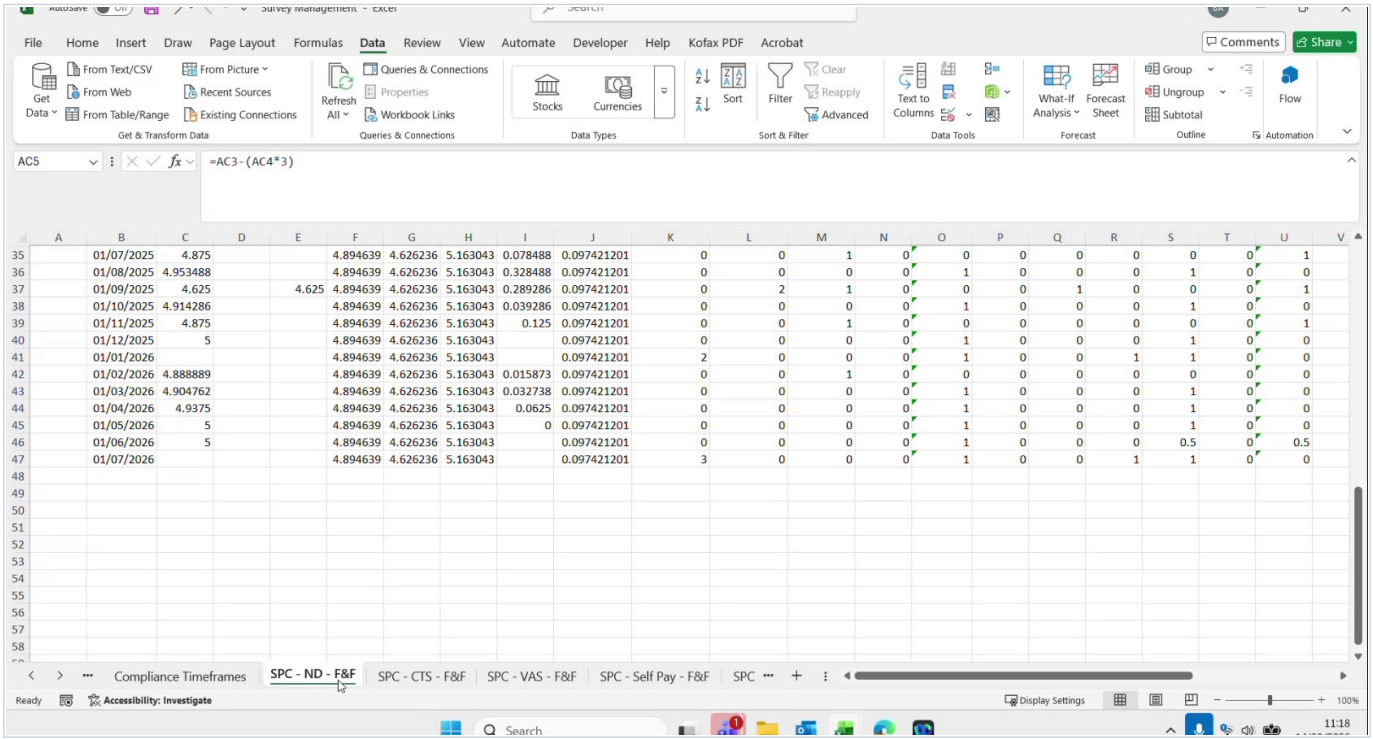

Figure 16 [00:05:25] — Survey Management.xlsm › SPC - Self Pay - F&F: SPC rule columns: Count > 3, Count < 3, Under Mean, 7 points < mean, Over Mean, 7 points > mean, Under LCL, Over UCL, Trend Up, 7 points Trend Up, Trend Down, 7 points Trend Down, 2 out of 3 low, 2 out of 3 high; Mean 4.81, StdDev 0.105, LCL 4.50, UCL 5.12

5. Client Decisions Required

These decide how patient feedback is judged and governed in the new system.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
D-01	**Store patient comments or not**	Free-text patient feedback in shared files today (FM-07).	IG lead / DPO	Before data load	NFR-F01
D-02	**Retire one of the two tools and unify type names**	Duplicate requirement rows in the store (SV-03).	Business owner	FR-F06	G-01
D-03	**Named approver** for monthly feedback publication	One person runs and publishes today.	Business owner	Publication	—
D-DS1	**Keep or retire** the data store's unexplained calculations (Snapshot, Encoded and Rank columns, Column1) as they affect this area	The client marks 17 of the 88 data-store rows as Unclear/Unknown. Rebuilding them without a purpose adds cost; dropping one the dashboard uses breaks a visual.	Business owner + BI owner	Dashboard scope	DSL §8, DS-17

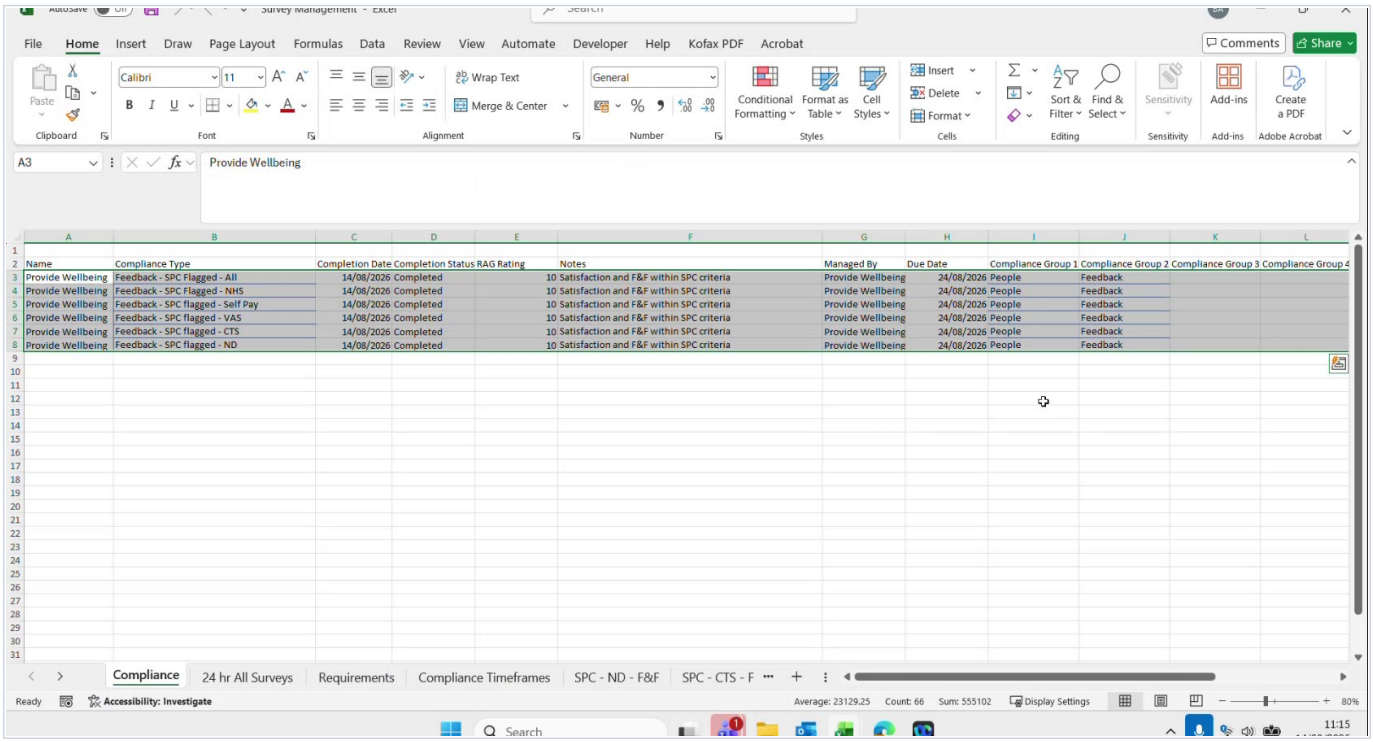

Figure 6 [00:02:21] — Survey Management.xlsm › Compliance: Survey Management.xlsm opens on Compliance: six rows (Feedback - SPC Flagged - All / NHS / Self Pay / VAS / CTS / ND), completed 14/08/2026, Issue 10, "Satisfaction and F&F within SPC criteria", due 24/08/2026, People › Feedback

6. Sign-off Checklist

Tick each item when the file is received or the decision is recorded. Phase 1 (Foundation) starts when every **Blocker** is ticked.

✓	ID	Item	Owner	Priority	Received / decided (date, by)
☐	F-01	Survey Management.xlsm and 24 hr All Surveys	Tool owner	**Blocker**	
☐	F-02	Survicate API access	Patient experience lead / IT	**Blocker**	
☐	F-03	One month of raw exports	Operator	Phase 1	
☐	F-04	Dashboard measures for People › Feedback	BI owner	Phase 1	
☐	S-01	Which tool is authoritative	Operator / business owner	**Blocker**	
☐	S-02	SPC sheet design	Operator	Phase 1	
☐	S-03	Compliance tab cross-link to Incident Management Estates	Operator	Phase 1	
☐	S-04	Self Pay Types list complete and current	Operator	Phase 1	
☐	V-01	Confirm whether Survey Management.xlsm has VBA	IT	Phase 1	
☐	V-DS1	Copy-to-store and Last Updated macros of the survey tools	IT / tool owner	Phase 1	
☐	R-01	Acceptance rule	Patient experience lead	**Blocker**	
☐	R-02	Spoilt-response definition	Patient experience lead	**Blocker**	
☐	R-03	SPC parameters	Patient experience lead	**Blocker**	
☐	R-04	Service groups	Business owner	Phase 1	
☐	R-05	Minimum responses per month before SPC is applied	Patient experience lead	Phase 1	
☐	R-DS1	Missing record and Active rules	Business owner	Phase 1	
☐	R-DS2	Issue = 10 means compliant for Feedback	Business owner	Phase 1	
☐	D-01	Store patient comments or not	IG lead / DPO	**Blocker**	
☐	D-02	Retire one of the two tools and unify type names	Business owner	**Blocker**	
☐	D-03	Named approver for monthly feedback publication	Business owner	Phase 1	
☐	D-DS1	Keep or retire the data store’s unexplained calculations	Business owner + BI owner	Phase 1	

Signatures

Signing confirms that every Blocker above has been supplied or decided and that the build can start.
