COMPANION TO THE TECHNICAL SPECIFICATION

Pre-Build Client Requirements

Files, sheets, VBA, business rules and client decisions that must be supplied or confirmed before the modern Mandatory Training compliance system can be built, each with the reason it is required

Applies to	Mandatory training workflow (ESR / WFS / Provide CIC reports and contractor certificates → Training Matrix v3 → Compliance Data.xlsm → dashboard)
Companion of	Training_Compliance_Workflow_Specification.pdf (same folder). “Spec Figure N” and IDs such as P-xx, G-xx, FM-xx, FR-xx refer to that document
Evidence	Teams recording 20260814_113314 (14:33); timestamps are video positions
Data store items	IDs ending in -DS come from the client’s source template (sources/Wellbeing Dashboard current data template.xlsx); “DSL §n” and DS-xx refer to 00_Overview/Compliance_Data_Store_Logic.pdf
Report date	16 October 2026
Status	Open: awaiting client inputs. Build Phase 1 cannot start until every **Blocker** item in §6 is ticked

Why this document exists. The operator rebuilt this logic after its author left and could not explain several fields (timeframe 0.5, Issue, Missing). The monthly publish deletes and replaces every training row in the data store, requirements are typed by hand, and targets and thresholds disagree. This list turns them into **26 concrete asks**, each with a reason, the evidence, who should answer it and what it blocks.

How to use it: work through §1–§5, attach files or answers against each ID, then sign the checklist in §6. Anything marked *Blocker* stops the build; the rest can be answered during Phase 1.

Summary

Category	Items	Blockers	Main owner
1. Files to supply	5	F-01, F-02, F-03	Tool owner / HR systems
2. Sheets, tabs and columns to explain	5	S-01	Operator
3. VBA macros to explain	2	—	IT
4. Business rules to confirm	8	R-01, R-02, R-03	Business owner / L&D; lead
5. Client decisions	6	D-01, D-02, D-04	Business owner / IG

1. Files to Supply

Read-only copies are enough. Without these files the main logic and the target data shapes stay unknown.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
F-01	**Training Matrix v3** (full copy) and confirmation of file type / any VBA	Read every formula and hidden column directly; the extension and macros were not visible (G-11).	Operator	Discovery	G-11
F-02	**Sample monthly reports** from ESR, Workforce Solutions and Provide CIC L&D (anonymised)	They are the main sources of training dates (00:04:26) and set the import contracts.	HR systems / WFS / L&D	FR-T04	G-05
F-03	**Compliance Data.xlsm** with the Most Recent formula and the current training rows	Needed to confirm why Most Recent fails for training (Spec Figure 29 [00:13:06]) and to migrate.	Tool owner	FR-T03	G-01
F-04	**Staff identifiers** per source (ESR employee number, WFS worker ID)	Matching by name fails with prefixes and spelling variants.	HR systems	FR-T04	FM-03
F-05	**Dashboard measures** for People › Training	The operator is unsure whether the transfer rows are used as-is (G-08).	BI owner	Parity	G-08

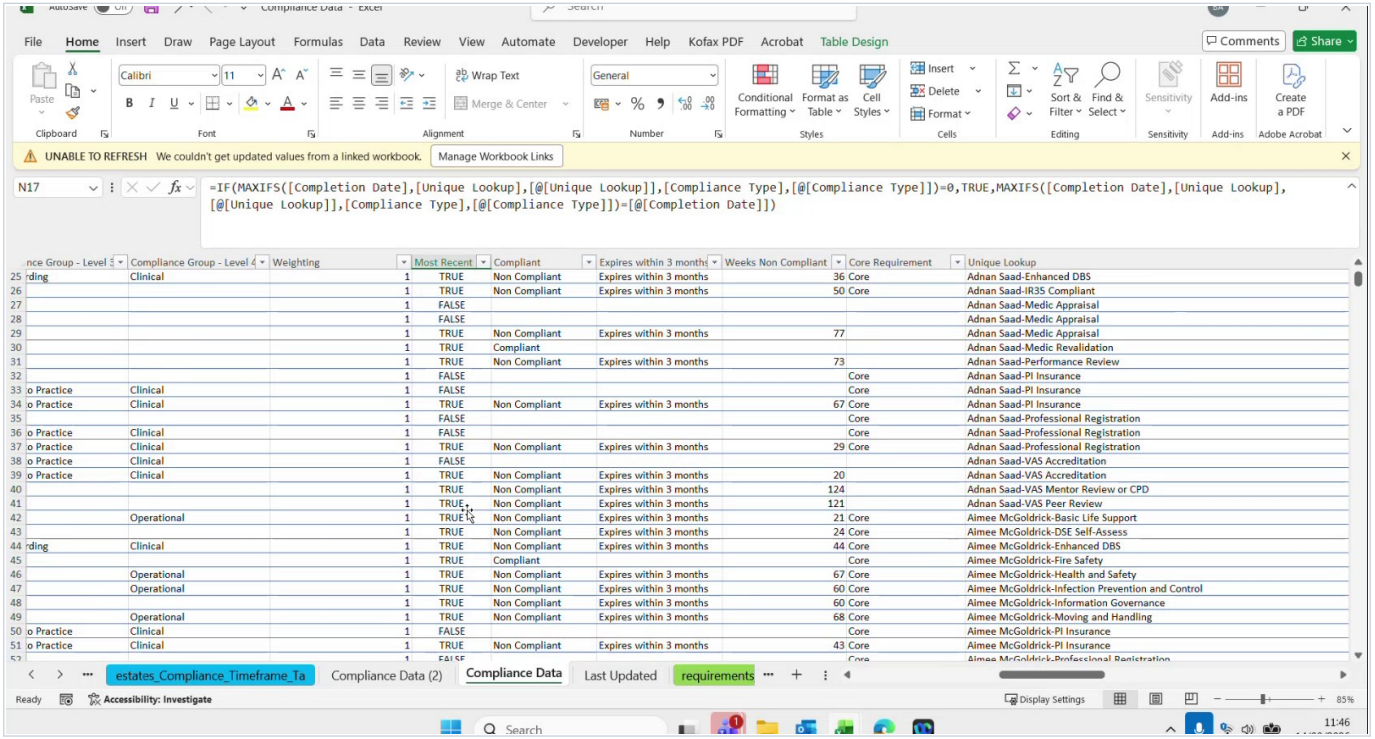

Figure 29 [00:13:06] — Compliance Data.xlsm › Compliance Data: Compliance Data (data store): Most Recent = IF(MAXIFS([Completion Date],[Unique Lookup],[@[Unique Lookup]],[Compliance Type],[@[Compliance Type]])=0,TRUE,...=[@[Completion Date]]), Compliant, Expires within 3 months, Weeks Non Compliant; “UNABLE TO REFRESH – linked workbook”

2. Sheets, Tabs and Columns to Explain

These are parts of the workbook that were hidden, never opened, or behaved unexpectedly in the recording.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
S-01	**Full course list** with intervals, groups and supersession (Training Details) — approved	Drives every expiry and supersession (Spec Figure 26 [00:11:38]).	L&D lead	FR-T01	BR-01
S-02	**Roles table review**: is Roles_Training12 the source of truth for requirements?	Requirements are typed by hand and can disagree (Spec Figure 25 [00:11:25]).	L&D lead	FR-T02	SV-03
S-03	**Unused tabs**: Course Detail, Nurses, Staff Filter, Transfer from v..., Role Rules, OMcGOW, Training Intervals	Several show #REF! or Medical Devices headers (Spec Figure 27 [00:11:51]); decide what to retire.	Operator	Scope	G-07
S-04	**How Expiry Date is filled** in Completed Training	Typed or calculated changes the import rules.	Operator	FR-T06	G-06
S-05	**Staff list value lists** (Status, Employer, Training System, Role2)	Free values break filters and joins.	Operator	FR-T07	G-10

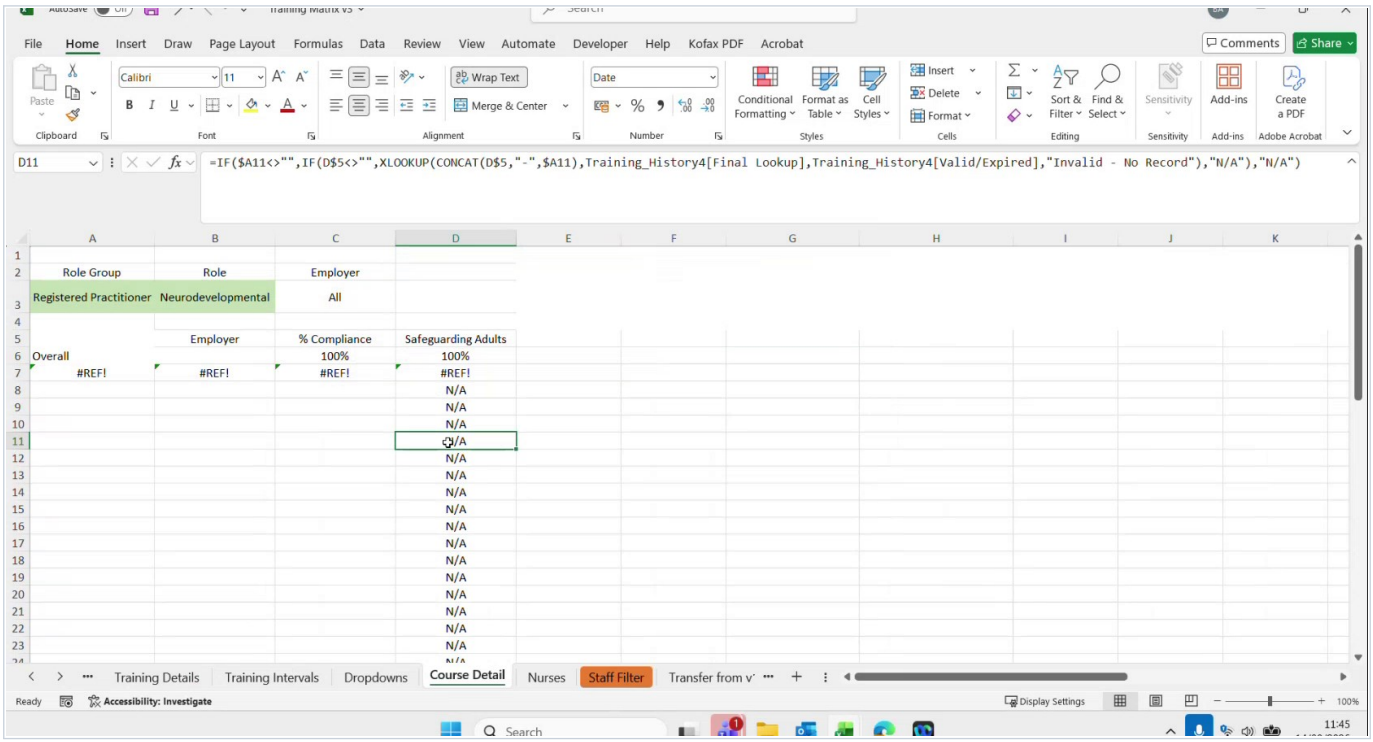

Figure 27 [00:11:51] — Training Matrix v3.xlsm › Course Detail: Course Detail tab (“never been used”): Role Group / Role / Employer pickers, D11 =IF($A11<>"",IF(D$5<>"",XLOOKUP(CONCAT(D$5,"-",$A11),Training_History4[Final Lookup],Training_History4[Valid/Expired],"Invalid - No Record"),"N/A"),"N/A"); row 7 shows #REF! errors. Further tabs: Nurses, Staff Filter, Transfer from v...

3. VBA Macros to Explain

For each macro we need either the source code (F-01) or a short written description from someone who knows it. The questions below are the minimum answers needed.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
V-01	**Confirm whether the matrix has any VBA**	None was run on screen; needed to complete the inventory.	IT	Discovery	G-11
V-DS1	**Copy-to-store and Last Updated macros** of the Training Matrix (.bas export), or a statement that the tool has none	The template says each tool copies into Compliance Data “via VBA” and that Last Updated is written “semi-automatically by each user input tool”, but the only macro supplied is the Self-Pay one (tab 04 row 49), and the recording shows manual work. The write rule decides how duplicates are prevented.	IT / tool owner	Loader design	DSL §7, DS-12

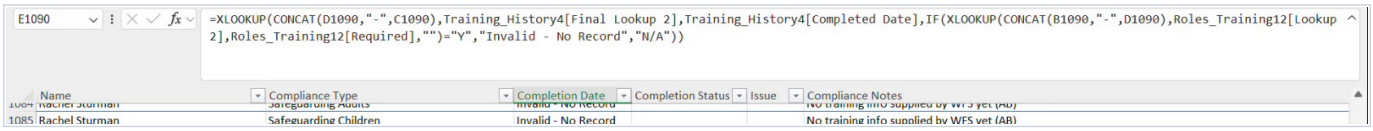

Figure 20 [00:09:34] — Training Matrix v3.xlsm › Compliance Transfer: Formula bar, E1090 Completion Date: =XLOOKUP(CONCAT(D1090,"-",C1090),Training_History4[Final Lookup 2],Training_History4[Completed Date],IF(XLOOKUP(CONCAT(B1090,"-",D1090),Roles_Training12[Lookup 2],Roles_Training12[Required],"")="Y","Invalid - No Record","N/A"))

4. Business Rules to Confirm

The new system calculates these instead of relying on people. The rule must be written down and agreed, because once automated it applies to every record.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
R-01	**Validity rule**: interval per course, 45-day Expiring window, one-off courses	Read from the formula (Spec Figure 7 [00:02:21]); must be confirmed before automation.	L&D lead	FR-T06	BR-01
R-02	**Supersession rules** (which higher course satisfies which lower one)	Drives Required / Not Required (BR-03).	L&D lead	FR-T01	BR-03
R-03	**Per-course targets**: one set (90%/95%?) for overview and dashboard	Overview targets and timeframe thresholds disagree (Spec Figure 24 [00:10:50], Spec Figure 15 [00:03:25]).	Business owner	FR-T08	SV-04
R-04	**Meaning of 0.5 timeframe and Issue = 10**	Unexplained constants copied into the store.	Business owner	Data model	G-02, G-03
R-05	**Which staff are counted**: current only; onboarding excluded; on-hold?	Current Staff logic depends on Status and dates (BR-05).	Business owner	FR-T06	BR-05
R-06	**Moving and Handling rule** for roles where the course name differs	It showed Not Required until the correct course was recorded (00:09:20).	L&D lead	FR-T02	G-09
R-DS1	**Missing record and Active rules**: a requirement with no record counts as Non Compliant, and only Required + Active rows count toward %	Written in the data store's Requirements formulas (tab 04 rows 212–217). The new scoring must keep them or change them on purpose.	Business owner	Scoring parity	DSL §4.3, DS-06
R-DS2	**Training compliance rule**: compliant whenever Completion Status is filled, or only until the training expires?	The data store marks Training compliant on Completion Status alone (tab 04 row 192), ignoring the due date that the Training Matrix calculates.	Business owner	Rules engine	DSL §3, DS-03

5. Client Decisions Required

These decide how training is governed in the new system; several belong to Learning & Development and HR, not only to the dashboard owner.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
D-01	**Keep full training history in the new store** (no monthly delete-and-replace)	The store currently loses history every month (FM-01).	Business owner	FR-T03	SV-01
D-02	**Source of truth for staff** (ESR / HR system vs the matrix)	Decides identifiers and who maintains the register.	HR / business owner	Data model	FM-03
D-03	**Contractor evidence process**: certificate upload, reviewer, reminders	Direct contractors are chased by email today (BR-07).	Business owner	FR-T05	BR-07
D-04	**IG approval** for staff contact data and HR notes in the new system	Emails and comments are copied widely (FM-09).	IG lead / DPO	Before data load	NFR-T01
D-05	**Named approver** for monthly training publication	One person edits and publishes today.	Business owner	Publication	EX-04
D-DS1	**Keep or retire** the data store's unexplained calculations (Snapshot, Encoded and Rank columns, Column1) as they affect this area	The client marks 17 of the 88 data-store rows as Unclear/Unknown. Rebuilding them without a purpose adds cost; dropping one the dashboard uses breaks a visual.	Business owner + BI owner	Dashboard scope	DSL §8, DS-17

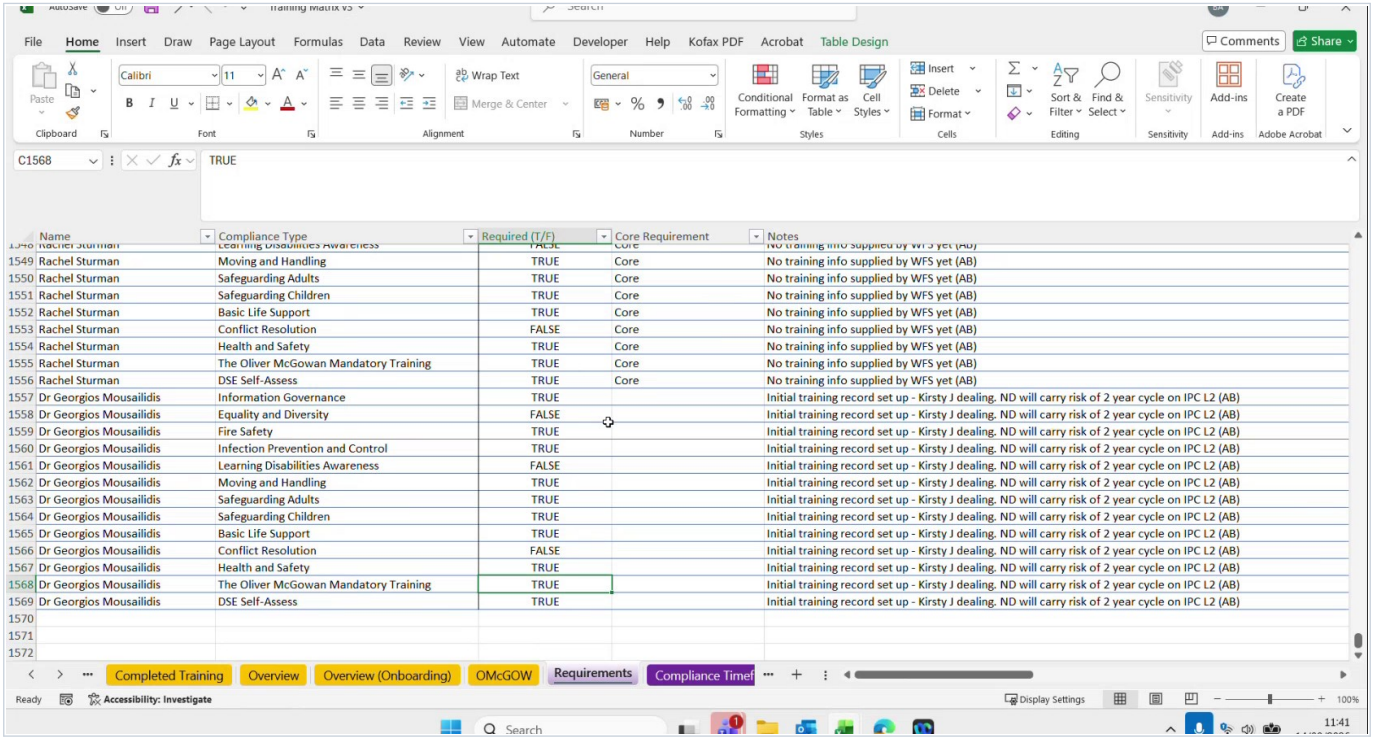

Figure 19 [00:08:20] — Training Matrix v3.xlsm › Requirements: AFTER: 13 Requirements rows added for Dr Georgios Mousailidis by copy-paste; Required TRUE/FALSE typed per course (e.g. Equality and Diversity FALSE for a contractor)
