COMPANION TO THE TECHNICAL SPECIFICATION

Pre-Build Client Requirements

Additional files, rules and decisions needed for the incidents build, beyond the list in 02_Incident_Management, each with the reason it is required

Applies to	Incidents compliance (RLDatix → Incident Management.xlsm → Compliance Data.xlsm → dashboard)
Companion of	Incident_Full_Compliance_Workflow_Specification.pdf (same folder). “Spec Figure N” and IDs such as P-xx, G-xx, FM-xx, FR-xx refer to that document
Evidence	Teams recording 20260814_102641 (10:00); timestamps are video positions
Data store items	IDs ending in -DS come from the client’s source template (sources/Wellbeing Dashboard current data template.xlsx); “DSL §n” and DS-xx refer to 00_Overview/Compliance_Data_Store_Logic.pdf
Report date	16 October 2026
Status	Open: awaiting client inputs. Build Phase 1 cannot start until every **Blocker** item in §6 is ticked

Why this document exists. This recording shows the full process, so most of the earlier unknowns are now answered. What remains are rule decisions (timeframe on Severity, SPC for counts, one RAG rule) and a stable Datix extract. Use this list together with the checklist in 02_Incident_Management. This list turns them into **14 concrete asks**, each with a reason, the evidence, who should answer it and what it blocks.

How to use it: work through §1–§5, attach files or answers against each ID, then sign the checklist in §6. Anything marked *Blocker* stops the build; the rest can be answered during Phase 1.

Summary

Category	Items	Blockers	Main owner
1. Files to supply	2	F-01	Datix admin / IT
2. Sheets, tabs and columns to explain	2	—	Operator
3. VBA macros to explain	2	—	IT
4. Business rules to confirm	5	R-01, R-02, R-03	Incident governance lead
5. Client decisions	3	D-01	Business owner / IG

1. Files to Supply

Read-only copies are enough. Without these files the main logic and the target data shapes stay unknown.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
F-01	**Datix report definition** (or API query) replacing the dashboard widget export	The export is one widget's Excel download (Spec Figure 10 [00:04:25]); its columns changed between 11/08 and 14/08.	Datix admin	FR-IF01	G-01
F-02	**Current Incident Management.xlsm** (the 14/08 version)	It still has the review-panel column that the 11/08 file lost; it is the migration baseline.	Operator	Migration	G-06

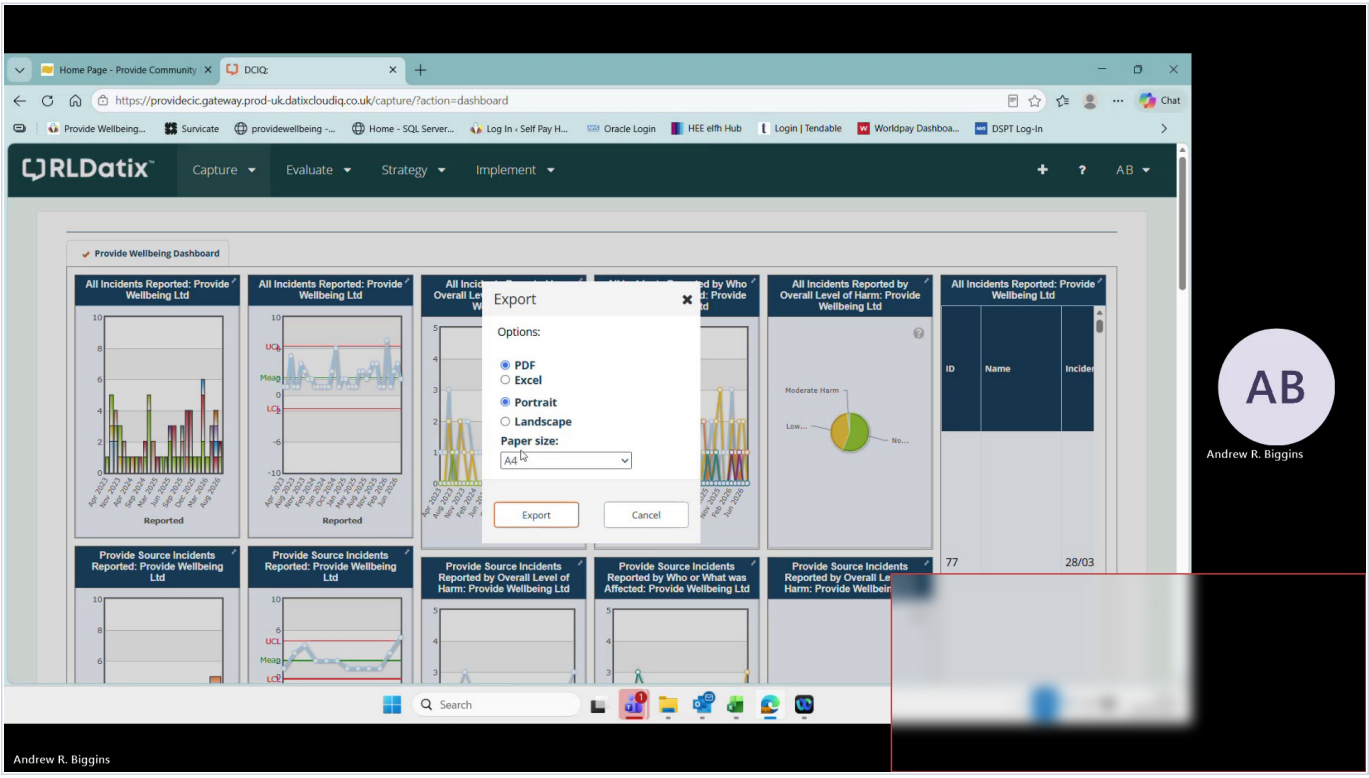

Figure 10 [00:04:25] — RLDatix (web) › Provide Wellbeing Dashboard: Widget menu › Export → Export dialog with options PDF / Excel and "Merge Footer Text"

2. Sheets, Tabs and Columns to Explain

These are parts of the workbook that were hidden, never opened, or behaved unexpectedly in the recording.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
S-01	**SPC sheets**: purpose of the unexplained table and the rule columns	“I don’t know what that table is” (00:07:45).	Operator	FR-IF03	G-02
S-02	**Harm Pivot**: is it used?	Not opened in detail.	Operator	Scope	G-05

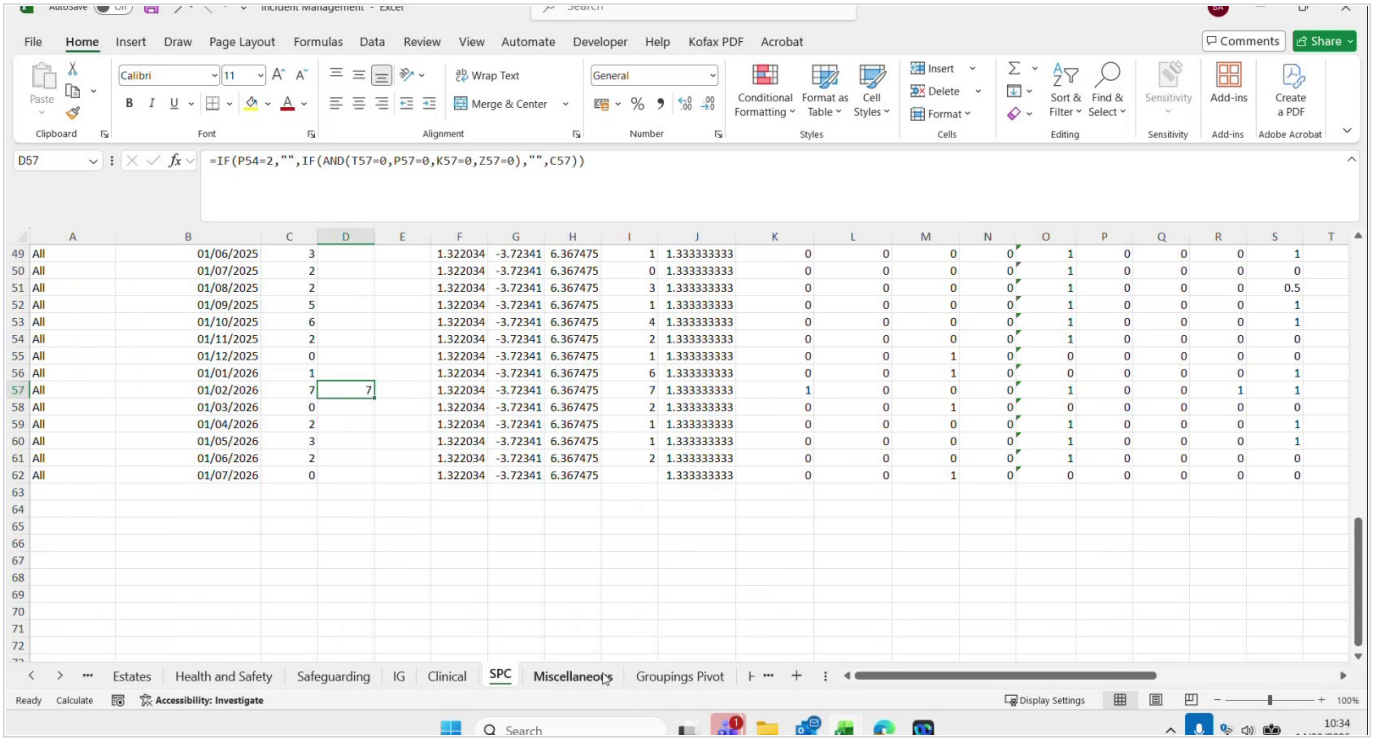

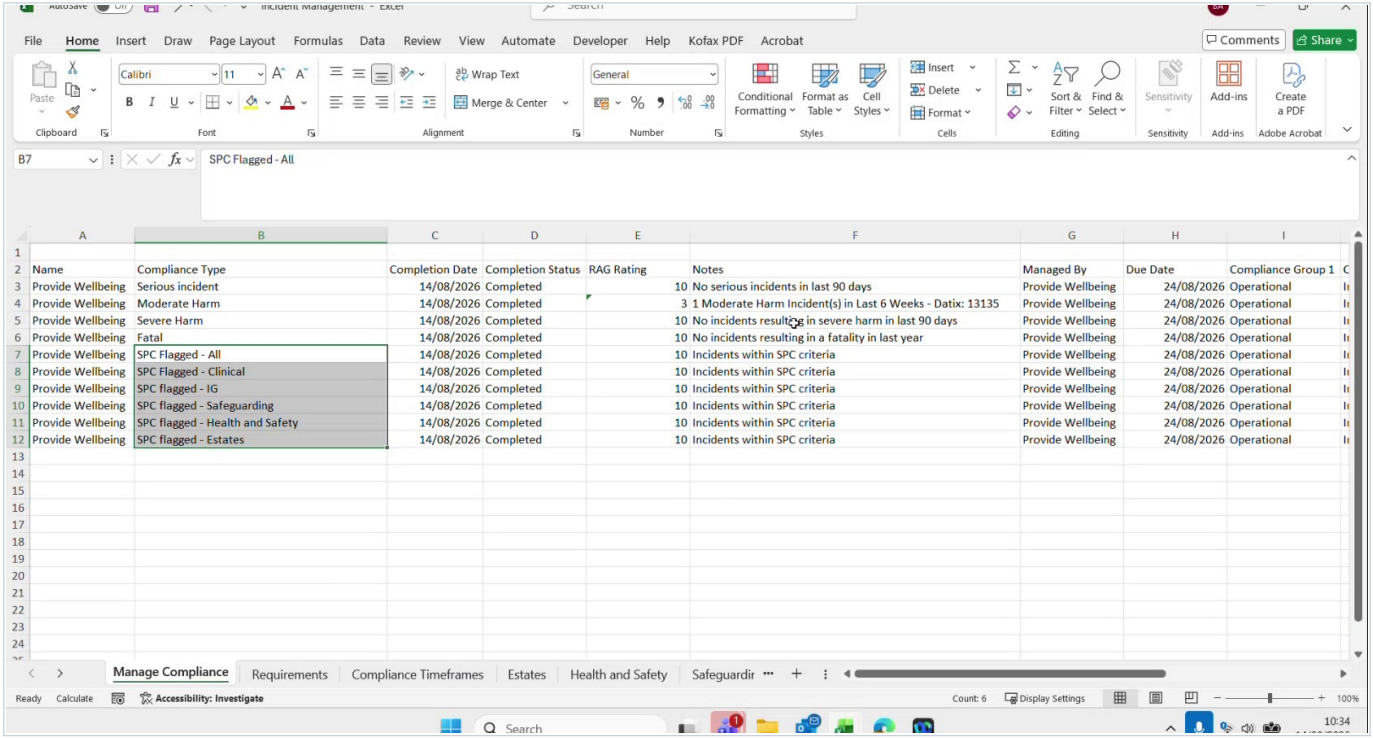

Figure 21 [00:07:45] — Incident Management.xlsm › SPC (All): D57 =IF(P54=2,"",IF(AND(T57=0,P57=0,K57=0,Z57=0),"",C57)) — highlights a month only when an SPC rule fires; rows dragged down each month (“we drop down our heading and our date”)

3. VBA Macros to Explain

For each macro we need either the source code (F-01) or a short written description from someone who knows it. The questions below are the minimum answers needed.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
V-01	**Confirm there is no VBA** in Incident Management.xlsm	None run on screen; the operator contrasts it with Staff Management's VBA.	IT	Discovery	—
V-DS1	**Copy-to-store and Last Updated macros** of Incident Management.xlsm (.bas export), or a statement that the tool has none	The template says each tool copies into Compliance Data "via VBA" and that Last Updated is written "semi-automatically by each user input tool", but the only macro supplied is the Self-Pay one (tab 04 row 49), and the recording shows manual work. The write rule decides how duplicates are prevented.	IT / tool owner	Loader design	DSL §7, DS-12

Name	Compliance Type	Completion Date	Completion Status	RAG Rating	Notes	Managed By	Due Date	Compliance Group 1
Provide Wellbeing	Serious incident	14/08/2026	Completed	10	No serious incidents in last 90 days	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	Moderate Harm	14/08/2026	Completed	3	1 Moderate Harm Incident(s) in Last 6 Weeks - Datix: 13135	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	Severe Harm	14/08/2026	Completed	10	No incidents resulting in severe harm in last 90 days	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	Fatal	14/08/2026	Completed	10	No incidents resulting in a fatality in last year	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	SPC Flagged - All	14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	SPC Flagged - Clinical	14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	SPC flagged - IG	14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	SPC flagged - Safeguarding	14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	SPC flagged - Health and Safety	14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational
Provide Wellbeing	SPC flagged - Estates	14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational

Figure 22 [00:08:07] — Incident Management.xlsm › Manage Compliance: Manage Compliance: 10 rows, completed 14/08/2026, RAG 10 except Moderate Harm = 3 ("1 Moderate Harm incident(s) in Last 6 Weeks - Datix: 13135"), others "No serious incidents in last 90 days", "No incidents resulting in a fatality in last year", "Incidents within SPC criteria"; due 24/08/2026

4. Business Rules to Confirm

The new system calculates these instead of relying on people. The rule must be written down and agreed, because once automated it applies to every record.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
R-01	**Timeframe by Severity** (42 / 90 / 365 days and the review-panel rule)	The SWITCH tests Description, so it never applies (Spec Figure 8 [00:03:48]).	Incident governance lead	FR-IF02	SV-01
R-02	**SPC method for counts** (chart type, baseline, rules)	LCL is negative for counts; rows extended by hand (Spec Figure 19 [00:06:51]).	Incident governance lead	FR-IF03	G-07
R-03	**One RAG mapping** for non-compliance	3 for Moderate Harm, 2 for Severe Harm (Spec Figure 28 [00:08:50]).	Business owner	FR-IF05	SV-02
R-DS1	**Missing record and Active rules**: a requirement with no record counts as Non Compliant, and only Required + Active rows count toward %	Written in the data store's Requirements formulas (tab 04 rows 212–217). The new scoring must keep them or change them on purpose.	Business owner	Scoring parity	DSL §4.3, DS-06
R-DS2	**Incidents sub-group RAG rule**: confirm the order of the checks and the score for two failing Moderate Harm types	The client's formula (tab 04 row 243) scores one Moderate Harm failure 0.5 but lets two fall through to the SPC rules, where they can score 1.	Incident governance lead	Scoring	DSL §5.1, DS-07

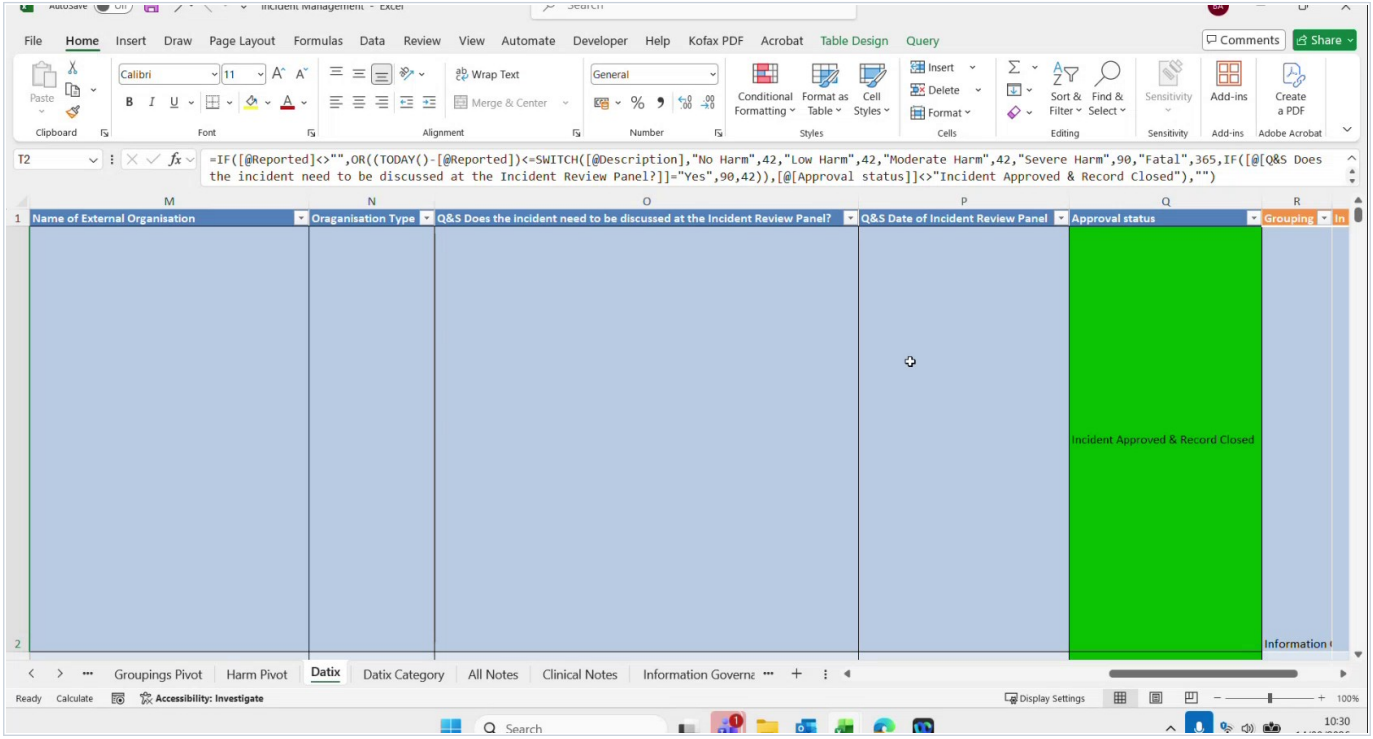

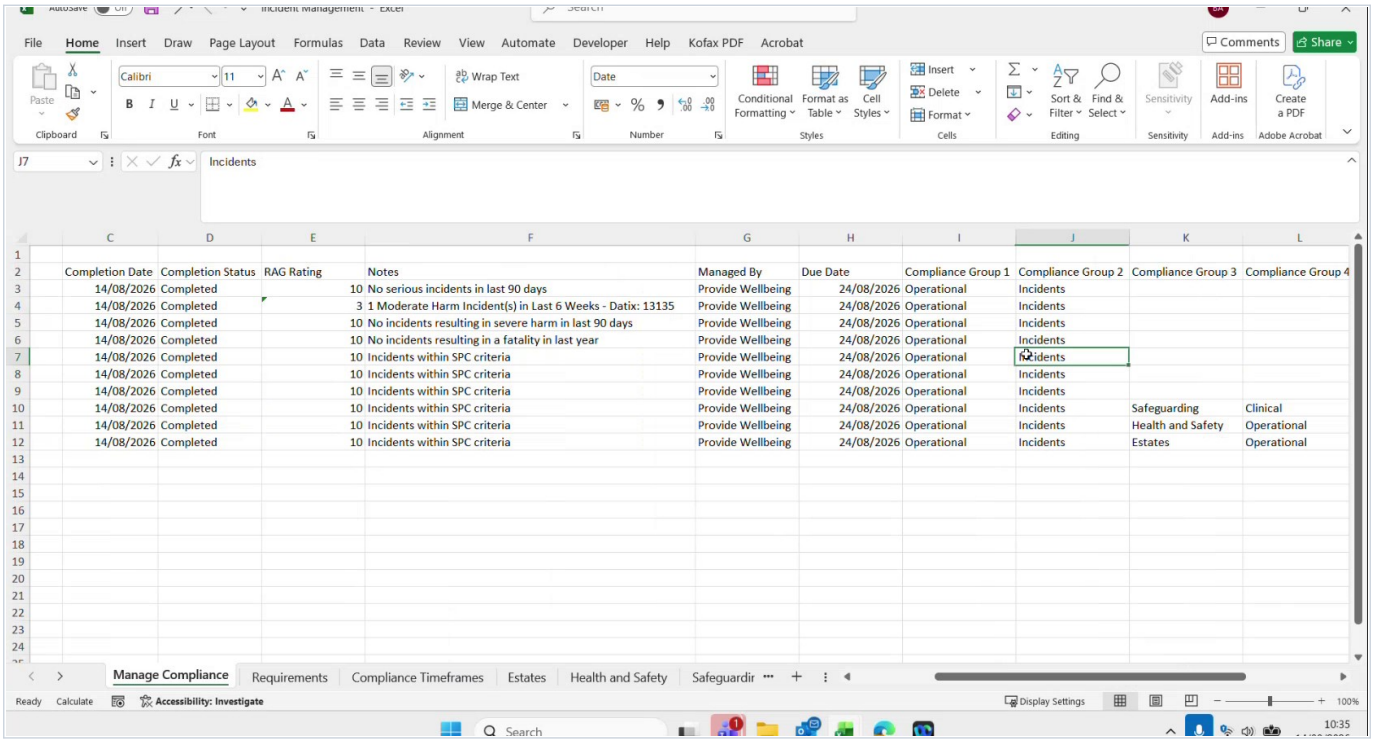

Figure 8 [00:03:48] — Incident Management.xlsm › Datix: T2 In set timeframe, intact on 14/08/2026: =IF([@Reported]<>"",OR((TODAY()-[@Reported])<=SWITCH([@Description],"No Harm",42,"Low Harm",42,"Moderate Harm",42,"Severe Harm",90,"Fatal",365,IF([@[Q&S Does the incident need to be discussed at the Incident Review Panel?]]="Yes",90,42)),[@[Approval status]]<>"Incident Approved & Record Closed"),"") — the column that is #REF! in spec 02

5. Client Decisions Required

These decisions finalise the incident rules the new system will apply automatically.

ID	What is required	Why it is required (evidence)	Who	Blocks	Spec ref
D-01	**Which Datix fields are stored**, especially Description	Patient narratives are in the export and workbook (Spec Figure 13 [00:05:00]).	IG lead / DPO	Before data load	FM-01
D-02	**Store Datix IDs as evidence** on non-compliant rows	Replaces the notes tabs (Spec Figure 15 [00:05:14]).	Business owner	FR-IF04	—
D-DS1	**Keep or retire** the data store's unexplained calculations (Snapshot, Encoded and Rank columns, Column1) as they affect this area	The client marks 17 of the 88 data-store rows as Unclear/Unknown. Rebuilding them without a purpose adds cost; dropping one the dashboard uses breaks a visual.	Business owner + BI owner	Dashboard scope	DSL §8, DS-17

Completion Date	Completion Status	RAG Rating	Notes	Managed By	Due Date	Compliance Group 1	Compliance Group 2	Compliance Group 3	Compliance Group 4
14/08/2026	Completed	10	No serious incidents in last 90 days	Provide Wellbeing	24/08/2026	Operational	Incidents		
14/08/2026	Completed	3	1 Moderate Harm Incident(s) in Last 6 Weeks - Datix: 13135	Provide Wellbeing	24/08/2026	Operational	Incidents		
14/08/2026	Completed	10	No incidents resulting in severe harm in last 90 days	Provide Wellbeing	24/08/2026	Operational	Incidents		
14/08/2026	Completed	10	No incidents resulting in a fatality in last year	Provide Wellbeing	24/08/2026	Operational	Incidents		
14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational	Incidents

14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational	Incidents	Health and Safety	Operational
14/08/2026	Completed	10	Incidents within SPC criteria	Provide Wellbeing	24/08/2026	Operational	Incidents	Estates	Operational

Figure 28 [00:08:50] — Incident Management.xlsm › Manage Compliance: E4 RAG =IF(N4>0,3,10) (Moderate Harm): red is 3 here but 2 in E5

6. Sign-off Checklist

Tick each item when the file is received or the decision is recorded. Phase 1 (Foundation) starts when every **Blocker** is ticked.

✓	ID	Item	Owner	Priority	Received / decided (date, by)
☐	F-01	Datix report definition	Datix admin	**Blocker**	
☐	F-02	Current Incident Management.xlsm	Operator	Phase 1	
☐	S-01	SPC sheets	Operator	Phase 1	
☐	S-02	Harm Pivot	Operator	Phase 1	
☐	V-01	Confirm there is no VBA in Incident Management.xlsm	IT	Phase 1	
☐	V-DS1	Copy-to-store and Last Updated macros of Incident Management.xlsm	IT / tool owner	Phase 1	
☐	R-01	Timeframe by Severity	Incident governance lead	**Blocker**	
☐	R-02	SPC method for counts	Incident governance lead	**Blocker**	
☐	R-03	One RAG mapping for non-compliance	Business owner	**Blocker**	
☐	R-DS1	Missing record and Active rules	Business owner	Phase 1	
☐	R-DS2	Incidents sub-group RAG rule	Incident governance lead	Phase 1	
☐	D-01	Which Datix fields are stored, especially Description	IG lead / DPO	**Blocker**	
☐	D-02	Store Datix IDs as evidence on non-compliant rows	Business owner	Phase 1	
☐	D-DS1	Keep or retire the data store’s unexplained calculations	Business owner + BI owner	Phase 1
