COMPANION TO THE TECHNICAL SPECIFICATION

Pre-Build Client Requirements

Files, sheets, VBA, business rules and client decisions that must be supplied or confirmed before the modern RTT compliance system can be built, each with the reason it is required

Applies to	RTT compliance workflow (SystmOne → RTT breach report → RTT Data → Compliance Data.xlsm → dashboard)
Companion of	RTT_Compliance_Workflow_Specification.pdf (same folder). “Spec Figure N” and IDs such as P-xx, G-xx, FM-xx, FR-xx refer to that document
Evidence	Teams recording sixth/MEDDAD~1.MP4 (8:42); timestamps are video positions
Data store items	IDs ending in -DS come from the client’s source template (sources/Wellbeing Dashboard current data template.xlsx); “DSL §n” and DS-xx refer to 00_Overview/Compliance_Data_Store_Logic.pdf
Report date	16 October 2026
Status	Open: awaiting client inputs. Build Phase 1 cannot start until every **Blocker** item in §6 is ticked

Why this document exists. During the recording the operator deleted the column holding service-specific breach rules and switched the RTT week to ROUNDDOWN, which turned a breached patient into a compliant one. The breach report, Column43 and the weighting could not be explained. These must be settled before any rule is automated. This list turns them into **21 concrete asks**, each with a reason, the evidence, who should answer it and what it blocks.

How to use it: work through §1–§5, attach files or answers against each ID, then sign the checklist in §6. Anything marked *Blocker* stops the build; the rest can be answered during Phase 1.

Contents

Summary 2

1. Files to Supply 3

2. Sheets, Tabs and Columns to Explain 4

3. VBA Macros to Explain 5

4. Business Rules to Confirm 6

5. Client Decisions Required 8

Summary

Category	Items	Blockers	Main owner
1. Files to supply	4	F-01, F-02	Operational / IT
2. Sheets, tabs and columns to explain	3	S-01	Operator
3. VBA macros to explain	2	—	IT
4. Business rules to confirm	6	R-01, R-02, R-03	RTT / operational lead
5. Client decisions	6	D-01, D-02	Business owner / IG

1. Files to Supply

Read-only copies are enough. Without these files the main logic and the target data shapes stay unknown.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
F-01	**RTT Data workbook — the version before 14/08/2026** and the current one	The live edit removed Breach Date 2 and changed rounding (Spec Figure 13 [00:04:53]); we need to know what is in production now and what it replaced.	Operator / IT	Phase 0	G-01
F-02	**RTT breach report** and the SystmOne report definition behind it	The query source and how breach dates are produced were not shown (Spec Figure 9 [00:02:56]).	Operational team	FR-R01	G-05
F-03	**Anonymised sample** of one week's RTT list	Tests and parity without patient identifiers.	Operator	T-R01	—
F-04	**Dashboard measures** for RTT Compliance	Parity and threshold use.	BI owner	Parity	—

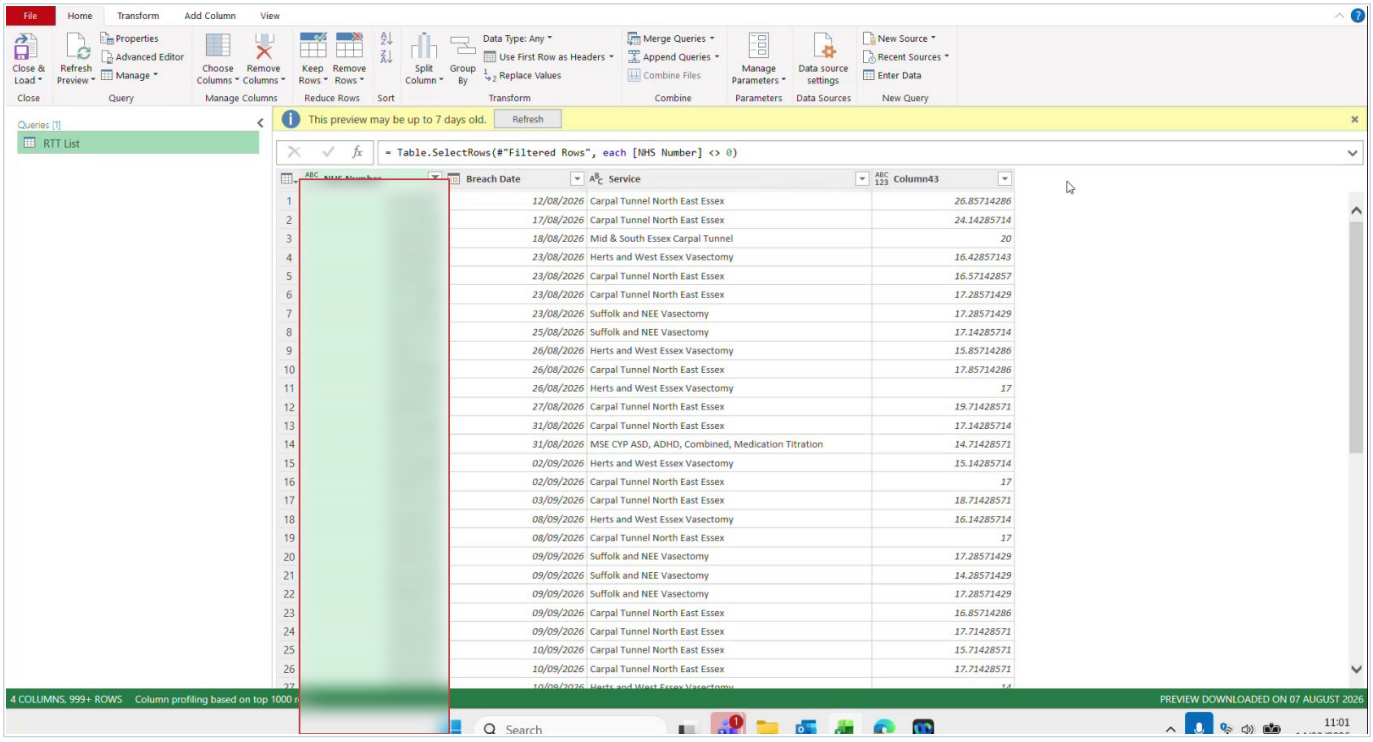

Figure 9 [00:02:56] — RTT Data.xlsx › Power Query editor: Query RTT List: last step =Table.SelectRows(#"Filtered Rows", each [NHS Number] <> 0); source is the weekly RTT breach report built from a SystmOne download ("This preview may be up to 7 days old"). NHS numbers blurred

2. Sheets, Tabs and Columns to Explain

These are parts of the workbook that were hidden, never opened, or behaved unexpectedly in the recording.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
S-01	**Compliance column formula** on the RTT List	Not shown; it decides Compliant / Not Compliant.	Operator	FR-R03	G-08
S-02	**Column43**: meaning and source	“Can’t actually remember” (Spec Figure 10 [00:03:47]).	Operational team	Data model	G-04
S-03	**Service list**: are ECC Autism in Schools and Norfolk and Waveney ASD still reported?	They had special breach rules but are not among the ten requirements.	Operational lead	FR-R02	G-02

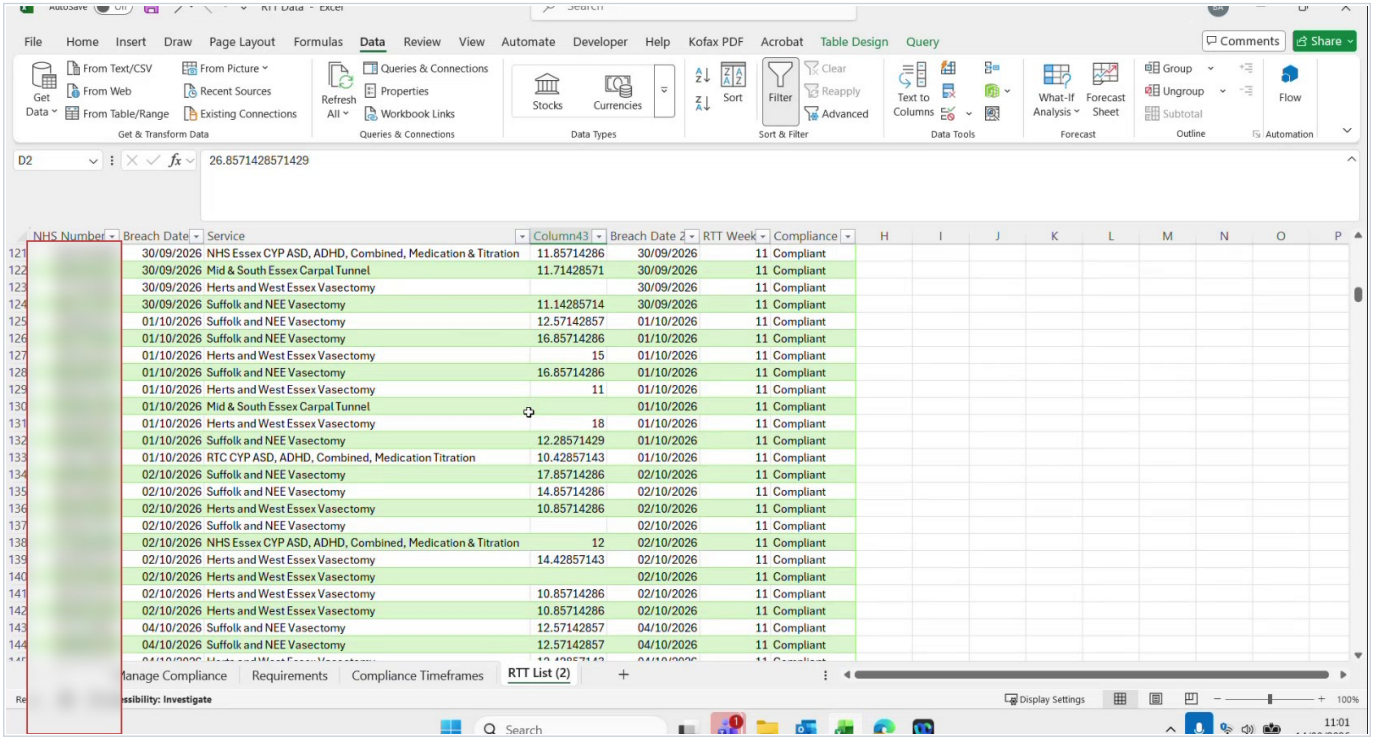

Figure 10 [00:03:47] — RTT Data.xlsx › RTT List: Column43 (e.g. 26.857, 11.857) — “What’s column 43? Can’t actually remember”: a weeks-waited value carried from the breach report [Inferred]

3. VBA Macros to Explain

For each macro we need either the source code (F-01) or a short written description from someone who knows it. The questions below are the minimum answers needed.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
V-01	**Confirm there is no VBA** in RTT Data or the breach report	Not seen in the recording.	IT	Discovery	—
V-DS1	**Copy-to-store and Last Updated macros** of the RTT tool (.bas export), or a statement that the tool has none	The template says each tool copies into Compliance Data "via VBA" and that Last Updated is written "semi-automatically by each user input tool", but the only macro supplied is the Self-Pay one (tab 04 row 49), and the recording shows manual work. The write rule decides how duplicates are prevented.	IT / tool owner	Loader design	DSL §7, DS-12

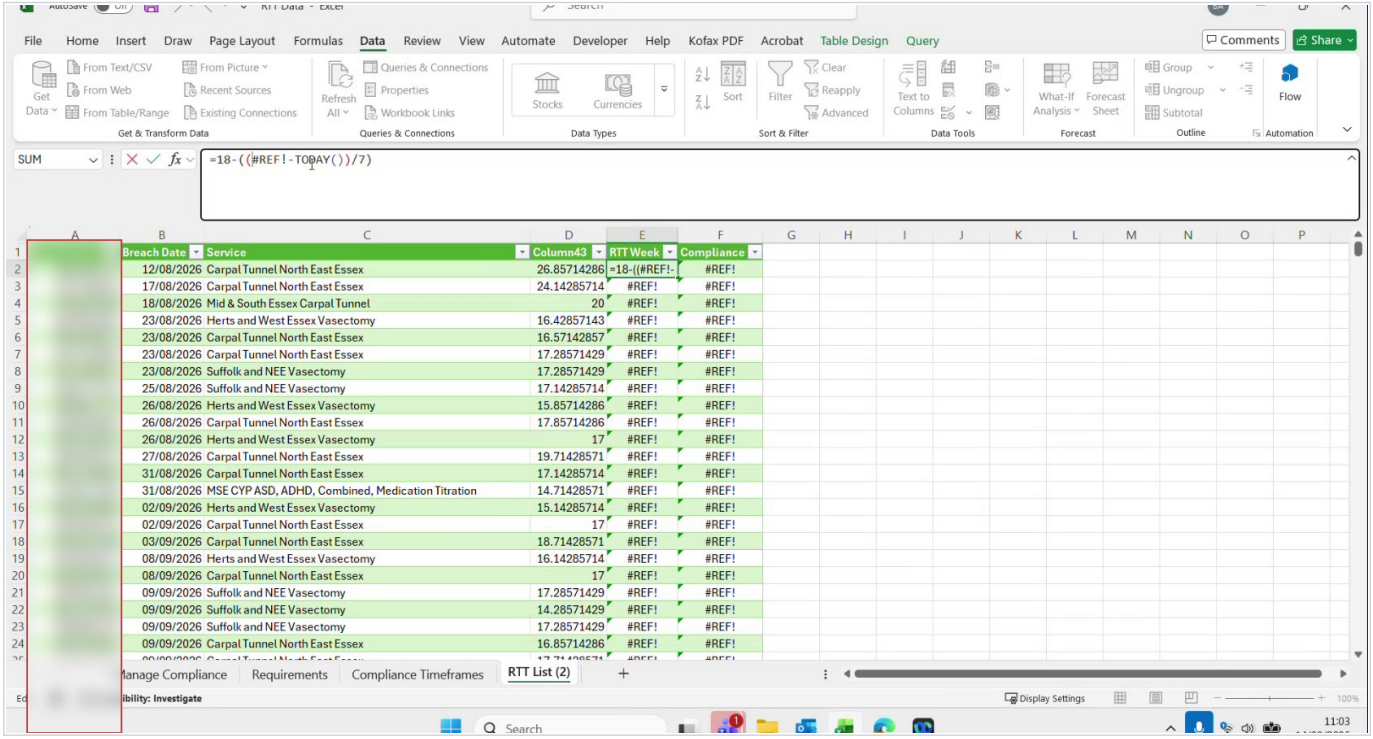

Figure 13 [00:04:53] — RTT Data.xlsx › RTT List: Operator deletes Breach Date 2 ("we don't need a breach date"): RTT Week and Compliance become #REF!, formula =18-((#REF!-TODAY())/7) edited in the cell

4. Business Rules to Confirm

The new system calculates these instead of relying on people. The rule must be written down and agreed, because once automated it applies to every record.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
R-01	**Breach test**: compare dates, or rounded weeks (and which rounding)?	ROUNDDOWN hid a breach (Spec Figure 15 [00:05:41]).	RTT lead	FR-R03	SV-02
R-02	**Service-specific breach offsets** (+70 ECC Autism, +42 Norfolk and Waveney ASD): keep, change or drop	They were deleted live (Spec Figure 11 [00:04:01]).	RTT lead	FR-R02	SV-01
R-03	**RAG boundary**: is exactly 92% compliant?	Formula says no, speech says “less than 92 is red” (Spec Figure 18 [00:06:09]).	Business owner	FR-R04	SV-03
R-04	**Services with no patients**: compliant, not applicable or hidden?	Current formula gives #DIV/0!.	Business owner	FR-R04	FD-02
R-05	**Meaning of weighting = 1**	Unexplained constant.	Business owner	Data model	G-07
R-DS1	**Missing record and Active rules**: a requirement with no record counts as Non Compliant, and only Required + Active rows count toward %	Written in the data store’s Requirements formulas (tab 04 rows 212–217). The new scoring must keep them or change them on purpose.	Business owner	Scoring parity	DSL §4.3, DS-06

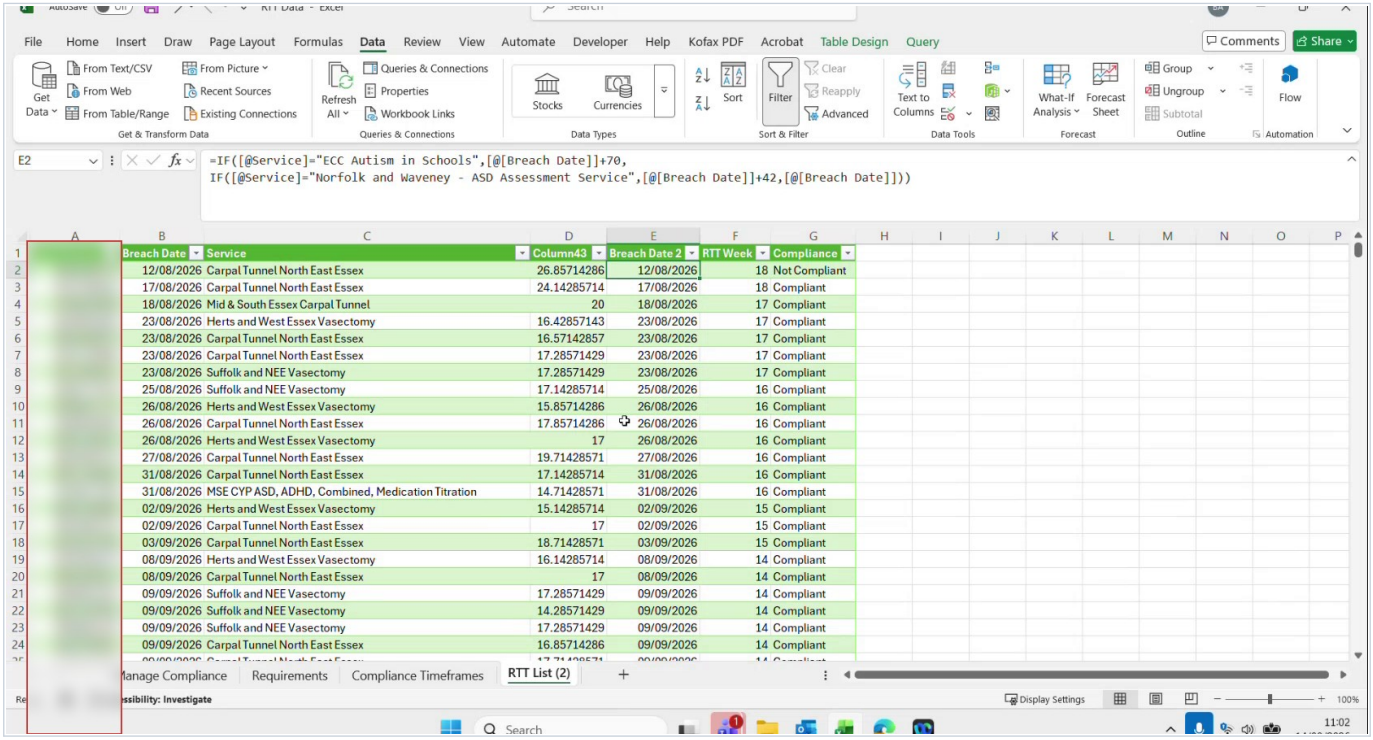

Figure 11 [00:04:01] — RTT Data.xlsx › RTT List: BEFORE the live edit: Breach Date 2 =IF([@Service]="ECC Autism in Schools",[@[Breach Date]]+70,IF([@Service]="Norfolk and Waveney - ASD Assessment Service",[@[Breach Date]]+42,[@[Breach Date]])) — service-specific breach-date adjustments

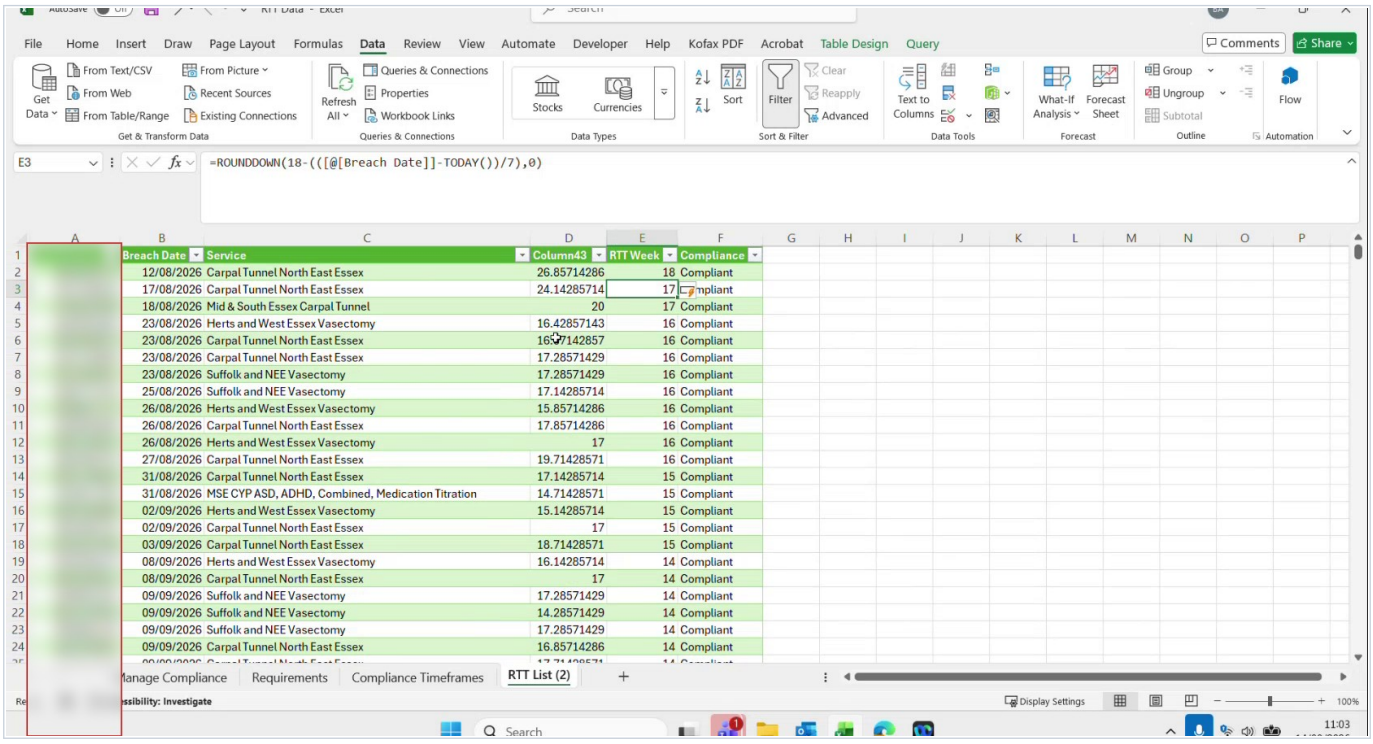

Figure 15 [00:05:41] — RTT Data.xlsx › RTT List: AFTER: changed to =ROUNDDOWN(18-(([@[Breach Date]]-TODAY())/7),0) (“we’ll have it to round down, I think”): the same patient, two days past the breach date, now shows 18 and Compliant

5. Client Decisions Required

RTT is a national NHS standard, so these decisions belong to the operational and contract leads as well as the dashboard owner.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
D-01	**Restore or accept the 14/08/2026 formula change**	Determines whether recent weekly figures are correct.	RTT lead + business owner	Before parity	G-01
D-02	**IG approval** for NHS-number data in the new system; dashboard aggregates only	Patient identifiers are processed (FM-04).	IG lead / DPO	Before data load	NFR-R01
D-03	**Change-control owner** for RTT rules	No review of rule changes today (FM-01).	Business owner	FR-R05	FM-01
D-04	**Weekly as-of day** for publication	Results depend on the day the file is opened (FD-01).	Business owner	NFR-R02	FD-01
D-DS1	**Keep or retire** the data store's unexplained calculations (Snapshot, Encoded and Rank columns, Column1) as they affect this area	The client marks 17 of the 88 data-store rows as Unclear/Unknown. Rebuilding them without a purpose adds cost; dropping one the dashboard uses breaks a visual.	Business owner + BI owner	Dashboard scope	DSL §8, DS-17
D-DS2	**Which compliance area and Level 2 group RTT belongs to**	RTT is not one of the 12 areas named in the Power Query combine lists (tab 04 rows 202, 227). The group decides whether Issue = 10, a due date or an SPC rule makes it compliant.	Tool owner	Scoring	DSL §2.1, DS-11

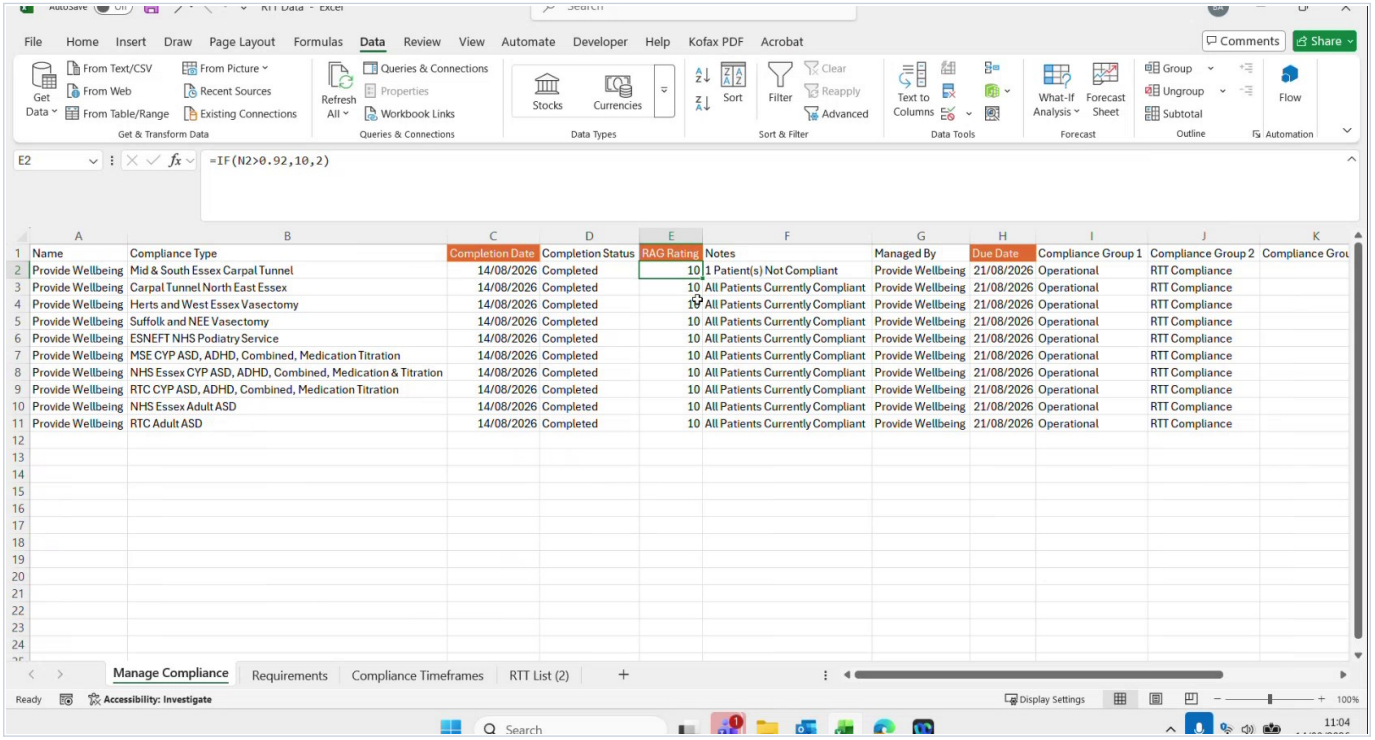

Figure 18 [00:06:09] — RTT Data.xlsx › Manage Compliance: Formula bar, E2 RAG Rating =IF(N2>0.92,10,2): 10 = compliant, 2 = not compliant; N2 = 99%, NC Patients = 1

6. Sign-off Checklist

Tick each item when the file is received or the decision is recorded. Phase 1 (Foundation) starts when every **Blocker** is ticked.

✓	ID	Item	Owner	Priority	Received / decided (date, by)
☐	F-01	RTT Data workbook — the version before 14/08/2026 and the current one	Operator / IT	**Blocker**	
☐	F-02	RTT breach report and the SystmOne report definition behind it	Operational team	**Blocker**	
☐	F-03	Anonymised sample of one week’s RTT list	Operator	Phase 1	
☐	F-04	Dashboard measures for RTT Compliance	BI owner	Phase 1	
☐	S-01	Compliance column formula on the RTT List	Operator	**Blocker**	
☐	S-02	Column43	Operational team	Phase 1	
☐	S-03	Service list	Operational lead	Phase 1	
☐	V-01	Confirm there is no VBA in RTT Data or the breach report	IT	Phase 1	
☐	V-DS1	Copy-to-store and Last Updated macros of the RTT tool	IT / tool owner	Phase 1	
☐	R-01	Breach test	RTT lead	**Blocker**	
☐	R-02	Service-specific breach offsets	RTT lead	**Blocker**	
☐	R-03	RAG boundary	Business owner	**Blocker**	
☐	R-04	Services with no patients	Business owner	Phase 1	
☐	R-05	Meaning of weighting = 1	Business owner	Phase 1	
☐	R-DS1	Missing record and Active rules	Business owner	Phase 1	
☐	D-01	Restore or accept the 14/08/2026 formula change	RTT lead + business owner	**Blocker**	
☐	D-02	IG approval for NHS-number data in the new system; dashboard aggregate	IG lead / DPO	**Blocker**	
☐	D-03	Change-control owner for RTT rules	Business owner	Phase 1	
☐	D-04	Weekly as-of day for publication	Business owner	Phase 1	
☐	D-DS1	Keep or retire the data store’s unexplained calculations	Business owner + BI owner	Phase 1	
☐	D-DS2	Which compliance area and Level 2 group RTT belongs to	Tool owner	Phase 1	

Signatures

Signing confirms that every Blocker above has been supplied or decided and that the build can start.
